> Dr. Lauren Zeise (Head of OEHHA, CalEPA) and I are organizing a 1.5 day meeting on March 7 and 8, 2018 on the University of California Campus in Berkeley CA. We propose to discuss the Key Characteristics approach to assessing mechanistic data for carcinogens and to determine if this approach can also be applied to endocrine disruptors and reproductive toxicants as suggested in a recent NRC report.
>
> We have developed a draft agenda that allows input from all participants. This will be a small group discussion-based meeting. One of the outcomes of the meeting will be a commentary for publication. None of the speakers/discussants, apart from the CalEPA/Berkeley/Davis participants are confirmed as yet.

> Session 1:

Application of the key characteristics of carcinogens – Martyn Smith, Kathryn Guyton, Weihsueh Chiu/Linda Rieswijk. Discussants: Vincent Cogliano, Luoping Zhang for CIC.

Seession 2:

Possible key characteristics of reproductive toxicants - Xabier Arzuaga, Russ Hauser, Ulrike Luderer. Discussants: Gail Prins, Brenda Eskenazi.

Session 3:

Possible key characteristics of endocrine disruptors – Tom Zoeller, Laura Vandenberg, Michele La Merrill. Discussants: Linda Birnbaum, Tracey Woodruff.

Session 4:

A list of key characteristics for reproductive toxicants and endocrine disruptors – Martha Sandy and Catherine Gibbons will poll the group to make lists with justifications.

Thursday March 8; 7am to 12pm.

Session 5:

European comments on proposed lists and justifications - Andreas Kortenkamp (Brunel University, London), Martin van den Berg (Utrecht), Niels Skakkebaek (Copenhagen)

Ulla Hass and/or Marta Axelstad-Petersen (Tech University of Denmark)

Nikolas Anderson (ECHA).

Session 6:

Conclusions – Final list of new key characteristics for publication.

Martyn Smith and Lauren Zeise co-ordinate discussion.

We hope that you will be able to join us. If you are able to do so, please inform me of your willingness to participate and whether you will require funding for travel.

Sincerely, Martyn

Martyn T. Smith, Ph.D.
