EPA-R9-2018-008200	Lindsay Garner	HSG, LLC	Hello, My name is Lindsay Garner and I work for HSG, LLC, a contractor to the Federal Government. HSG is currently preparing a Potentially Responsible Party (PRP) Search Report for the U.S. National Park Service (NPS) regarding two right of ways (ROWs) known as CARI-01328 and CACA-00390. These ROWs deliver water and electrical service to the Goldome Mill site (EPA ID: CAN000908600), which had a removal action completed. I have reviewed the Administrative Records for the Goldome site available online at https://cumulis.epa.gov/. Are there other files (including confidential, sensitive, privilege, other) for the Goldome Mill site that the U.S. Environmental Protection Agency could provide to HSG, as a government contractor, or directly to the U.S. NPS (i.e., David Burdette, NPS Project Manager) as relevant information regarding the target ROWs could potentially be included with the Goldome Mill files. For example, if excavation work was completed at the Goldome Mill, underground services may have been located, documented, etc. If further information is needed, please do not hesitate to contact me. Thank you, Lindsay Garner	5/31/2018

EPA-HQ-2018-008193	Ms. Joelle M Strom	University of Cincinnati	In an effort to determine a safe threshold level of airborne manganese, Dr. Erin Haynes at the University of Cincinnati is undertaking a project investigating the historic levels of manganese pollution in Marietta, OH. I am gathering data for this analysis, and attempted to access the Emissions Inventory System, although this database appears to be closed to the public. For our analysis, we need the manganese (or manganese compound) emission report for Eramet Marietta Incorporated. The address of this industry is 16705 OH-7, Marietta, OH 45750. An ideal data set would include monthly and annual emissions data for this point source from January 1999 to December 2013. All supplementary information in the report about stack diameter, stack height, gas temperature, etc. is important for our analysis. The reports for each individual stack at the refinery at each time point, as well as the fugitive emissions reports at each time point, are necessary. I am requesting these emissions reports for our public health research.	5/31/2018

EPA-R5-2018-008150	Mr. Tony Kollasch	SCS Engineers	I am looking for a report referenced in a journal related to a Chicago Incinerator (possibly the Chicago SW Incinerator at 1500 Pershing?). The report was prepared by Dames & Moore in 1995, and had a title that resembled "RCRA Facility Investigation - Final Report". Can you help locate this report? We are doing research on heavy-end hydrocarbons in manufactured gas and in process ash. The document may play a role in a lawsuit by an Illinois municipality. Thanks.	5/30/2018

EPA-R2-2018-008101	Ms. Jennifer Tharp	Squire Patton Boggs	This is a request under the Freedom of Information Act (FOIA), 5 U.S.C. § 552 and implementing regulations in Part 2 of Title 40 of the Code of Federal Regulations. I am requesting copies of all records that contain information having anything to do with the Limetree Bay Terminals (LBT) facility and air permitting within the past three years. Such records could include, without limitation, information pertaining to projects regarding the restart of idled refinery units as part of the MARPOL Project; an independent LBT project to produce Renewable Diesel Fuel; and LBTâ€™s addition of a deeper water loading configuration to its facility. Please search for responsive records regardless of format, medium, or physical characteristics. We seek records of any and all kind, including but not limited to, electronic records, audiotapes, videotapes, photographs, and computer printouts. If you believe that some portions of the requested records are properly exempt from disclosure, please disclose any reasonably segregable, non-exempt portions of the requested records. See 5 U.S.C. § 552(b). If it is your position that a document contains non-exempt portions of records and that those non-exempt portions are so dispersed throughout the documents as to make segregation impossible, please state what portion of the document is non-exempt, and how the material is dispersed through the document. Mead Data Central v. Department of the Air Force, 455 F.2d 242, 261 (D.C. Cir. 1977). If a request is denied in whole, please state specifically that it is not reasonable to segregate portions of the record for release. If you have any questions regarding this request, please contact me. I look forward to receiving your response, and thank you for your consideration of this request.	5/29/2018

EPA-R3-2018-008081	Darryl Bates	Magnate LLC	Magnate LLC respectfully requests the following information to do with the EPA operation at 523 Aileen Road, Edinburg VA. 22824; in order to complete the record: Who originally contacted you, pertaining to the conditions at 523 Aileen Road, Edinburg Va. And from what agency was he / she , the representative thereof? Is it unusual for EPA to be present for an illegal dumping complaint? Who made the decision to request permission from Magnate LLC to inspect property? What part of the "risk" findings were found on second testing trip, (Nov, 15-16) that weren't found on the first testing trip, (May 5-6)? Who or whom did you have communication with from local authorities concerning the your testing between your first trip and second trip and when? Who or whom made the determination to move October 11, 2017 meeting from Aileen site to DEQ offices in Harrisonburg? Is it common practice for EPA to use "Super Fund" money to remedy one piece of deteriorating asbestos pipe wrap. a small piece of asbestos pipe wrap used to contaminate a 100 ton pile ofTectum with a history of being asbestos and PBC free, and to remediate a basement of PBCs and asbestos debris that could be easily sealed off from humans, water and air?	5/29/2018
EPA-R2-2018-008078	Mrs. Jacqueline G Bruce	Tetra Tech, Inc.	Freedom of Information Act Request 44 County Road 7, Copake, NY 12521 Dear Records Access Officer: (1) Please email the following records if possible: Tetra Tech Inc. (Tetra Tech) is conducting a Phase I Environmental Site Assessment (ESA) at the above-mentioned property. This investigation is being conducted in order to identify evidence of any recognized environmental conditions (REC) that may have an adverse environmental impact upon the subject property. Tetra Tech is requesting any records you may have concerning the property of interest. Any assistance from your office would be greatly appreciated. (2) If all the requested records cannot be emailed to me, please inform me by email of the portions that can be emailed and advise me of the cost for reproducing the remainder of the records requested ($0.25 per page or actual cost of reproduction). (3) If the requested records cannot be emailed to me due to the volume of records identified in response to my request, please advise me of the actual cost of copying all records onto a CD or floppy disk. (4) If my request is too broad or does not reasonably describe the records, please contact me via email so that I may clarify my request, and when appropriate inform me of the manner in which records are filed, retrieved or generated. If it is necessary to modify my request, and an email response is not preferred, please contact me at the following telephone number: 845-695-0273. If for any reason any portion of my request is denied, please inform me of the reasons for the denial in writing and provide the name, address and email address of the person or body to whom an appeal should be directed. Thank you in advance for spending time on this matter.	5/29/2018
EPA-R9-2018-008607	Mr. Francisco Da Costa	Environmental Justice Advocacy	Please provide me all information - pertaining to Community Benefits - all grants and other monies provided to the various entries - as mentioned in the attached two document - all this and what else available under the Freedom of Information Act and Privacy Act. To be more specific all Community Benefits handled by Dwayne Jones, Masood Ordikani, and Juliet Ellis - the amount of disbursements made to the heads of the entities. One of the attached document have their names - you just have to do down the line and do due diligence. I am specifically interested in millions of dollars given to Young Community Developers - and expanded by Walton Shamann - he is running for District 10 and his main benefactor is Dwayne Jones using tax payers money as a tool - acting as a consultant and pandering. You have in the past not been transparent - I leave the Federal Bureau of Investigation and the SF Controller's Office to do the heavy lifting - when it comes to the investigation per se. What is important to note - as we follow the money - empirical data is critical to send these crooks to jail. Scum of the Earth. Therefore I am asking you do due diligence - provide me in toto - what I am requesting -we have a team now working on the crooks - corrupt to the core - embedded at 525 Golden Gate Avenue - the headquarters of SF Public Utilities Commission. Attached to this email again - are all the beneficiaries - I have the boiler plate agreement - please provide me the actual signed agreements. You just have to go down the list of the two attachments and do your best. My main aim to find out what is the grant really about and how are these corrupt entities - most of them NOT respected by the suffering community - going to expand the grants. All these grant monies are tax payers money - and these crooks embedded in 525 Golden Gate Avenue and making hay while the sun shines. This nonsense has been going on since 2012 - and must come to an end.	5/29/2018

EPA-R10-2018-008074	Jeff Callis		Good Morning, In October of 2014, the EPA, along with the Nuclear Regulatory Commission and the Idaho Department of Environmental Quality, became involved when radioactive materials were found in an apartment unit at the Renaissance Apartments at Hobble Creek in Boise, Idaho. Two vehicles belonging to the renters of the apartment unit needed to be cleaned by the EPA of radioactive contamination. Could you tell me the year, make, and model of the two vehicles that needed to be cleaned? My request is that I be given information (notes) related to the vehicles that were owned by the residents of the apartments and cleaned by the EPA. I live in REDACTED and want to be assured that when me or anyone in my immediate family might buy a car from the used-car market that we are able to avoid unintentionally buying one of the cars that needed to be cleaned because of that incident.	5/29/2018

EPA-R7-2018-008044	Mr. Christopher Ball	Foley and Mansfield	We are requesting certified copies of all records related to inspections the EPA conducted at the facility located at 6040 N. Lindbergh Blvd., Hazelwood, Missouri. The facility operated under three different names: Kroger, Schnuck's Dairy, and Prairie Farms Dairy. We would like all records related to inspections during the years 1970 - 1995.Thanks for asking! Since this facility is a dairy, I was looking for any inspections that might reference the cleanliness or uncleanliness of the site itself. I know that is not necessarily the EPAâ€™s purview, but if there was some sort of contamination of the facilities air of the structure itself, that was what I was hoping to capture. I had made a previous request specific to records of asbestos at the site, but I wanted to make a broader request to see if I could capture the general cleanliness of the inside of the facility in question. So, I am guessing that Iâ€™d probably be looking for inspections relating to the air, etc.	5/25/2018

EPA-R4-2018-008020	Alexander Ross	United Consulting	We are conducting a Phase II evaluation of the environmental contamination and exposure related to the historic facility located at 1121 Allene Avenue, Atlanta, Georgia, Fulton County, 30310. In operation under the name J & W Pallet and Drum Company. As the target of concern is the underway 'Atlanta Beltline, Southern Corridor Expansion', an extensive public multi-use trail to span around Atlanta proper, we seek to more fully understand the potential of exposure and therefore obtaining additional records. Through standard regulatory review, provided by private third-party research, the facility was listed on the CERCLIS databases (ID â€“ 0407788). If at all possible it would be immensely useful to have access to underlying reports concerned with the CERCLIS status of the site, specifically as it relates to contaminant monitoring, previous groundwater modeling, or current status of anticipated/executed actions.	5/24/2018

EPA-R4-2018-007883	Ms. Kyla Mandel		Dear FOIA Officer: Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of the Environmental Protection Agency (EPA) Region 4 headquarters visitor log from January 1, 2018 to date of processing. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information on those meeting with EPA officials and staff that is of current interest to the public because of concerns around government accountability and transparency. This information is being sought on behalf of ThinkProgress for dissemination to the general public. I would like to receive all information in a digital format (.pdf, .doc, .docx, .xls). Please waive any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request. I look forward to your reply within 20 business days, as the statute requires. Thank you for your assistance. Sincerely, Kyla Mandel	5/22/2018

EPA-R9-2018-007888	Ms. Kyla Mandel		Dear FOIA Officer: Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of the Environmental Protection Agency (EPA) Region 9 headquarters visitor log from January 1, 2018 to date of processing. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information on those meeting with EPA officials and staff that is of current interest to the public because of concerns around government accountability and transparency. This information is being sought on behalf of ThinkProgress for dissemination to the general public. I would like to receive all information in a digital format (.pdf, .doc, .docx, .xls). Please waive any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request. I look forward to your reply within 20 business days, as the statute requires. Thank you for your assistance. Sincerely, Kyla Mandel	5/22/2018

EPA-HQ-2018-007923	Ms. Jeralyn Moran		I understand that you, the EPA, are barring the Associated Press, CNN and the environmental-focused news organization E&E from a national summit on harmful water contaminants. This is WRONG! I hear they were not invited and there was no space for them, but gave no indication of why they specifically were barred. PLEASE COMMUNICATE TO ME WHY THIS DECISION IS IN PLACE. The health of our Environment depends on inclusive, long-view decisions - this includes transparency for all Americans who care about the future. I am ashamed of our Country at this terrible time under the Trump Administration, and will do all I can to stop this damage.	5/22/2018

EPA-R4-2018-007848	Alexander Ross	United Consulting	We are conducting a Phase II evaluation of the environmental contamination and exposure related to the historic facility located at 72/78/80 Milton Avenue, Atlanta, Georgia, Fulton County, 30315. In operation under the name â€˜U.S. Plating & Bumper Serviceâ€™. As the target of concern is the underway 'Atlanta Beltline, Southern Corridor Expansion', an extensive public multi-use trail to span around Atlanta proper, we seek to more fully understand the potential of exposure and therefore obtaining additional records. Through standard regulatory review, provided by private third-party research, the facility was listed on the CERC-NFRAP database (ID â€“ 0405958). If at all possible it would be immensely useful to have access to underlying reports concerned with the precise status of the site, specifically as it relates to historic contaminant monitoring, previous groundwater modeling, or status updates.	5/21/2018

The documents were released pursuant to the FOIA request EPA-HQ-2017-010756 and can be accessed here: https://foiaonline.regulations.gov/foia/action/public/view/record?objectId=090004d281925cea In particular, I am requesting the Office of Water's initial report on Executive Order 13777 (referenced on page 60), the three attachments related to EPA Administrator Scott Pruitt's meeting with General Motors (referenced on page 991), and the "90-Day Status Report" on progress in implementing Executive Order 13777 (referenced on page 13666). If possible, I would prefer to receive the largest number of records or documents in electronic form. FOIA requires that if part of a record is exempt from disclosure, you must redact and release all segregated parts. Please describe the deleted material in detail and specify the reasons for believing that the alleged statutory justification applies in this instance. If my request is denied in whole or in part, please specify which exemption(s) is (are) claimed for each passage or whole document denied. In addition, please give the number of pages in each document and the total number of pages pertaining to this request and the dates of the documents withheld. Such statements will be helpful in deciding whether to appeal an adverse determination.	5/21/2018

EPA-R4-2018-007847	Mr. Alexander Ross	United Consulting	We are conducting a Phase II evaluation of the environmental contamination and exposure related to the historic facility located at 1214/1246 Allene Avenue, Atlanta, Georgia, Fulton County, 30310. In operation under the names ESB, Inc. and/or EXIDE Technologies. As the target of concern is the underway 'Atlanta Beltline, Southern Corridor Expansion', an extensive public multi-use trail to span around Atlanta proper, we seek to more fully understand the potential of exposure and therefore obtaining additional records. Through standard regulatory review, provided by private third-party research, the facility was listed on the GA-SHWS and CERCLIS databases. If at all possible it would be immensely useful to have access to underlying reports concerned with the CERCLIS status of the site, specifically as it relates to contaminant monitoring, previous groundwater modeling, or current status of anticipated/executed actions. Thank you very much for your time!	5/21/2018

EPA-R2-2018-007792	Ms. Yessenia Funes	Gizmodo Media Group	On Sept. 20, Hurricane Maria hit the island of Puerto Rico. EPA Public Affairs Specialist Elizabeth Sundin informed us that the Battery Recycling Superfund site in Arecibo, Puerto Rico, suffered some flooding in the hurricaneâ€™s wake. In light of this knowledge, the concern residents of Arecibo has voiced to us, and prior incidents related to the Battery Recycling Companyâ€™s site (before becoming a Superfund) where the EPA knew lead was leaching and failed to act in a timely manner to avoid a health crisis, we seek to shed light on the extent of the flooding that occurred after Hurricane Maria, and any contamination that may have resulted from it. Requested Records We request that EPA produce the following communications between it and the Junta de Calidad Ambiental, including but not limited to its governing board members and employees, within twenty business days and further seek expedited review of this request for the reasons identified below. 1. Communications related to the clean up of the Battery Recycling Superfund site after Hurricanes Irma and Maria that occurred both before or after the hurricane 2. Communications regarding any water, soil, or any other environmental contamination concerns as a result of Hurricanes Irma or Maria. 3. Communications highlighting any concerns officials had about the Battery Recycling Superfund site during this time that does not relate to Hurricanes Irma or Maria Please provide all responsive records from September 9, 2017, through the date of the search. The search for responsive records should include all individuals and locations where records are likely to exist.	5/17/2018

EPA-R2-2018-007679	Weihong Han		To whom it may concern, I'm a researcher at LDEO of Columbia University, we're working on the impact of wildfire smoke transported from long-range on NYC air quality. Currently, we get some significant results about the wildfire smoke's impacts on NYC air, especially PM2.5. For enhancing our research proof, we have to collect and analyze more cases. The key part in our research is the impact of wildfire smoke on PM2.5 speciation concentration. We found that EPA daily PM2.5 speciation of EPA monitoring site named "Queens College 2" located at Queens, NYC existed missing during April 2017 to October 2017 (from this link: https://aqs.epa.gov/aqsweb/airdata/download_files.html). We don't know what happens to this. We're wondering if we can get EPA daily PM2.5 speciation of "Queens College 2" during April 2017 to October 2017. If so, what material should we offer? EPA-R9-2018-007910	Mr. Jason Fagone	San Francisco Chronicle	Dear FOIA Officer: Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of all EPA comments from 2017 and 2018 that are related to the cleanup of Hunters Point Naval Shipyard in San Francisco, California. This request includes EPA comments on U.S. Navy draft radiological data evaluation findings for all parcels and buildings at Hunters Point Shipyard, including but not limited to Parcels B, C, D, E, F, G, UC-1, UC-2, UC-3, and building sites. Again, this request is for evaluations done on the cleanup of soil, buildings and any other aspects that were reviewed. I would like to receive the information in electronic format (PDF files preferred), via email. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information on the cleanup of toxic materials at Hunters Point Shipyard that is of current interest to the public because hundreds of people live and work at the Shipyard and are concerned about their health and safety and the health of their loved ones. This information is being sought on behalf of the San Francisco Chronicle for dissemination to the general public. EPA-R9-2018-007585	Scott Pham		Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552 et seq., I request copies of the following records: All entries for the digital calendar of Acting Regional Administrator Alexis Strauss for the dates between 05-01-2016 and the date which this request is fulfilled These entries are what Ivan Lieben has referred to as the â€œunderlying entry for each calendar item.â€ Please see attached emails for more information. I request these records in their native digital format, and not printed out, or converted to PDF files, or otherwise processed in a manner that would decrease the quality, quantity, or accessibility of the original information the records represent. A daily, weekly or monthly summary of the calendar would not be responsive to this request. Acceptable native formats typical of digital calendar output would include, but are not limited to, CSV, ICS and XLSX. If you determine that any fields in the requested data are exempt from disclosure, please redact those fields, specify the statutes that exempt them, and release all other segregable parts. I am comfortable working with very large databases in many standard formats, including SQL, CSV, XML, and Access. Upon request, I would be happy to provide a USB thumbdrive or external hard drive to facilitate the release of these records. Under the FOIA Improvement Act of 2016, agencies may withhold information â€œonly if . . . disclosure would harm an interest protected by an exemptionâ€ or if â€œdisclosure is prohibited by law.â€ If you withhold any of these records, I request as required by the FOIA that you identify the reasonably foreseeable harm that would result from the release of the records. I am a journalist at BuzzFeed News.The requested records will inform my reporting, and I intend to use these records to inform the general public. Accordingly, I request to be categorized as a representative of the news media, per 5 U.S.C. § 552(a)(4)(A)(ii).	5/11/2018

EPA-HQ-2018-007427	Austin K Oakley		I'd like to see the research behind why Diesel Exhaust Fluid (DEF) is beneficial to the environment from an overall perspective? I'm sure there was research into how DEF is more beneficial to the environment compared to all of the negatives involved with it (energy to produce, plastic containers, plastic DEF tanks, lower efficiency diesel engines, more waste based off of lower engine life..etc). I don't think there is any way you can justify DEF as being better for the environment overall, as there is a lot more pollution involved with requiring DEF. Thank you. Statistics are easily faked or altered to give an end of results. Please send all research to justify an overall basis, with references to actual research/data taken on the matter.	5/7/2018

EPA-HQ-2018-007424	Dr. Esme Fuller-Thomson		Re: Freedom of Information Act Request Dear Sir or Madam: This is a request under the Freedom of Information Act. I request that a copy of the documents containing the following information: county, state and national data for the whole US on air quality with respect to the following three factors 1) air lead (pb) levels; 2) particulate matter 10 micrometers or less in diameter (PM10), and 3) particulate matter 2.5 micrometers or less in diameter (PM2.5), and 4) ozone to be provided to me for each of the years 1960 to 2016 (or for all of those years in which this information is available if data gathering began after 1960). Quarterly or yearly data would be sufficient. If this information is available in electronic form, that would be extremely helpful. These data will be used in an unfunded research project I am working on to examine the association between trends in these air pollutants and trends in childhood blood pressure in the US from 1960 to 2016. I intend to publish the results in a peer-reviewed academic paper. In order to help to determine my status to assess fees, you should know that I am a US academic researcher employed by the University of Toronto, a non-commercial scientific institution, and this request is made for scholarly purposes and not for a commercial use. EPA-R7-2018-007432	Fred Lawrence		Please provide groundwater investigation reports with contamination plumes and direction of groundwater flow; including the 2016 and 2017 groundwater monitoring reports. The property I was inquiring about is: Harcros Chemicals Inc, 2040 West River Drive, Davenport, IA 52802, IAD022100671. I am doing an environmental assessment on the west-adjoining property, 2060 West River Drive. There are multiple monitoring well clusters on my subject property, apparently due to a release on the Harcros property. The database indicates that the facility is currently regulated by EPA Region 7 regarding this issue. My client wants to know the most recent concentrations of contaminants of concern and the direction of groundwater flow. If the incident is considered closed, we would like a copy of the EPA closure letter.	5/7/2018

The custodian for this request is the Office of Administration and Resource Management. Please do not construe the subject of this request to meant that I am concerned with records in the Office of the Administrator. I am requesting copies of records that related to events at 223 C St. NE, Washington, DC on March 29, 2017. This includes: ï¿· Records mentioning the names Vicki Hart or J. Steven (â€œStevenâ€ïHart; ï¿· Records mentioning the address 223 C Street NE., Washington, DC. ï¿· Records relating to events at this address on March 29, 2017; ï¿· Records of payments to Vicki Hart, Steven Hart, or 223 C St LLC; ï¿· Records of requests for reimbursement related to Vicki Hart, Steven Hart, or 223 C St LLC; and, ï¿· Records of communications with or mentioning Vicki Hart, Steven Hart, or 223 C St LLC in either electronic or physical format. Per EPA records management policy, electronic messages such as text messages are agency records which must be preserved made accessible under the Freedom of Information Act. As such, a satisfactory search for responsive records includes a search for records created by the individuals listed above using any of the following services: Google Chat, Skype for Business, IBM Sametime, Novell Groupwise Messenger, Facebook Messaging, iMessage; Short Message Service and Multimedia Messaging Service on devices, such as Blackberry, Windows, Apple or Android devices; Google Voice, Twitter Direct Message, Slack, Snapchat, WhatsApp, Pigeon, Yammer, Jive, or other internal collaboration networks. It is my understanding that, in previous administrations, Agency employees referred to principals by their initials, acronyms, nicknames, pseudonyms, or aliases. For example, President Clinton was sometimes referred to as â€œWJCâ€ïand President Barack Obama was referred to as â€œBO.â€ïIn 2013, it was reported that former EPA Administrator Lisa Jackson	5/7/2018

EPA-R4-2018-007360	Ms. Pamela H Germanos	Motley Rice LLC	Victor Mill plant, J. P. Stevens possibly listed as the owner, Greer, SC (Spartanburg County) located at 250 Victor Avenue, Greer, SC which had the plant evaluated for possible contaminates. We need any and all documents regarding this site reconnaissance in Phase I ESA and Phase II which may have been performed by Tetra Tech in 2008. See below: URS Corporation (URS) and SCDHEC personnel conducted a site reconnaissance for a Phase I ESA on September 12, 2007. It was noted during the site reconnaissance that most of the former Victor Mill building structures had been demolished, and the majority of the site surface was covered with demolition debris. Three aboveground storage tanks were also observed; however, there was no evidence of staining or spillage. Additional observations made during the reconnaissance included several unlabeled transformer-type structures among the debris within the interior of the site. URS was not able to obtain any information regarding the past uses of the transformer type instructions or whether they contained polychlorinated biphenyls. URS identified three on-site RECs as described in the report. URS also listed several other concerns, which required additional investigation to determine if RECs existed, particularly buried lead-based paint and asbestos contamination. After completing the Phase I ESA in September 2007, URS recommended that a Phase II ESA be conducted to determine whether soil and/or groundwater underlying the site were impacted by the textile facility.	5/4/2018

EPA-HQ-2018-007165	John Tozzi	Bloomberg News	See attached. â€¢ Records of all EPA employees, consultants, fellows, or other personnel compensated under Title 42 U.S.C. §§209(f) or 209(g). This statute provides for the employment of special consultants (209(f)) or fellowships (209(g)) â€œwithout regard to the civil service lawsâ€ â€¢ Specifically, I request records EPA enterprise HR systems, or other relevant systems, that contain the names, occupations, positions, and compensation (including any salaries, bonuses, incentive payments, or other non-salary payments) of personnel compensated under these provisions between Oct. 1, 2015 and the date at which this search is commenced.	4/30/2018
EPA-2018-007156	Dana Liebelson		Good afternoon, under FOIA, I request copies of the following materials: 1. Copies of the complaints made to EPA's OIG hotline from January 1, 2018 to the present. Please include the summary of the allegation, and as much information as possible without violating privacy regulations. (For example, excluding/redacting names of complainants and alleged offenders is fine, if necessary to protect privacy.) I am only looking for those complaints where an OIG investigation or audit was opened, the matter was referred to EPA management, or the matter was referred to another federal agency. If the complaints are not sorted this way, then please send all complaints. This information is being sought on behalf of the Huffington Post for dissemination to the general public (though I will not be releasing information that would compromise privacy of individual complainants, like names.) By making this request, I am gathering information because of the public interest in fraud and abuse reported to EPA. Please waive any applicable fees. Release of the information is in the public interest because it will contribute significantly to the public's understanding of what kind of complaints are being made to EPA's OIG. Whatever records are available immediately, should, if possible, be furnished immediately; others as they become available. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Should my request be denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the law and release all segregable portions of otherwise exempt material, as well as the name and address of the person or body to whom an appeal should be directed. I reserve the right to appeal your decision to withhold any information. As I am making this request as a daily journalist and this information is of timely value, please contact me by telephone or e-mail, rather than by mail, if you have questions	4/30/2018

EPA-R6-2018-007148	Ms. Lenore West	Baron & Budd, P.C.	I am looking for documents that relate to asbestos at the IMC facility in Sterlington, LA, from 1971 to 1995. It may not be important within the scope of this request, but there were several IMC plants involving the production of ammonia, methanol and nitroparaffin (NP). Below is the history of the Sterlington Plants: * 1930s The original ammonia plant and the methanol plant were built by the government. Eventually, Commercial Solvents Corporation (CSC) took ownership and operation of these two plants. * 1955 The nitroparaffin plant (NP) was built. There was also a nitroparaffin derivative by-product plant. * 1975 Int'l Minerals and Chemical Corp. (IMC) acquired the plants from CSC. * Mid-â€˜70s 1st new ammonia plant was built and the original ammonia plant was closed. * 1980s 2nd new ammonia plant was built in the location of the closed methanol plant. * 1982 The Angus Chemical Company purchased the NP portion of the facility from IMC and contracted with IMC to operate the plant. * 1991 There was an explosion at the NP plant that killed 8 people. * 1991/92 Angus took control of the NP plants post-explosion and erected a fence between NP and the ammonia plants. * 1992 Koch Industries purchased the two ammonia plants from IMC. The ammonia plants closed in the 2000s. I tried to attach NIOSH report from March 1992, but it would not load. Maybe I can email it to you directly. I need to know if there are more documents on file re: investigations, inspections, reports of infractions, recommendations, etc. Thank you!	4/30/2018

EPA-HQ-2018-007139	Mr. William P Minervini		The Jan. 2018 issue of the journal â€œWater Environment Researchâ€ has the following article by two engineers at the Urban Watershed Research Facility (UWRF) operated by U.S. EPAâ€™s Office of Research and Development in the Edison Environmental Center (EEC) in Edison, NJ: A. Selvakumar; T. P. Oâ€™Connor (2018) â€œOrganism Detection in Permeable Pavement Parking Lot Infiltrates at the Edison Environmental Center, New Jersey.â€ Water Environ. Res., 90 , 21-29. Three types of pavements were monitored at the EEC for indicator organisms. 16 sampling events were conducted in 2015-2016. I request the following additional information: 1. The manufacturerâ€™s name(s) and model(s) of the programmable automatic samplers and 0.1-mm tipping bucket rain gauge used in this research. 2. For each of the 16 sampling events, the indicator organism concentrations in each of the flow-weighted drainage pipe and surface runoff samples. 3. For each of the 16 sampling events, the rain depth and event temperature (air temperature) assigned to the event by this January 2018 articleâ€™s authors (or by U.S. EPAâ€™s contractor, PARS Environmental Inc.). 4. For each of the 16 sampling events, the date, time of day, and sample volume when each discrete sample was collected by the automatic sampler at curb cut 4. 5. For each of the 16 sampling events, the total sample volume collected by the automatic sampler at curb cut 4, and the total sample volume collected by the automatic sampler at curb cut 5. 6. For the period from June 2015 through February 2016 inclusive, the records of rain measured using the 0.1-mm tipping bucket rain gauge as recorded with the data logger, and the daily and hourly air temperature measured at the UWRF weather station. 7. Any project report, other than this January 2018 article, that discusses the methods and results (for the entire period between July 2015 and Feb. 2016) of the research summarized in this Jan. 2018 article.	4/30/2018

EPA-HQ-2018-007138	David Marlowe	Pacific Alternative Energy Resource LLC	Relating to: Renewable Identification Numbers (RINs) under the Renewable Fuel Standard Program & EPA moderated transaction system (EMTS) is a database of record for all transactions involving RINs. Regarding RIN Generator Global Alternative Fuels and/or Rio Valley Biofuels located at 3500 Doniphan Dr El Paso, TX 79922. Our company Pacific Alternative Energy Resource LLC (PAER) sold these biodiesel producers around 800,000 gallons of feedstock in 2013/2014 for which we did not provide the required paperwork for generating RINS and source/origin verification. GAF and RVB merged sometime during this period. GAF's then controller Wesley Melvin was a felon convicted of forgery, embezzlement and evidence tampering and has since committed suicide. We are concerned GAF/RVB forged documents and paperwork around the feedstock PAER sold them, so they could generate RINS for the biodiesel they produced from non compliant feedstock. PAER needs to obtain all RINS related information from GAF/RVB for 2013 and 2014, the RINS credits generated, assigned, sold, retired, etc. PAER currently has lawsuit filed against GAF/RVB and this information is needed as part of the ongoing litigation. EPA-R5-2018-007082	Astrea Taylor	Ohio EPA	Could you please send me any information you may have about the address 810 West Second Street, Xenia, Greene County, Ohio, 45385? It may be known as "Tudor's Biscuit World" or "Former Capitol Cleaners." The owner swears he has a vapor mitigation system, and that U.S. EPA assisted in the installation. However, we have no record of this, and when asked, he has not been forthcoming in any evidence of this. It is unclear from the outside of the building that he has a vapor mitigation system. Additionally, PCE vapor concentrations in nearby soil gas are above chronic response action levels for a commercial/industrial worker. Contact me if you have any questions. Thank you.	4/26/2018

EPA-R10-2018-006954	Keith Bauer		Requesting information regarding property in Ridgefield Wa. 98642 (property ID 213091000). An investor is looking to improve the indicated property and was given a "Disturbance Restriction" letter from the Clark Count Community Development department that was written in June 1984. (Attached PDF file) -EPA 40 CFR 265.117(c) Could we, please, get details regarding the contents and restrictions described that has been placed upon the property? What exact location on the identified property is restricted that will help the Clark County Community Development department to identify and determine an unrestricted, buildable area? What can be done to remove the property "Disturbance Restriction"? Who are all the key contacts and aid that we may be able to refer to? Is there any other information and/or assistance that you can provide that will help expedite the remedial process? We have contacted the Department of Ecology and found this event to include "Pacific Wood Treating Corporation", and "Ridgefield Brick & Tile". The only other information we have is a reference to site ID# WAD009036906 regarding the securing of a specific, capped spot on this property that was previously used as a very small dump site. Thank you very much for your valuable time and help.	4/23/2018

EPA-R6-2018-006760	Ryan Gibson		Hello, I am requesting from the EPA, all data that can be released concerning Texas critical infrastructure sites that report an incident involving a drone/unmanned aerial system (UAS)/sUAS/unmanned aerial vehicle (UAV) flying within proximity to and/or above a site, or if an incident was reported that involved a crash, suspicious activity, taking of video of photographs with a drone, or encounter with the above aircraft. I am a doctoral candidate trying to collect information on the above topic for a dissertation. I would like data from January 1, 2009 through January 1, 2018 for the entire state of Texas. I am not concerned with the name or specific address of the site and understand if it has to be redacted. What will aid me in my research is the city, critical infrastructure sector (water/waste water treatment plant) and the date/year of the incident reported, and if possible, what the encounter entailed (fly over, crash, suspicious activity, photography, etc.). A PDF or excel sheet will suffice.	4/17/2018

EPA-2018-006752	Ms. Miranda C Green	Freelance Reporter	I'm requesting all documents and written correspondence between the Office of the Secretary--which includes Administrator Scott Pruitt and all members of his communications staff, including Jahan Wilcox and Liz Bowman--that includes the words "Rose Bowl" between January 1, 2017 and January 31, 2018. The request comes amidst reports that the administrator attended the 2018 Rose Bowl game in Pasadena, California. Reports came from a letter that Democratic Sen. Sheldon Whitehouse sent to EPA's inspector general on April 3. Link: https://www.cnn.com/2018/03/30/politics/epa-pruitt-travel-whitehouse-rose-bowl-disneyland/index.html I'm seeking all correspondence regardless of format. The public has an urgent need for information about the Administrator attendance at the game because tax payer provided security detail attended the event with him, and it sheds light on how the administration is operating. I am making this request on behalf of The Hill and the records disclosed pursuant to this request will be used in the preparation of news articles for dissemination to the public. Please waive all fees in connection with this request because the disclosure of the requested information is in the public interest and is likely to contribute significantly to public understanding of the operations and activities of the government. I would appreciate your communicating with me by telephone or email, rather than mail, if you have any questions about this request. I declare under penalty of perjury that the foregoing is true and correct. Executed on April 17, 2018. Sincerely, Miranda Green, Reporter, The Hill	4/17/2018

EPA-HQ-2018-006726	Ms. Niina Heikkinen		I request copies of all emails between the Franciscan Action Network and EPA employees, including but not limited to, correspondence from FAN President Patrick Carolan or his staff, with Hayley Ford, Tate Bennett, Ryan Jackson and Scott Pruitt from Feb. 1 2017 to the date this FOIA request is being processed. If possible, I would prefer to receive the largest number of records or documents in electronic form. The information responsive to this FOIA request will contribute to the publicâ€™s understanding of your agency and the government at large. This information is not in the public domain but once your agency responds to this FOIA request, it will be printed on our website, www.eenews.net, which has more than 40,000 unique visitors a day. We expect the information that is produced through this and other FOIA requests to serve as the basis for several articles that explain the governmentâ€™s actions and operations to the public. For more information about Environment & Energy Publishing, please refer to www.eenews.net. FOIA requires that if part of a record is exempt from disclosure, you must redact and release all segregated parts. Please describe the deleted material in detail and specify the reasons for believing that the alleged statutory justification applies in this instance. If my request is denied in whole or in part, please specify which exemption(s) is (are) claimed for each passage or whole document denied. In addition, please give the number of pages in each document and the total number of pages pertaining to this request and the dates of the documents withheld. Such statements will be helpful in deciding whether to appeal an adverse determination. As required by FOIA, I look forward to hearing from your office within 20 days in response to this request. Thank you for your consideration of this request. Sincerely, Niina Heikkinen	4/17/2018

EPA-HQ-2018-006707	Nick Surgey		On behalf of Documented and the Intercept, pursuant to the Freedom of Information Act, I hereby request the following: Records relating to the hiring or re-designation of Samantha Dravis as an "administratively determined" appointment under the Safe Drinking Water Act. Records should include but not be limited to any records that mention any potential or actually implemented salary or benefit adjustments for Dravis. A search may be limited to records created between January 20, 2017 and the date that this request is processed. The requester is entitled to a fee waiver because he is a member of the news media, and because this request for records concerns activities or operations of the government. Disclosure of the requested records will likely increase public understanding of government operations since the requester has the ability and the intention, through the means described below, to effectively convey information contained within the requested records to a broad public audience. Requester is an investigative journalist and the co-director of Documented, an investigative watchdog and reporting group that explores the relationship between industry and government. Nick Surgey writes for the Intercept. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.	4/16/2018

EPA-HQ-2018-006688	Billy J Watkins II		My sister Jaclyn Susan Marie Opp worked in D.C. two summers ago and delivered secret recordings through her internship at the E.P.A. under the Obama administration. She did this likely under the name SusieQOpp and the recordings are of American Citizens unknowingly recorded. These are video tapes of me most likely under the name "Alan" or "Alan Der Show" or my legal name and they are made without my consent and pulled out by other actors through the QClearence of the D.O.E. I believe that Obama thought that Hillary was a sure bet, and so he got interns who could give him tapes near the end of his presidency as a parting gift.... I single out Obama for receiving them because he jokes about classified tapes of "Aliens" in his desk. He did so last November and claimed that he would give these to people who help with Aids awareness on Jimmy Kimmel. "Aliens" is a code word for Alan. They call me Alan because my father's name was Jack Alan Watkins and when my grandfather Billy Jack Watkins divorced my grandmother Louise powerful people punished my father and I through these recordings and other illegal things the tapes will show. My father is dead and I have had countless traumatic events and near death experiences in my life. It's a system of and blackmail and murder, those tapes of me as "Alan" are the keys to helping others as I know it's not just me. ADT security I believe are the cameras used but I only know for sure that they made tapes of me. I have had a terrible life, I'm 35 years old and I've never even had a single friend. That's the life they gave me, constant ridicule as they find my plight so comical to torture a mentally handicapped boy and then man. All because my grandfather divorced a woman rather than play the games of despots. Please, those tapes are of me and they had no right to make them let alone what they do with them.	4/16/2018

EPA-R5-2018-006711	Lenore West	Baron & Budd, P.C.	Hello, I am trying to help a gentleman who worked at the Amtrak railroad shops in Beech Grove, Indiana, for over 30 years. He was diagnosed with terminal cancer due to his exposure to asbestos material. The Amtrak Beech Grove maintenance facilityâ€™s address is either 202 Garstang Street, Beech Grove, Indiana 46107, or 202 Walter A. Barricade Way, Beech Grove, Indiana 46107. The shops are known as the â€œBeech Grove Shopsâ€ or the â€œAmtrak Beech Grove Maintenance Facilityâ€ or a similar variation. The maintenance facility used to be known as New York Central (â€˜22-â€˜68) and Penn Central (â€˜68-â€˜75), but asbestos abatement didnâ€™t occur until after Amtrak bought the railroad in 1975. This is a formal request for all documents involving asbestos from 1975 to the present. Due to our clientâ€™s poor health, can you expedite this request for information? Respectfully, Lenore West Baron & Budd, P.C. 214-475-4370	4/16/2018
EPA-R9-2018-006696	Mr. Steven Castleman	Environmental Law and Justice Clinic	This request seeks all written reports, draft reports and/or any other written communications between the EPA and the US Navy concerning the radiological testing and remediation of potentially radioactive substances at the former Hunters Point Naval Shipyard (HPNS) in San Francisco California from January 1, 2017 through and including the date of this request. This request includes, but is not limited to, the following documents: 1. All reports, including draft reports, submitted to the EPA by the Navy for EPA's review, comment and/or approval, concerning radiological sampling and/or remediation at HPNS. 2. All responses, including draft responses, transmitted by the EPA to the Navy in reply to or concerning the Navy documents sought by item #1 above. 3. EPA-R9-2018-006644	Scott Pham		Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552 et seq., I request copies of the following records: The digital calendar for Acting Regional Administrator Alexis Strauss for the dates between 05-01-2016 and the date which this request is fulfilled. I request these records in their native digital format, and not printed out, or converted to PDF files, or otherwise processed in a manner that would decrease the quality, quantity, or accessibility of the original information the records represent. Acceptable native formats typical of digital calendar output would include, but are not limited to, CSV, ICS and XLSX. If you determine that any fields in the requested data are exempt from disclosure, please redact those fields, specify the statutes that exempt them, and release all other segregable parts. I am comfortable working with very large databases in many standard formats, including SQL, CSV, XML, and Access. Upon request, I would be happy to provide a USB thumbdrive or external hard drive to facilitate the release of these records. Under the FOIA Improvement Act of 2016, agencies may withhold information â€œonly if . . . disclosure would harm an interest protected by an exemptionâ€ or if â€œdisclosure is prohibited by law.â€If you withhold any of these records, I request as required by the FOIA that you identify the reasonably foreseeable harm that would result from the release of the records. I am a journalist at BuzzFeed News.The requested records will inform my reporting, and I intend to use these records to inform the general public. Accordingly, I request to be categorized as a representative of the news media, per 5 U.S.C. § 552(a)(4)(A)(ii).	4/13/2018

EPA-R6-2018-006499	Nick Surgey		To Whom It May Concern: This is a request under the Freedom of Information Act. I hereby request the following records: It is the requestors understanding that EPA regions have been instructed to handle FOIA requests that include records involving EPA political appointees, by routing such requests to EPA HQ for processing. I therefore request any guidance or other instructions provided to an EPA region by EPA HQ about the processing of FOIA requests that include political appointees, or any other records which outline this approach. A search may be limited to records created or transmitted between January 20, 2017 and February 21, 2018. The requester is entitled to a fee waiver because he is a member of the news media, and because this request for records concerns activities or operations of the government. Disclosure of the requested records will likely increase public understanding of government operations since the requester has the ability and the intention, through the means described below, to effectively convey information contained within the requested records to a broad public audience. Requester is an investigative journalist and the director of Documented, an investigative watchdog and reporting group that explores the relationship between industry and government. Nick Surgey is a Senior Fellow at the Center for Media and Democracy and writes for the Intercept. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires. Sincerely, Nick Surgey	4/11/2018

EPA-R3-2018-006449	William R McCreary	Gale Force Rentals	I am writing to request an inspection report from a site visit from an EPA representative to my commercial property in 2013. My company is McCreary Holdings, Inc. DBA Gale Force Rentals (Tax ID 01-0898547) and our commercial property is located at 14 Atlantic AVE, Ocean View DE 19970. On May 6, 2013 a disgruntled ex-employee reported us for â€œdumpingâ€ through the USCG NRC website (report # 1046949). The USCG referred the matter to EPA Region 3 using the same report number. Subsequently a representative from your office, or the state of Delaware, inspected our property and found no wrongdoing. I am seeking the inspection/final report from this site visit. I am in the process of refinancing the property and the mortgage process includes an â€œenvironmental searchâ€ from a contracted environmental company. The USCG incident report appeared on the environmental report and is stopping the mortgage process from moving forward. Iâ€™ve attached the relevant pages from the â€œenvironmental reportâ€ showing the information from the original reporting of the â€œincidentâ€ Thank you in advance for your assistance, it is greatly appreciated!	4/10/2018

Part 2, I am submitting the following request for records on behalf of the Environmental Law Clinic at The University of Texas School of Law. The Clinic requests the Semiannual Deviation Reports for Title V Operating Permits filed by the Valero Port Arthur Refinery in Port Arthur, TX. These semiannual reports are required by the Texas Federal Operating Permit Rules as codified in 30 TAC § 122.145. We are requesting all semiannual deviation reports from the last five years (since 2013) that were submitted for each of these federal operating permits: â€¢ 2227 â€¢ 2228 â€¢ 2229 â€¢ 3423 â€¢ 1498 The Clinic also requests the annual Certifications of Compliance for each of the above federal operating permits going back to 2013. Valero must certify their compliance with their federal operating permits yearly pursuant to 30 TAC § 122.146. To the extent practicable, please provide records electronically. If EPA maintains that portions of a requested record are exempt from disclosure, please redact the exempt portions and provide the remainder of the record. 05/07/18 - We could modify the request to only seek the deviation reports from the last two years, so any reports from 2016 and 2017.	4/9/2018
EPA-HQ-2018-006411	Divya Sadana	Auburn University	I am currently working on a project (with my advisor) as a graduate student in Auburn University. Following is my project's description: Previous research suggested that in-utero exposure to pollution causes adverse birth outcomes, such as low birth weight. In addition, weight at birth predicts adult outcomes. For example, individuals who had low birth weights have worse outcomes in the labor market as adults (greater risk of unemployment and lower earnings), and they ultimately complete fewer years of schooling. Because individuals whose prospects in the labor markets are worse have a lower cost of committing crimes, we expect that individuals whose mothers were exposed to high pollution during their pregnancies are more likely to commit crimes in the future. In this project, we aim at identifying the impact of in-utero exposure to pollution (past pollution) on criminal activity in the future. I have attached the Freedom of Information Act Request Letter including the details of the data I am requesting from you for our above mentioned analysis.	4/9/2018

Please limit the search to messages that contain the any one of phrases: â€œHartâ€ â€œbedroomâ€ â€œrentalâ€ â€œ$50â€ â€œethicsâ€ â€œapartmentâ€ â€œABC Newsâ€ â€œMillanâ€ â€œHuppâ€ â€œSarahâ€ â€œGreenwaltâ€ â€œThe Atlanticâ€ â€œsalaryâ€ or â€œSafe Drinking Water Actâ€ Additional information is attached.	4/5/2018
EPA-2018-006289	Christopher D White		Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request copies of and access to all emails Environmental Protection Agency (EPA) employees sent to or received from Atlantic reporters Elaina Plott and Robinson Meyer from January 1, 2017 through April 5, 2018. The Atlantic, an online news outlet, reported on April 3, 2018 that EPA Administrator Scott Pruitt used a loophole in the Safe Drinking Water Act to give pay raises to two of his top aides â€" Sarah Greenwalt and Millan Hupp â€" who were political appointees for Pruitt when he was an attorney general in Oklahoma. The Atlantic relied on anonymous EPA employees for sourcing in the report. I would like to receive the information in searchable PDFs via email or thumb drive. I would prefer to receive them via CD or digital dropbox if PDF versions are unavailable. I would prefer they be released on a rolling basis as documents become available, rather than as one large file. I would also like to request a waiver of all fees in that the disclosure of the requested information is in the public interest. If my request is denied, then please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law. Reports from The Atlantic, The New York Times, and The Washington Post about EPA Scott Pruittâ€™s travels and housing expenses, which have relied heavily on anonymous sources within the EPA who were initially employed by former President Barack Obamaâ€™s administration, have been topics of significant public interest. The information will be used in articles by The Daily Caller News Foundation, an non-profit news outlet based in Washington, D.C. The Daily Caller News Foundation has reported extensively on reports about administrator Scott Pruittâ€™s first class flight travels. Key terms: - Safe Drinking Water Act - Millan Hupp - Sarah Greenwalt - The Atlantic -- Elaina Plott	4/5/2018

EPA-HQ-2018-006233	Nick Surgey		To Whom It May Concern: On behalf of Documented, pursuant to the Freedom of Information Act, I hereby request the following: All records in the possession of Matthew Z. Leopold (EPA General Counsel), Kevin Minoli (EPA Principal Deputy General Counsel), Jahan Wilcox (EPA spokesman), or Scott Pruitt (EPA Administrator) that relate to EPA Administrator Scott Pruitt's housing/accommodation situation in Washington D.C., including any records that relate to Pruitt's lease of a room/property from Vicki and Steven Hart. A search may be limited to records created between January 20, 2017 and the date that this request is processed. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires. Sincerely, Nick Surgey Co-Director Documented	4/5/2018

EPA-R10-2018-006275	Mr. Yusuf Pehlivan	Farallon Consulting	The current facility address is 8531 E Marginal Way S in Tukwila, WA. However, the address may also be listed as Seattle instead of Tukwila, which may be why no records were found. The facility is currently occupied by Star Forge, LLC, but was previously occupied by Jorgensen Forge Corporation from 1992 to 2016, and Earle M. Jorgensen Company from approximately 1965 to 1992. Based on a search on the EPA website, the current FRS number is 110020037440, and the RCRA Site ID number is WAD000602813. Since the facility owner/operator have changed recently, Iâ€™m not sure if those numbers will be relevant for the date range we are interested in. As mentioned in the FOIA request, we are primarily interested in records prior to 1992.	4/5/2018

Advanced Economic Solutions wishes to identify the volume represented by the â€œsmall refineriesâ€ that, as of March 31, 2018, have been granted an annual exemption from its annual RVOs for calendar years 2016, 2017 and 2018. 3. Advanced Economic Solutions would like to identify the number of â€œsmall refineriesâ€ that, as of April 1, have petitioned for an exemption from its annual RVOs for calendar year 2018. Under EPAâ€™s Renewable Fuel Standard (RFS) program, a small refinery may be granted a temporary exemption from its annual Renewable Volume Obligations (RVOs) if it can demonstrate that compliance with the RVOs would cause the refinery to suffer disproportionate economic hardship. The RFS regulations define a small refinery as one with an average crude oil input no greater than 75,000 barrels per day (bpd) crude in 2006. Additionally, the small refinery may not have an average aggregate daily crude oil throughput greater than 75,000 bpd in the most recent full calendar year prior to submitting a petition, and cannot be projected to exceed the 75,000 bpd threshold in the year or years for which it is seeking an exemption. Advanced Economic Solutions is an independent consulting firm, based in Omaha, Nebraska, that specializes in assisting food companies with supply chain risk management and other economic and commodity issues. Thank you in advance for your attention to this request. Bill Lapp President, Advanced Economic Solutions Omaha, NE 402-496-6015	4/2/2018

EPA-R3-2018-006041	GAIL L WALLACE	BLUFFS AT QUARRY LAK3	I am an officer of the Quarry Lake Masters and the Bluffs HOAs. We have been monitoring the slopes of Quarry Lake located in Baltimore County 21209 for several years. There has been no erosion found. At the request of our unit members we are investigating the safest and law abiding way to trim trees around the Lake. We were told by a certified arborist that we would have to contact the EPA to be within the law. Since our association owns the slopes we are requesting a map from the EPA of the lake and surrounding grounds where your jurisdiction kicks in. I would appreciate any assistance you may be able to share on this issue.	3/30/2018

EPA-2018-005831	Mr. Aaron B Sankin	Center For Investigative Reporting	This is a request under the Freedom of Information Act. I am a reporter with The Center for Investigative Reporting (henceforth "CIR") seeking all documents and records regarding conversations between the White House the EPA about sharks. â€¨â€¨I am seeking all communications (both written and electronic) between White House officials and the EPA about sharks. I am also seeking all internal EPA communications, documents and records about White House's involvement in specifically shark-related regulatory decisions. â€¨â€¨Based on recently published news stories, it seems like President Trump has a complicated relationship with sharks. See, for example, this Quartz story entitled, â€œTrump told Stormy Daniels he wants all sharks to die. Hereâ€™s why thatâ€™s a bad ideaâ€â(https://qz.com/1237378/trump-told-stormy-daniels-he-wants-all-sharks-to-die/)â€¨â€¨. The purpose of this FOIA request is to determine if the presidentâ€™s personal feelings about sharks has been translated into public policy or regulatory action. Please limit the dates for this search from between January 1, 2017 and the date when the search for responsive records is carried out.â€¨ Please notify me before incurring any photocopying costs over $100. Please furnish all responsive records in electronic, searchable format delivered to my email address asankin@revealnews.org. If thatâ€™s not possible, please send records paper printouts sent to the following address: Aaron Sankinâ€¨ Center for Investigative Reporting â€¨ 2016 14th Ave. W.â€¨ Seattle, WA 98119 â€¨â€¨ All correspondence regarding this request can be directed to me at asankin@revealnews.org.	3/26/2018

EPA-R10-2018-005668	Jeffery F Runyan		Back ground; there was an illegal dump of chemicals that was reported sometime in November 1983 at Fort Lewis Washington now known as Joint Base Lewis McChord. The site in question is near or in Training area eleven on the east side of Ft. Lewis and is now known as the illicit PCB Dump Site. The report about an unknown chemical spill came in from a person on or about November 16th 1983 to the US Army at Fort Lewis. The EPA Region office 10 became involved in the emergency investigation and remediation process shortly after the chemical dump was reported. I am requesting that all information in reference to the illicit PCB dump site that involves or names any Military personnel and or any Military units that were known to have been in the area of the illicit PCB dumpsite, that were or may have been contacted as part of the Illicit PCB dump investigation process, or that were involved directly or indirectly by being in the area of the illicit PCB Dump Site either before the illicit PCB dump site incident was reported or after it was reported for the years 1982 through 1984. Additionally a currently unknown person or agencies personnel, as part of the investigation into the illicit PCB dump site, contacted military personnel sometime between 1983 and 1985. The military personnel were to wear diffuse type monitors as a result of having been directly in or near the PCB dump site prior to the area being fenced off or remediated. I would like the results from any monitoring devices that were used on military personnel if they are available and or what military units these military personnel were in at the time. I request this information if any be released to either my email address or mailing address. Clarification received 5/2: He would like us to search for files that may be relevant to the PCB Illicit Dump between May 1983 and December 31, 1984.	3/21/2018

EPA-R3-2018-005658	Ms. Donna M Conner	U.S. citizen/individual	March 8, 2018 FOIA Request My name is Donna Marie Conner on today, Thursday March 8th I spoke with Nancy about needing to view the cameras within the Colonial Heights Courthouse under the Freedom of Information Act. The date and time in question to be viewed is January 8th, around 1:pm to 3:pm. My case within the courthouse on that date was actually scheduled for 2:30 pm. My property was released to the front desk early therefore the surveillance need to cover my arrival time around 1:00 pm. It is suspected my property was intentionally contaminated or spread with some sort of toxin or irritant while in the care of the Colonial Heights guards or front desk. The awful betrayal symbolizes much more than an isolated act. What the Colonial Heights court did to my property is a horrible reality and proof of the need to take my house around in a basket. This same substance or what ever it is that Colonial Heights Courthouse placed all over property is also what the apartment managers by way of unlawful entry are spreading on bedding, clothes, food medicine if left in present apartment and past. Someone high up is stalking me by these orders to continue this danger, torment and exhaustion meaning constantly having to take bags around in basket to be safe. This dangerous criminal order has been given to Doctors, Police refusing protections, magistrates and courts as if I'm the worlds greatest antagonist, just trying to get at me from every turn. Believe it or not this attack is very much responsible for the financial state I'm also in. I so wish I was wrong but I've been living and running from this danger for the last 17 years and know the symptoms upon coming into contact with them.	3/20/2018

I am agreeable, and would prefer, receiving documents on a rolling basis as they become available. My preference would be to receive publicly available information as soon as possible, but I would like to know if any information is withheld on the basis that it purports to contain CBI or on the basis of any other nonâ€CBI exemptions. For that reason, I would ask that you provide me with an index of withheld CBI information (if any exists) in lieu of substantiation, with the caveat that I might request substantiation at a later time. I would also ask that you notify me if documents are withheld for any other nonâ€CBI exemptions, and briefly describe what the exemptions are, but I do not require a denial log at this time if it will substantially slow down the retrieval and production of documents.	3/19/2018

EPA-HQ-2018-005552	Brendan Kapoor	Metropolitan Water District of Southern California	I am an intern with the Metropolitan Water District of Southern California doing research on the data behind California's 12-10-10 log removal requirement in its regulations for Recycled Water, in order to write a report. I am looking for the Appendices to the Economic Analysis for Final Ground Water Rule Volume II (M-U), specifically Appendix N from that document. On the EPA website, I have found the Appendices to the Economic Analysis for Final Ground Water Rule Volume I (A-L). Unfortunately, this is the only document listed, and it does not include the document I am searching for. I am certain the Volume II must exist since this other document is labelled "Volume I", and because the Economic Analysis lists and cites Appendix N in its table of contents and in its body. The Volume II and Volume I are not included in the Economic Analysis document on NEPIS.	3/16/2018

From my reporting, these records would likely have funneled through the Region 5 office, but I am also interested in any correspondence then went through the national office. The site at one point received funding through CERCLA but may have been on the US EPA's radar before then. Again, I am interested in any and all documents relating to either site. See attached documents as an example of what I am looking for. If your agency typically charges fees for document search or duplication, we request that the fees be waived, as disclosure of this information is in the public interest. That being said, if the above search will still incur a cost, please provide an itemized list of the expenses before completing the records request. I ask that you email the records directly to me at wsayre@USAToday.com or mail copies of printed records to: Wilson Sayre 205 N. Michigan Ave. Suite 1600 Chicago, IL 60601 Please contact me with any questions regarding this request at (312)343-0072 or wsayre@USAToday.com.	3/16/2018

EPA-R7-2018-005475	Ms. Chloe Winslow	University of Utah Chemical Engineering Departme	My name is Chloe Winslow and I am a chemical engineering student at the University of Utah. In my Communication and Chemical Engineering Safety class we are required to write a case study report on one of the superfund sites that were given priority this year for our final project. The purpose of this class is to learn how to handle community outrage by mitigating the discrepancies between perceived hazards and actual risks, how to write documents (like reports, memos, emails, etc.) to convey technical information, and how to alert an apathetic community to real hazards. My group chose the Westlake Landfill as our research topic and our main focus for the report is to study how the recent Proposed Record of Decision Amendment released on February 6, 2018 affected the public opinion on the risks and hazards associated with this superfund site. Our case study presentation is on April 11th and the final report is due April 27th. The public comment period was originally scheduled to end on March 22, but has been extended to April 23. The Responsiveness Summary will not be published before our report is due. Is there any way we could have access to the public comments about the proposed remedial action before April 27th, and if at all possible, before April 11th so we can analyze the public opinion first hand to use in our case study? Having to rely solely on media reports of community outrage will add a lot of bias to our report, and since this is for academic purposes we need to minimize bias as much as possible. Having access the public comments will allow us to get the most accurate and current understanding of how the community feels about the perceived risks of the Westlake landfill, and how they think the proposed remedy will reduce these risks.	3/14/2018

FOIA also requires the release of all reasonably segregable portions of a document that are themselves not exempt. 5 U.S.C. § 552(b). Should our requests be denied, we request that you inform us of the grounds for denial and the specific administrative appeal rights which are available. See 5 U.S.C. § 552(a)(6)(A)(i). SELC is requesting photocopies or electronic copies without charge, or at a reduced charge, because reduction or waiver of fees would be in the public interest. A disclosure is in the public interest if (1) it is likely to contribute significantly to public understanding of the operations or activities of the government, and (2) it is not primarily in the commercial interest of the requester. The public interest standard of the fee waiver provision of the FOIA should be â€œliberally construedâ€ in favor of waivers. McClellan Ecological Seepage Situation v. Carlucci, 835 F.2d 1282, 1284 (9th Cir. 1987); Pederson v. Resolution Trust Corp., 847 F. Supp. 851, 855 (D. Colo. 1994); Etlinger v. FBI, 596 F. Supp. 867, 872 (D. Mass. 1984). The goal of the statute is to avoid the â€œroadblocks and technicalities which have been used by various Federal agencies to deny waiversâ€¦.â€ Pederson, 847 F. Supp. at 855. EPA-HQ-2018-005358	Abrahm Lustgarten	ProPublica	Pursuant to FOIA, would like to request copies of all correspondence, including letters, emails and voice recordings not already published or made available on the EPA website concerning the EPA's evaluation of the health risks of exposure to the contaminant RDX, (https://cfpub.epa.gov/ncea/iris/iris_documents/documents/subst/0313_summary.pdf) from January 1, 2000 to Oct. 31, 2016. The response should exclude comments formally submitted to the EPA as part of the IRIS review process, and which are otherwise available online, as well as any other documents and information already published on the EPA's IRIS website. It should include all other internal and external communications no previously published for the public on the EPA website. I'd like responsive materials delivered on a rolling basis as they become available, and sent to me on a DVD via mail, as download of materials from the FOIAonline website is unreliable and frequently does not work. This request is a refiling of a previously withdrawn request, EPA-HQ-2017-000877 made to include my request for a fee waiver. Since substantial research has already been completed to answer the original request, it is my hope this new request can receive a response quickly.	3/12/2018

EPA-R9-2018-005349	Jasmin Lombardi	Berkes Crane Robinson & Seal, LLP	We are interested in obtaining a copy of the Consent Decree with Powerine Oil Company lodged on 11/7/2007 [with respect to Case No. 2:04-cv-06435-CBM-JWJ , filed in the US. District Court for the Central District]], with all of the attachments and exhibits thereto. The proposed Consent Decree was ultimately signed as a Consent Judgment on 2/11/2008. Our office was able to obtain a copy of the actual Consent Judgment from the District Court. However, neither the Consent Judgment nor the Proposed Consent Decree lodged in 11/2007 with the District Court contain the exhibits as referenced in the Consent Decree, including the attachments regarding certain information provided by the Settling Defendants. As indicated in the Consent Decree, the amount of the proposed settlement was â€œbased upon financial information provided by Settling Defendants indicating a limited ability to pay.â€ There is a specific reference to attachments/exhibits, etc. that appears to comprise this information. As clarification, we are interested specifically in obtaining copies of the attachments/exhibits as submitted by the Settling Defendants in connection with the Proposed Consent Decree. [See Pgs 55-57 of the Consent Decree document attached herein for your reference, which lists those specific attachments we are interested in obtaining] We note that there is no indication that the referenced documents were submitted as confidential.	3/12/2018

EPA-R9-2018-005321	Mrs. Wendy Z Fenner	Professional Engineer	This FOIA request for EPA Region 9. Please send me all the information you have for this CERCLIS Archive listing: NVD981989908, Railroad Roundhouse. This site is located in downtown Las Vegas, NV. I believe the remains of the roundhouse which disappeared before 1965 are buried in an unremediated tar/waste pit that is located beneath the current Clark County Government Center building location: 500 Grand Central Parkway, Las Vegas, NV 89106. The waste pit was covered by 1971 and was not addressed in the NDEP oversight of the remediation and dismantling of the rail yard in the late 1980s and early 1990s. The Clark County Government Center was constructed in 1993 without a vapor barrier. There are hundreds of people who work in the government center building who have been chronically exposed and have a multitude of railroad diseases. I have additional photos and evidence that the half mile long 150 ft wide 10-15 ft deep waste trench where UPRR dumped their machine shop waste from 1904 to 1952 was lit on fire and the burned bunker fuel (and other chemical remains) were scooped up and also deposited in the pit that lies beneath the Clark County Government Center. This is an emergency situation that requires immediate attention.	3/9/2018

EPA-HQ-2018-005186	Alex J Krivitsky	Purdue University	To whom it may concern, My name is Alex Krivitsky. I am a student at Purdue University. I saw on the EPA website that a "Data Request Form" was sent to the BP Whiting Oil Refinery on July 26th, 2017. According to the website page (https://www.epa.gov/eg/petroleum-refining-effluent-guidelines#data-request), each company had 180 days to complete the form and send it back. I would like to know if BP's response to that form is publicly available information. If it is possible, I would like access to their answer to the form. The reason is that I am completing a school project and that refinery's wastewater treatment plant is the topic. Specifically, I would like to know the VOC concentrations of the water at each step of the treatment process. Please let me know if there is any way that it would be possible for the EPA to give me access to this information. Thank you very much. EPA-HQ-2018-005120	Ms. Valerie Volcovici	Reuters	Reuters is seeking any correspondence, call records and meeting details between May 2017 and today related to Administrator Pruitt's plan to launch a public debate between scientists who are climate change skeptics and scientists who are believers that human beings cause climate change, also known as a "red team blue team" exercise. Mr. Pruitt said he intended to launch these debates for public consumption at the beginning at 2018 but so far there has been no update about the status of these debates. We are looking for information about who was invited to participate in such debates, any formal planning for launching -- or cancelling - these debates and any explanation about the process of recruiting both "red team" and "blue team" scientists to participate. We would also like information explaining whether these debates would inform future plans to re-examine the EPA's endangerment finding.	3/5/2018

EPA-R1-2018-005094	Jessica D Perry	UF MED STUDENT	Please call me in regard to safety measures and practices performed in RI hospitals. There have been deaths resulting herein due to the intent to harm and purposely harm with death as the outcome. How? The sprinkler system with purposeful intention by destruction of water supply line connected to a toxic gas and substance of such in conjunction with water line hose alternative? But an electrical inspector confirmed so with one hospital as you know already. Please see 2015 case. HVAC systems need to be checked too. Particularly on MedSurge and Psych Floors please. As evidenced by symptoms and cause of fatality among some and with an alteration of thought process along with physical symptoms that are proved by lab results and ibjective and definative diagnostic testing too. Basically, if you could please check the hospitals I uave unfortunately and unecessarily have had the pleasure to s5ay with, it would be tremendously appreciated. Thanks! Please get your fire departments to actually know how to do their jobs and implement STAT testing and monitor this per US governmental standards. I I have already contacted the deemed necessary appropriate Federal agencies due to my credentials and qualifications and Thank God some common sense in complete totality; as well as, being hospitalized a multitude of unecessary times due to similar residential occurence antecetantly leading this bs. Last incident involved sexual assault on me as well. For those who are simple minded and not that bright, there are actual videos published on Youtube with depiction of such inclusive of audio accustics and how it was done in the apartment setting. Not a god damn thing has been done to rectify such!! Please contact most recent code enforcement public court records with a detailed explanation based on their brief assessment performed January 2018. I have contacted Matthew Durffee to represent me and will possibly obtain Dave Arrongberg as counsel in Florida.	3/5/2018

EPA-HQ-2018-005024	Mr. R A BOURQUE		What is the EPA and other agencies [and Congress] doing to preserve [i.e. not shred] documents that are bound to be subject to a subpoena once the Democrats take back a majority in Congress? For example, former Watergate prosecutor Jill Wine-Banks explained the parallels to MSNBCâ€™s Chris Hayes: John Dean was an associate deputy Attorney General and White House counsel before pleading guilty to obstruction of justice. Dean ended up serving four months in federal detention and was disbarred as an attorney. â€œNunes co-conspirator on the Hill is his staffer Kashyap Patel,â€ Dean charged. Patel is the lead Nunes staffer behind the memo. Patel was issued a rare â€œorder of ineptitudeâ€ from a federal judge in 2016. â€œThey both belong in jail for betraying national security with their scam,â€ he continued. Deanâ€™s conclusion that prison is necessary for the Nunes memo is notable because of Deanâ€™s role crafting a similar memo. Former Watergate prosecutor Jill Wine-Banks explained the parallels to MSNBCâ€™s Chris Hayes. â€œFirst of all, Richard Nixon asked John Dean to write a whitewash memo, saying he had fully investigated the accusations and that no one in the White House or on the Committee to Re-Elect the President was involved,â€ Wine-Banks explained. â€œThatâ€™s whatâ€™s this memo was. It is a whitewash,â€ Wine-Banks said.	3/1/2018
EPA-R4-2018-005001	Brooke Dickerson	Arnall Golden Gregory	I do have one correction. I had stated that the Central of Georgia RR/Bernuth Lembke Site, located off Kinsey Road at GA Ports Authority Gate #2 in Savannah, Georgia 31401 was not the same as the Bernuth Lembcke Co. Superfund Site located at the North end of E Lathrope Ave, Savannah, GA 31401. However, I have learned that the 2 addresses may in fact be for the same site. I hope this helps in the FOIA search. Unfortunately, I have another correction! Instead of limiting the time frame for information regarding the 2 properties (Bernuth-Lembcke and the Savannah, Georgia Fell Street Station to 1995, I need any information dating back to 1980. I apologize for the mistakes, and appreciate your assistance.	3/1/2018

EPA-R8-2018-004979	Nick Surgey		To Whom It May Concern: This is a request under the Freedom of Information Act. I hereby request the following records: It is the requestors understanding that EPA regions have been instructed to handle FOIA requests that include records involving EPA political appointees, by routing such requests to EPA HQ for processing. I therefore request any guidance or other instructions provided to an EPA region by EPA HQ about the processing of FOIA requests that include political appointees, or any other records which outline this approach. A search may be limited to records created or transmitted between January 20, 2017 and February 21, 2018. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires. Sincerely, Nick Surgey	3/1/2018

EPA-R2-2018-004992	Cristina Stummer	Saul Ewing Arnstein & Lehr LLP	This FOIA request pertains to the Diamond Head Oil Refinery Superfund Site, located in Kearny Township, Hudson County, New Jersey (EPA ID# NJD092226000) (the "Site"), and the following documents are requested for the Site: (1) Each request for information that the EPA sent to any company, person, or agency (collectively, "PRP" for purposes of this FOIA), pursuant to 42 U.S.C. 9604(e) (referred to as a "104(e) Request" for purposes of this FOIA) for the Site; (2) each administrative subpoena issued for the Site pursuant to 42 U.S.C. 9622(e); (3) each response, and any supplemental response, that a PRP filed with the EPA in response to the 104(e) Request or administrative subpoena for the Site, including answers to any questions contained in the 104(e) Request and any and all documents, information, letters, reports, data and emails that a PRP filed with the EPA with its response to the 104(e) Request or administrative subpoena; (4) any and all "general" or "special" notice letters that EPA served on PRPs for the Site, pursuant to 42 U.S.C. 9604 and 9622 (collectively, "Notice Letters" for this FOIA); and (5) any and all responses, including supplemental responses, to Notice Letters that EPA received and any and all documents, information, letters, reports, data and emails filed with responses to Notice Letters.	3/1/2018

EPA-R7-2018-005002	Jeff Stover	FTI Consulting	On February 6, 2018, I requested information on USEPA's notification to the Consolidated Edison Company of New York as potential responsible party at the PCB Treatment Site (2100 Wyandotte Street, Kansas City, MO and 45 Ewing Street, Kansas City, KS), Consolidated Edisonâ€™s 104(e) response and attachments, and other documents related to the companyâ€™s involvement at the site. On February 14, 2018, USEPA responded stating the agency had no information responsive to my request. Since receiving the attached response, I have obtained information indicating that 1) USEPA sent a letter dated September 26, 1994 to Consolidated Edison Company of New York indicating the company had been identified as Potentially Responsible Party at the PCB Treatment Inc. site. 2) USEPA sent a 104(e) request for information letter to Consolidated Edison on August 4, 1995. 3) Consolidated Edison sent a 104(e) response to the USEPA on October 10, 1995. 4) Consolidated Edison sent an amendment to its 104(e) response to the USEPA on October 17, 1995. These documents demonstrate that the USEPA both sent correspondence to and received correspondence from Consolidated Edison Company of New York regarding its involvement in PCB Treatment, Inc. site and as such, the agency should possess Consolidated Edison's 104(e) response and amendment with attachments. Consolidated Edisonâ€™s 104(e) response and amendment indicate that the company provided along with its 104(e) response several folders documents related to the materials it sent to the PCB Treatment, Inc. site. (see attached) Pursuant to the Freedom of Information Act, I am requesting electronic copies of the documents within the folders submitted by the Consolidated Edison Company of New York in its October 10, 1995 and October 17, 1995, as part of its 104(e) response. If the USEPA cannot produce the documents, I respectfully request the reason (destroyed, withheld, etc.) the agency cannot produce them.	3/1/2018

EPA-R1-2018-004976	Mr. Christopher J Punch		February 28, 2018 Dear FOIA Officer Hi I have a basic request, on this issue if Environmental Protection Agency Region 1 received and found unnatural light enhancement or magnification, public transit station and in the area near the station location below. Based on my time parking at the location and seeing others cars this issue of unnatural solar enhancement does not appear to effect autos made by other manufactures. Walking in the area on a personal level I have seen no enhancements beyond natural human activity. Second are there any reports for cars made or marketed by the entity known as American Honda, have melting of parts or components there are exposed to the outside natural environment with normal unmagnified or amplified natural sunlight. Is there an industry standard or suggested standard for exterior plastic components and would melting in the period of 1, 2 or 3 years or 20,000 miles of operation be expected for a car made for sale in the United States? Would melting of plastic components cause distribution of unknown particles into the atmosphere and is there a method to report this EPA and has American Honda filed any such report , details of the report are not requested .
