Yes, I will send shortly.
The slide deck is a very high level description of the statutes and agencies involved in chem regulation. I identify TSCA and FIFRA but don't describe any details on their implementation.

Tina and Emma,

OCSPP IOAA is unaware. Could you please send Nancy (cc Jennifer and myself) a copy of the presentation.

Thanks

Yes, absolutely, she will if she hasn't already! That's our normal protocol.

Understood. But if Emma is representing EPA, then she should touch base with the OCSPP folks and make sure that any of her regulatory discussion has been approved. Assuming that her focus is really all about "alternative assessments," then I suspect this will be a minor inconvenience.

Thanks

Thanks for your interest, David. As you may know, Emma came to NCEA from OCSPP's Safer Choice Program. Even now, she works closely with OCSPP, and the subject of 'alternatives assessment' or 'safer alternatives' remains of great interest to her professionally. This is the 'regulatory' context for her presentation. I have copied Emma in case she has additional insights to provide.

Tina,

Regarding Emma's lecture (highlighted below), is she conducting this lecture as a representative of EPA? Why is ORD presenting a lecture on "chemical regulation?" Did Emma work with OCSPP to ensure that her presentation is factual and accurate?
