Hi, so just fyi we've now confirmed this event for Wednesday, 8/7 (not 8/5) – thanks.

I think I found someone in DC with that reservoir list, hope to get it to you soon.

Hi again – we are now looking at Wednesday, 8/5, 11am.

Delays were caused by a bridge over the Passaic, damaged during Sandy, that is still undergoing repairs – bridge needs to open to allow dredging equipment to be moved upriver to Lyndhurst.

Hi again – this is outside your district, but I just wanted to give you a heads-up that we are holding a press event to kickoff the CPG's dredging of 20,000 cubic yards of contaminated sediment at Lyndhurst; Passaic river mile 10.9 – the event is Monday, July 8, with our RA Judith Enck, Congressman Bill Pascrell, local elected officials, community group members, etc. – the venue is Riverside County Park North, Lyndhurst.

Here's the CPG's fact sheet on the project, which we helped develop:
http://www.lowerpr.com/pdf/RM109SiteFlyer_Final.pdf

Please let me know if you have any questions – thanks!

Hi Chris,

Would you know if there were any other materials distributed at the briefing on the Lower Passaic? We are starting to hear from the Cooperating Parties Group and I just wanted to make sure I had all the latest information.

Thank you,

Katie

Hi all, just a quick note to let you know about a meeting that has very quickly come together….

What: Present EPA's potential plans for cleaning up the lower 8 miles of the Passaic River, and compare to the proposed cleanup plans of the "Cooperating Parties Group" – plus Q&A.

When: Wednesday, march 20, 9am-11am

Where: Lyndhurst Senior Center

Who: Walter Mugdan, Ray Basso, Alice Yeh from EPA's Superfund program.

Please let me know if you'd like to send a representative – We have also invited the 17 affected municipalities as well as county officials and state assembly members.

In addition, I've attached a 2-page fact sheet that you may find useful.

Thanks!
