Ok.

We should have the meeting....

>>> "Vaughn, Stephanie" <Vaughn.Stephanie@epa.gov> 12/10/2013 3:03 PM >>>

I think I had said I would get you something by tomorrow, which is what I am planning to do, okay? There's something else I'm trying to wrap up this afternoon.

Note that Ray will not be able to attend the meeting next week. As such, it should be a technical, information-only type meeting. If you want to bring fewer people, or postpone the meeting until Ray is available, that would be fine (however, Ray's schedule is quite booked for the rest of the year, so it could be a significant postponement).

I will be attending the meeting along with probably 2 people from CDM.

Please let me know how you want to proceed.

Thanks

You were going to provide me something today....can I expect it despite the wild winter weather ....
Integral is pulling together an agenda for next Tuesday's meeting....

Hi Rob,

We look forward to receiving your draft, preliminary CSM for the 17-mile LPRSA on December 20th, along with a fully updated schedule.

We understand that this will be a preliminary, first draft of the CSM that is still under development. As such, we will not request formal review of this version outside EPA and our contractors. However, if an outside party asks if there is a CSM to look at, or submits a FOIA request, then we will share the document.

Thanks,
Stephanie
