Subject:	June 3rd lead data.
Date:	Friday, June 14, 2013 2:55:34 PM
Attachments:	Exide data June 3-13.xlsx

Attached is the June 3rd ambient lead monitoring data for the Frisco area. The monitor with the highest reading was the Eubanks monitor, with a reading of 0.0375 micrograms per cubic meter. The wind speed was between 2.8 to 7.1 miles per hour, with a maximum wind gust of 13.8 mph. The wind direction was from the east-northeast to the South-by-east.

On June 3rd, Exide and its contractors were conducting decontamination and demolition activities at the site. Work hours were from 7:00 a.m. to 11:30 a.m., and 12:30 to 5:00 p.m. Exide's contractors conducted lead monitor for approximately 10 hours. The monitor nearest the Eubanks monitor had a reading of <0.18 micrograms per cubic meter (Note that the testing results were less than the numerical value reported.)
