NOTE: IF ALL PAGES ARE NOT RECEIVED, PLEASE CALL (714) 851-3099

Dear Mr. Esfandi,

Per our conversation yesterday, the Armstrong closure report cannot be reviewed by LACDPW for at least three weeks. Since the rains are coming shortly and the clarifier is currently subject to being filled with stormwater runoff, the client has asked if it is possible to expedite the process so that the cavity can be filled before any water enters the unit. This will save the client on water disposal costs to have the unit pumped out. We understand that you are already overloaded with cases, however we appreciate whatever you can do. Should you have any questions or comments, please do not hesitate to call me at (714) 851-3099.

Respectfully,
CORNERSTONE TECHNOLOGIES, INC.
