Subject: EPA HQ inquiry on HP cleanup

John Chesnutt just called and said he got a data call from EPA HQ to answer some congressional questions on HP and the 49ers scenario. He was asked: 1) status of the site, NPL, RCRA…; 2) what cleanup issue; 3) cleanup timing; and 4) cost to complete. I provided the party line "(b) (5) to through FY06 spent and (b) (5) to complete". I also let him know the (b) (5) estimated pricetag for the 49ers and that it included (b) (5) in acceleration costs.
