Subject: Info about Passaic River study for HEP report

Hi Alice,

I hope you're doing well and having a good summer!

I'm putting together HEP's annual report to the National Estuary Program on activities carried out by HEP partners related to the NY-NJ Harbor Estuary and wanted to touch base about the Passaic River site. As usual, I'm looking for an update on activities carried out and amounts contributed by EPA (not the PRPs) during this fiscal year (Oct-1-13 through Sep-30-14) (ballpark estimate is fine and I don't need a ton of detail). In the past, no $ amounts were available, although last year we were able to report on the cleanup at Lyndhurst (see attached).

Were there any activities this FY for which a dollar amount is available? Anything within the 17 miles would be relevant (but we need a $ figure to be able to report it). I'm also contacting Elizabeth and Eugenia about the Removal Action and NB study.

Thank you in advance for your time and help!

Gabriela.
