Subject: RE: COPC Mapping Meeting - Jan 27

Jennifer:

I will discuss with the CPG about providing a meeting outline and get back to you. There is still a lot of work on the presentation that is ongoing so I am not sure that the CPG can commit to providing a presentation in advance of the meeting. After further internal discussions - the CPG believes it will need a one hour block for its presentation - we anticipate that there will be questions and discussion during the presentation.

What is the status of the agenda? Also does EPA intend on providing an outline of and/or its actual presentation in advance of the meeting?

Finally, at this time, I do not believe the CPG has any specific questions about the Region's white paper. As I have previously stated - the CPG has been working to develop a mapping approach that addresses the Region's concerns about uncertainty and bias. Thus, it is fair to say that the CPG has heard the Region's concerns and as a result is moving forward to address those concerns and not focusing on past work.

Please contact me with any questions.

Thank you.

Rob,

Since the CPG is planning to present on a conditional simulation approach, it would be very helpful if we could get an outline of the CPG's Jan 27th presentation in advance of the meeting. If the CPG could provide the presentation in advance of the meeting that would be very helpful as well. We'll want to be prepared as best we can to discuss and ask questions on the CPG's approach.

Could you please also let us know if there are any specific questions that the CPG anticipates

asking (clarifying questions about the analysis in the EPA memo, etc.).

Thanks in advance,
Jen

Jennifer:
CPG's presentation is going to be longer than 20 minutes - probably 30 -40 minutes that is assuming no questions during the presentation.

The CPG plans to focus on the conditional simulation approach that we have been developing that I mentioned to you and/or Stephanie before Thanksgiving. We are not planning to focus our presentation on the EPA's June paper (or the CPG's paper) other than CPG has acknowledged and is working toward addressing the concerns the Region has raised. We are hoping to focus on developing a consensus approach on the mapping with the EPA.

Please contact me if you wish to discuss.

Thank you.

I think it would be helpful if we provide you clarity on the key items we plan to discuss.
I included the rough draft outline/meeting framework below that I've drafted thus far.

I'll add in EPA's presentation items and send over by early next week.
If you want to add in any presentation topics please let me know.

---Draft agenda---
Meeting start time: 9:30 am
- Introductions
- CPG presentation - Please plan for a ~20 minute presentation
- EPA presentation - ~20 minutes. EPA will cover:
o
- Follow up discussion regarding presentation topics
- Discussion about next steps - risk assessment, FS, PRG, RAL

Thanks
Can we put together a draft agenda before that - we are in midst of preparing?

Hey Rob,

I just started drafting the agenda. I'll send that over by next week.

EPA's attendees include:
Ray Basso
Steve Ells
Eugenia Naranjo
Stephanie Vaughn
Myself
Scott Kirchner of CDM
Ed Garland Of HDR
James Wands of HDR
John Kern

Marc Greenberg has tentatively accepted as well.

Jennifer:

Can you provide a list of Region 2's anticipated attendees?

Also are you drafting the agenda or should the CPG?

Thanks
