Hey, I just let Lisa know because I was pretty sure she had already reached out to Artie (and she had) – so she's calling again now.

Thanks for the heads up on the disconnect, hopefully this gets worked out shortly.

Hey Chris - Just spoke to Artie and he said he hasn't heard from Lisa. Is there something specific she needs before we set a date for this? I'd like to resolve this as soon as we can so we don't lose the date. Thanks! - T

Hi Tom – I understand that Lisa P has a call in to Artie to discuss, and that he is out today, so I am hopeful this all gets resolved tomorrow.

Will keep you posted, thanks!

Hey Chris - We are definitely interested. Since Congress is in session that week, Mr. Pascrell will be in DC on 7/9. He is available July 1, 2, 8 (am only) and 15. Let me know if any of these work. Thanks! - T

Hi Tom – ps, re below – I'd like to check the Congressman's availability for a public press event to kickoff this project, on either the morning of Tuesday, July 9 or Thursday, July 11.

Thanks!

Subject: June 5 Public Information Session regarding the upcoming Passaic River dredging project adjacent to Lyndhurst

When: Wednesday, June 5th, 7-9 pm.

Where: Lyndhurst Senior Center, 250 Cleveland Avenue, Lyndhurst, NJ

What: A public information session consisting of a presentation and Q&A followed by an opportunity to meet one-on-one with representatives of the EPA, Cooperating Parties Group (CPG) and other government agencies.

Why: Starting in late Spring 2013, a cleanup project will begin in an area of the Passaic River adjacent to Riverside County Park North and Thomas F. Gallagher Memorial Recreation Area. This work is being done by the Lower Passaic River Study Area CPG with oversight by EPA. The work will include removal of approximately 20,000 cubic yards of contaminated sediment from the River bottom over a period of about eight weeks. Work is expected to take place 12 hours a day for six days a week. After dredging work is completed, a cap will be installed in the dredged areas. Both dredging and capping work is expected to be completed by this Fall.

More information about this project à http://www.rm109.com/

Thanks and please let me know if you have any questions.
