Hi
I just suggest adjusting the times so that Walter gets 30-45 minutes rather than 1 hour to speak on the agenda - and then leaving more time for Q&A at the end - We usually let folks do Q&A after each speaker so if we want to do that we need to reflect that in the agenda because that's where we usually get sidetracked with our time.
Thanks!

1) September 20 is good for Walter Mugdan, Superfund Director, to attend the CAG meeting. He will be presenting on the lower 8 mile FFS remedial options.

2) A call is needed, we propose:
Tues, 9/4, between 12:30 and 1:30
Wed after 1:30 pm
Thurs probably any time, but preferably after 9:30am.

As I understand it, the CAG could potentially focus on lower 8 mile options, Newark removal summary and Lyndhurst removal bench scale results, due 9/17, but not sure if we'd be ready to talk about it on 9/20. Probably too much?

Let's discuss next week. Enjoy your holiday weekend!

Absolutely please bring him. We should have a CAG planning meeting next week. We have two major topics plus the BonJiornos who will want to take up some time re-hashing air issues over Newark removal and upcoming Lyndhurst project. not sure we have time for lengthy removal update (promised) plus Walter's in depth lower 8 options presentation and NRRB letter discussion. I am copying Liz and Alice and Doug Sarno and suggest we all conference with Sarno next Tuesday or Wednesday (Liz I believe is on vacation). Once we have a recommendation Doug can propose recommendation to Debbie and Carol. Any time Tuesday or Wednesday after 11 is good for me. Thursday good also.

Betsy Donovan has a mentee in the Drinking Water and Municipal Infrastructure Branch, Dan D'Agastino, who's interested in learning more and, possibly, helping out with the Passaic.

I mentioned the upcoming CAG meeting and he's interested in attending. Before I say yes, I just want to make sure neither of you have any concerns with this.

Ray -- this is the same person Eugenia had sent an email about. I had suggested he contact her to see if there were any technical things he could help with.

Thanks
