**Subject:** RE: COPC Mapping Issue, Documentation....

Hi Rob,

I checked with our consultants and confirmed that there are no other results from other alternative RM 10.9 tests that used areas and/or RI data that differ from the test presented in Section 6.2 of the paper.

Please note that the full set of inputs and outputs (100MB+) that supports the COPC mapping paper is available. Please let me know if you would like us to send you this information (it will probably need to be sent on an external drive, it's too big to load onto Sharepoint). I had meant to include this in the transmittal memo for the rest of the documentation.

Is there any other information you are specifically looking for or think was not forwarded? Please let me know.

Thanks,

Stephanie

Stephanie:

This acknowledges CPG's receipt of the supporting material for the Region's June 10, 2015 paper on COPC mapping.

The CPG requests the Region's confirmation that there are no other results from other alternative RM 10.9 tests that used areas and/or RI data that differ from the test presented in Section 6.2 of the paper (i.e., 59.7 acres and only 2008 & 2009 data in the RI data set). If such tests were conducted, then the CPG requests that these tests be forwarded as soon as possible.

As to discussing the COPC mapping next week, the CPG and its consultants have not had sufficient opportunity to review and internally discuss the June 10 and July 20 material prepared by the Region's contractor. The CPG will contact the Region in early August to discuss a path forward for engaging on the COPC mapping.

Please contact Bill Potter or me with any questions.

Thank you.

R/

Rob

Hi Rob - as requested, attached is a transmittal memo and documentation supporting EPA's Review of the Cooperating Parties Group Approach to Mapping Contaminants of Potential Concern paper which was sent to you on June 10, 2015.

I realize this may be too short notice, but we are available to discuss this with you either the

afternoon of July 28th or anytime July 29th. Please let me know if you want to schedule something on one of these days, or if you have any questions.

Thanks,
Stephanie
