Stephanie:

Attached for your review is the draft QAPP Addendum that describes the carp harvest pilot study that you and I have previously discussed.

It is my understanding that the CPG members participating in the Cooperative NRD discussions with the NRD Trustees have discussed the concept and as well as performing a pilot during a recent meeting. The CPG seeks EPA approval to conduct this 3-5 day pilot in September or October 2013, so that it can be evaluated and potentially incorporated as part of FS alternatives as part of the LPRSA RI/FS.

Please let me know if you have questions/comments.

Thanks

R/

Rob
