20130529 EMBM Data.pdf

Hi Stephanie,

Attached is an updated figure of the EMBM data, river miles visible this time.

Marcia

Thanks, Rob – I looked these over quickly and one comment jumped out at me. The RM locations on the right section/panel of the EMBM data file are not fully visible. I know we can figure them out, but if it's not too much trouble, could you adjust these? Otherwise, I'll just add text to the email I use to forward the figures to the PAs.

In any case, I'll wait to send anything out until I hear if there are any changes to the proposed SSP2 locations.

Stephanie

Stephanie:

Attached are the SSP2 figures that requested requested. They are very busy, but Marcia included everything you asked for.

Marcia and I are reviewing the updated table of locations and I am planning to send it to you on Monday - so there might be some changes to the proposed SSP2 locations on these maps

Have a great weekend.

R/

Rob
