Subject:	Hunters Point Shipyard - Addition of Radiological Impacted Building
Date:	Thursday, February 7, 2008 8:56:22 AM

All,

This is to inform you that the Navy is radiologically impacting an additional building at Hunters Point Shipyard. Building 439 is impacted due to the actions of a former tenant (metallurgical laboratory) that had leased the corner area of the building (with separate exterior access). This building area will be radiologically investigated, remediated as necessary, and proposed for free release during the same investigation period as the other Parcel 49 radiologically impacted buildings.

Please give me a call at (619) 532-0912 with any questions or Laurie Lowman at (757) 887-4692.

Ralph E. Pearce, P.E.
