Subject: Fw: emission calculators for animals
Date: 02/11/2011 11:22 AM

I have sent a little more time since the call yesterday and have updated the list I sent yesterday. Many of they point back to work done by University of Nebraska.

Nebraska

http://water.unl.edu/web/manure/emissions-rule

Iowa

http://www.extension.iastate.edu/airquality/cerclaepcra.html

Minnesota

http://www.extension.iastate.edu/airquality/cerclaepcra.html Appears based on Nebraska data

Michigan

http://www.animalagteam.msu.edu/AirQuality/EPCRAinformation/tabid/285/Default.aspx

Missouri

http://nmplanner.missouri.edu/regulations/CERCLA_EPCRA.asp

North Dakota Has several including National Cattlemen's Assoc

http://denr.sd.gov/des/gw/SARATitleIII/Emissions_from_Anima_Waste.aspx

Milk Producers

http://www.nmpf.org/washington_watch/environment/cercla-epcra Uses Nebraska method

http://www.enviroag.com/Home/EPCRA/TAD.pdf Based on Texas & Kansas State research

Poultry in KY

http://www.ca.uky.edu/poultryprofitability/Cheeps_and_Chirps/Update_on_Ammonia_emissions_reporting_requirements.pdf

http://japr.fass.org/cgi/reprint/14/3/635.pdf

Estimate of number of farms at 100 lb RQ/number of animals to equal 100 pounds

http://ohioline.osu.edu/aex-fact/pdf/0720.pdf (based on 2005 data)

http://www.manure.umn.edu/assets/AFOCompliance.pdf

http://nmplanner.missouri.edu/regulations/EPCRA-G-F-lagoon.html

http://ag.arizona.edu/ANS/swnmc/Proceedings/2006/Auvermann_SWNMC2006.pdf (beef based on KS state and Texas)
