Subject: COPC Mapping Meeting - June 4

Stephanie:

A few questions regarding next week's meeting.

1. When do you expect to provide the follow-up material to the March meeting that John Kern has been preparing?

2. Does EPA expect to provide the bulk of the presentation and material for next week's meeting

3. If not, should the CPG be prepared to discuss the slides that we provided to the EPA in April?

4. Is there anything that the CPG should prepare for the meeting?

5. Are Steve Ells and Marc Greenberg attending the meeting?

6. Where is the meeting located (floor/room)?

The CPG participants are likely to be Sue Harden, Doug Reid-Green, Gary Fisher, Bill Potter, Mike Barbara, John Connolly and me. I will confirm the participants this Friday.

Thanks

R/
Rob
