EPA-HQ-2018-011883	Sam Krumholz	University of California, San Diego	Hi, I would like to request the following data: 1) The date of first construction for all coal-fired and gas-fired generating units in the United States. Under the 1970 CAA and 1977 CAAA New Source Review Requirements, power plants were governed by different emission standards depending upon the date on which construction for a generating unit began. Presumably, these construction dates must have been reported to the EPA so that the EPA could ensure that the unit was regulated under the correct standard (EIA reports beginning in 1985 list the standard under which a unit was regulated, but not the date on which construction began). If possible, I would like these dates. Although ideally this information would be provided as a spreadsheet with information for each generating units producing the individual permits for each plant would also be useful. Thank you for your help and please let me know if you have any questions. Sam	9/27/2018

EPA-R6-2018-011854	Matthew Kuryla	Baker Botts LLP	To: Jeffrey Robinson, EPA From: Matt Kuryla, Baker Botts Re: FOIA Request I am writing on behalf of Baker Botts, LLP to request U.S. Environmental Protection Agency (â€œEPAâ€) records pursuant to the Freedom of Information Act (â€œFOIAâ€), 5 U.S.C. Â§ 552. This request is for documentation relating to applications or other information submitted to the EPA on or after April 1, 2018 relating to the construction and operation of deepwater ports regulated or licensed under the Deepwater Port Act, 33 U.S.C. Â§ 1501 et seq., or other permitting or Maximum Achievable Control Technology (â€œMACTâ€) determinations relating to deepwater ports. This request excludes any documentation submitted by Kinder Morgan, Inc. relating to the Crude Offshore Loading Terminal (â€œCOLTâ€) project, but includes any documentation submitted by others regarding the COLT project. Please produce these records as soon as they are available and on a rolling basis. If you have any questions or concerns about this request, please contact me immediately by phone or email. If responsive information or documents include information exempt from production under FOIA and non-exempt information, please provide the portions of the document that are not specifically exempt from disclosure. Baker Botts defines â€œrecordsâ€broadly to include all documents, email correspondence, notes, letters, computer files, and other information bearing on Baker Bottsâ€™ request. The term â€œcorrespondenceâ€includes all information maintained electronically (including computer databases and e-mail), on paper, and/or otherwise maintained. Baker Botts understands that it may incur certain charges as a result of this request, and Baker Botts hereby agrees to reimburse EPA for any such reasonable charges. Please notify me if the related charges will exceed $100. Further, please notify me if it would be efficient for us to provide data storage devices to facilitate production of responsive materials.	9/26/2018

EPA-HQ-2018-011817	Claire Palandri		I am a PhD student at Columbia University, working on a joint research project on drinking water quality violations in the US that occurred in 2006-2016. I want to estimate, for each county, the share of the countyâ€™s population that was subjected to Total Coliform violations during the periods of non-compliance. The current SDWIS platform only provides the most recent â€œpopulation servedâ€levels of water systems. To estimate the exposed population share for past violations (going back to 2006), I need to know what were the population served levels in the past. These levels should be available in the SDWIS/FED freezes that have been performed quarterly. I am therefore requesting list of all SDWIS water systems, with PWS ID, PWS Name, PWS Type, Activity Status and Population Served Count, FOR EVERY QUARTER FROM 2006Q1 TO 2016Q4, in the form of a comma-separated values (CSV) file. I am at your disposal for any additional information you may need. Best regards, Claire Palandri.	9/26/2018

EPA-R3-2018-011818	Nicole Brambila	Reading Eagle Company	This is a request under the Freedom of Information Act. On July 28, 2017, I requested "document(s) containing public records related to samples taken in Laureldale Borough and Muhlenberg Township in Berks County, Pa., showing the average soil-lead concentrations (mg/kg) in quarter-acre grids near Exide Technologies as part of the 2000 Administrative Order on Consent (Docket No. RCRA-III-3-2000-002TH)." (FOIA Request No: EPA-R3-02017-009916). "In addition to the original study results, please also provide the test results for the 20 properties test in May 2017." This request test results for soil samples taken in 2001-2002 and 2017. This request was a "Full Grant" on or before Aug. 25, 2017. According to an U.S. EPA "Cleanup Status" report (EPA ID: PAD9900753089) last updated on March 28, 2018, there were "approximately 12,500 soil samples collected in Laureldale Borough and Muhlenberg Township. (Link: https://www.epa.gov/hwcorrectiveactionsites /hazardous-waste-clean u p-exide-techno logies-reading-pennsylvania) U.S. EPA provided a spreadsheet containing 4,863 results. Additionally, the data did not include a date, field identification number, sample type (whether a surface or core) and property type (whether commercial or residential). Therefore, I am requesting an opportunity to inspect or obtain copies of public records that show all the results from lead soil tests conducted as a result of the 2000 Administrative Order on Consent and the request by Acting Regional AdminisÂ-trator Cecil Rodrigues on or about April 28, 2017 to resample the study area. In your response, please include: the date of the sample, field ID and notes and type of sample (core or surface) and propÂ-erty (commercial or residential). Please also include analytical data and methodology.	9/25/2018

EPA-2018-011639	Ellie Potter	S&P Global Market Intelligence	Dear FOIA Office, This is a request under the Freedom of Information Act (5 U.S.C. Â§ 552). My name is Ellie Potter, and I am a reporter with S&P Global Market Intelligence. I request that an electronic copy of the following documents be provided to me: any emails, documents, meeting notes and meeting schedules, recorded meetings or phone calls and any other communications that may have occurred within the U.S. Environmental Protection Agencyâ€™s office, specifically the office of former Administrator Scott Pruitt that contained the word â€œMoroccoâ€ as well as all correspondence and documents that were sent to and received from Richard Smotkin and ambassador Lalla Joumala from October 1, 2017, to February 28, 2018. I am requesting a fee waiver for these documents. As a member of the media I believe the release of these documents is in the public interest, and the documents will contribute significantly to the public's understanding of federal agency activities. I wish to use my abilities as a journalist and the strong platform that S&P Global offers to better inform the public with the resulting stories I intend to write. I intend to disseminate this information through S&P's news page, as well as through a free link on our Twitter accounts, which are widely viewed by the public. I am willing to pay the appropriate fees for this request up to a maximum of $25. If you estimate that the fees will exceed this limit, please inform me first. You can reach me at 703-373-0660 or by email at ellie.potter@spglobal.com. Thank you for your time. Sincerely, Ellie Potter	9/20/2018

EPA-R5-2018-011613	Mrs. Lucille A. Jancaric	Teacher	I am a teacher at Thomas Hoyne Elementary, located at 8905 S.Crandon Ave. Chicago Illinois. We recently had damaged tile which contained asbestos removed from our building. Our staff is trying to determine if the removal of the asbestos was completed by a licensed contractor. When our building administrator was asked for proof he indicated that there was no paper work given. That the board of Education for the City of Chicago School District 299 likes to keep these type of things quiet. We all found this to be troublesome. We would like to know if this work was done properly and that we are safe to be in the school building. I hope someone may help me obtain this needed information. There are 235 students, as well as 25 employees which this affects, in addition to the hundreds of other students who have came through our building over the years. There is no telling how long the asbestos had been exposed prior to the findings in July of 2018.	9/19/2018

EPA-HQ-2018-011548	Billy J Watkins		As a child I was given pizza laced with sedatives so that men could rape me and these activities were filmed and used in part as blackmail against the individuals. There were many other crimes committed against me as well including brainwashing, and chemical experimentation. These tapes were delivered through the E.P.A. during a 6 month internship of my sister during the summer of 2016 by my sister: Jacklyn Susan Marie Opp, and she currently works for Colorado State University as a Professor of Political Science. She may have used the handle SusieQOpp and the tapes from the E.P.A. may have been picked up through the D.O.E. which I believe is where many illegal recordings were piled together since you can't FOIA it. But since these tapes are of me and were sent through the E.P.A. that means they should be available through just this request. I have enclosed photos of me at various parts of life and family, I can provide more information and photos as necessary as well as appear in person. Thank you for your time.	9/17/2018

EPA-HQ-2018-011547	Zhengyan Li		EPA releases Toxic Release Inventory data to the public every year. I am trying to get two pieces of information about the TRI data. First, I am trying to find out the exact dates when the Toxic Release Inventory data were first made available to the public every year from 1989 to 2018. From other sources, I knew the dates for the first a few years: 6/19/1989, 4/30/1990, 5/15/1991, 5/27/1992, 5/25/1993, 4/19/1994. Can you provide me with the dates when the information was first made available to the public for other years? Second, I am trying to find out the dates when the TRI National Report Analysis were published every year from 1989 - 2018. I could access the historical reports from EPA's website back to 2000. From the reports, I have found out the month/year when the reports were published. Can you provide me with the dates (if not possible, month/year) when the TRI national reports were published for 1989-2018? Thank you!	9/17/2018

EPA-HQ-2018-011362	Taryn MacKinney	Union of Concerned Scientists	Pursuant to the Freedom of Information Act, 5 U.S.C. Â§ 552, and on behalf of the Union of Concerned Scientists, I write to request access to and copies of all documents and communications, including emails and email attachments, from May 15, 2016 to August 1, 2016, to or from Fred Hauchman or Lynn Flowers that mention â€œglyphosate.â€	9/11/2018

EPA-R7-2018-011360	Christen Commuso		I am writing to inquire about a document entitled, Materials Management Plan: West Lake Landfill Operable Unit 1 (attached). In the document it describes a 2006 plan to bring in fill in anticipation of the 2008 ROD. I cannot locate any information as to if/when/which agency allowed this plan to move forward. I do believe, however, in the more recent FS it is mentioned that additional fill was, in fact, added to OU-1. Can you please provide the documents giving the go ahead on this plan? It is very concerning to me as the current proposed final remedy indicates excavation would be confined to a depth of 16 feet starting at 2005 ground levels. I think it is necessary to determine the extent of added fill in order to properly excavate this material. It's also important that the public be made aware. It is troubling, according to the plan, that this fill came from the surrounding area. I would like to see documented proof showing this fill had been tested. I understand that Region 7 sticks to the notion that contamination has never left the landfill property, but two peer-reviewed independent studies indicate otherwise. It would be a huge disservice to the public and our health if contaminated material was used. The document also indicates that coal bottom ash was to be used. According to NRDC, "bottom ash is the coarser component of coal ash, comprising about 10 percent of the waste. Rather than floating into the exhaust stacks, it settles to the bottom of the power plantâ€™s boiler. Bottom ash not quite as useful as fly ash, although power plant owners have tried to develop â€œbeneficial useâ€ options, such as structural fill and road-base material. This isnâ€™t a good idea, because the bottom ash remains toxic when recycled. On a Virginia golf course in 2007, for example, a hill composed of coal ash leaked heavy metals into the groundwater." I look forward to your response. Thanks, Christen Commuso	9/11/2018

EPA-HQ-2018-011261	Mr. David Streng	ENVIRONMENTAL ENTERPRISES, INC.	It was my understanding based upon the attached documents that solicitation number 68HE0B18Q0063 (Hazardous Waste Disposal - USEPA Las Vegas) was a competitive bid. Based upon that information Environmental Enterprises, Inc, (a qualified small business concern) submitted a bid. In an attempt to determine who was awarded the bid I contacted the Contracting Officer, Mr. William Sahli, he indicated that it was a sole source bid. I subsequently sent a follow up letter to Mr. Sahli requesting documentation to show that it was a sole source and a determination as to why Environmental Enterprises, Inc. (EEI) was not given the opportunity to bid this solicitation or the basis as to why EEI was disqualified. I have had no response. This request is to obtain documents or amendments to this solicitation which show that it was a sole source and the information on who the award was given to and the rationale for that award. If EEI was disqualified we also request information that shows why EEI was disqualified. This Sow does not allow brokers to be awarded this contract	9/7/2018

EPA-HQ-2018-011177	Christina Lewis	Langan	Langan Engineering, Environmental, Surveying, Landscape Architecture and Geology, D.P.C. (Langan) is currently conducting a Phase I Environmental Assessment of the above-referenced property. As part of the assessment, we are requesting a general records search for the above-referenced property. Please consider this a formal Freedom of Information Law (FOIL) request for records regarding buildings, construction, chemical spills, underground storage tanks (USTs), monitoring wells, ground water sampling, asbestos abatement, radon, hazardous materials, and any other documents that your department may have regarding the property at 77 Schmit Boulevard Farmingdale, NY 11735. This site is bound to north, east, and south by asphalt paved parking lots and one- to two-story industrial/manufacturing buildings. A two-story Raymour and Flanigan furniture store is located adjacent to the west of the subject property. The site is identified as an approximately 80,000-square-foot lot with a one- to two-story building used for production operations and currently operated by The Mid Island Group. The site is associated with 5,000-gallon and 10,000-gallon #2 fuel oil USTs, both of which were reportedly closed. Two closed spills are also associated with the site under NYSDEC spill numbers 9411602 and 9704277. Spill number 9411602 identified two gallons of #2 fuel oil released to soil due to an unknown cause in 1994. Spill number 9704277 identified an unspecified amount of #2 fuel oil release to groundwater due to a tank test failure in 1997. Both spills were closed in 1995 and 1998, respectively. If possible, please email (clewis@langan.com) or fax a response to (571) 366-6801 and/or send a hard-copy response to my attention. Please contact me at (571) 366-6847 if there are any questions regarding this request. Thank you in advance for your assistance.	9/4/2018

EPA-R5-2018-011156	Mr. Kevin Stark	ProPublica Illinois	Hello, My name is Kevin Stark, and I'm a reporter working with ProPublica Illinois. I'm writing with a Freedom of Information Act request for the following: * Any deliberative documents shared between EPA and HUD offices of lead hazard control in healthy homes between March 2016 and October 2017 Some background information: I'm preparing to file a story with ProPublica Illinois based on a review of HUD and EPA data that show the majority of National Priority List Superfund sites -- or proposed sites -- are within a mile of low income housing in Illinois. For this story, I performed a proximity analysis for the state's Superfund sites and found that 63 percent are nearby public housing complexes, buildings, HUD-assisted multi-family homes, or census tracts where Section 8 voucher holders reside. The idea for this story came after I reported on a lead crisis in East Chicago, Indiana. I understand from speaking with HUD officials that a 2017 EPA and HUD memo created a process for HUD and EPA to help residents in these circumstances. (You can find that memo here: https://www.hudexchange.info/resources/documents/Memorandum-of-Understanding-between-HUD-and-EPA-Regarding-Improving-Communication-About-Certain-Public-and-HUD-Assisted-Multifamily-Housing-Near-Superfund-Sites.pdf) Thanks so much, and please reach out with any questions. EPA-HQ-2018-010920	Andrew Peterson		This is a request under the Freedom of Information Act. On behalf of the Activist Journal, a non-governmental media organization, I am requesting a copy of the emissions reported by the Exxon Mobil Corporation to the U.S Environmental Protection Agency in the years of 2015, 2016, 2017 and 2018. In order to help to determine my status to assess fees, you should know that I am affiliated with a non-profit organization; the Activist Journal. I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government as it pertains to the EPA and its enforcement of the Clean Air Act as well as other regulations, and is not primarily in my commercial interest, as I represent a non-profit group with no commercial interests. Thank you for your consideration of this request.	8/27/2018
EPA-HQ-2018-010890	Emily Tian		Dear Sir or Madam, Good day for you. This is Emily Tian from REACH24H Consulting Group. Recently we are planning to apply for a pesticide registration under EPA. Our pesticide product is similar to Maxforce FC Roach Killer Bait Gel F.0 (EPA registration number 432-1460), which contains 0.05% Fipronil (CAS No. 120068-37-3). Could you please sent us the data matrix document for the product so that we could know which data we will cite in our pesticide registration? Thank you very much and looking forward for your feedback. Kind regards, Emily	8/24/2018
EPA-R7-2018-010916	Robert Johnson	Johnson Consulting	Union Electric-Ray Avenue Site MOD981126428. Submitted a FOIA request regarding this site on March 10,2010 Request #07-FOI-00223-10, and received a response in the form of a CD dated April 5, 2010, containing interim data submittal report dated February 22, 2010. Now requesting information since that time that will at the least bring up-to-date as the technical and regulatory status of the site. A number of years ago, there was a related Settlement Agreement and its last specified item of work was the RSE report which concluded that site conditions are such that theoretical risks do not exist. To properly plan property maintenance, we need a copy of EPA's Notice of Completion of Work required by the Settlement Agreement.	8/24/2018

EPA-HQ-2018-010892	Muira McCammon		To Whom It May Concern: This is a request under the Freedom of Information Act. I hereby request the following records: I would like copies of all tweets deleted by the Twitter handles associated with the official Environmental Protection Agency (@EPAGov AND @EPA) from February 2010 to the present. This would include any tweets sent out on Twitter that were deleted or kept in draft form from the Twitter handle @EPAGov and @EPA. This request also would include copies of any e-mails or correspondence regarding the drafting and deletion of these tweets. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. I am a journalist whose works have appeared in Slate, VICE, the Massachusetts Review, Kill Screen, and elsewhere. This FOIA request is part of research for an ongoing piece of journalistic work, and as such, I am requesting a fee waiver. I have submitted versions of this FOIA request to other agencies, including the Office of Government Ethics, and in the process, I have been granted this fee waiver without question. My most recent article on this subject appeared in Slate in April 2018 and was titled â€œCan They Really Delete That?â€ Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires. Sincerely, Muira McCammon muira.mccammon@asc.upenn.edu	8/24/2018
EPA-R4-2018-010897	Pat L. Vincent	S.C. Dept. of Health & Environmental Control	Since the EPA-lead removal action was completed, the South Carolina Department of Health and Environmental Control (the Department) performed and is performing various additional response actions at the Starmet CMI (Starmet) facility, 365 Metal Drive, Barnwell, SC and will soon be seeking involvement of potentially responsible parties (PRPs) in conducting decommissioning activities. To assist the Department with identifying and negotiating with PRPs, the Department requests electronic copies of all settlements, administrative orders, etc., with any parties associated with the Starmet facility. The Department believes these parties to be Alaron Corporation, Cameco Corporation, United States Department of Energy, United States Department of Defense, United States Department of the Army, United States Department of the Navy, and USEC Inc., f/k/a United States Enrichment Corporation (a private entity). However, the Department requests that EPA's search not be limited to these identified PRPs. The Department also seeks any equitable factors used by EPA and/or the PRPs in calculating or estimating allocated volume of waste assigned to all PRPs at the Site. If EPA requires, please accept this request as a Freedom of Information request. Please let me if I should direct my request to someone else or if you have any questions, please let me know. It may assist deliver by mail by adding my division within DHEC to include above 2600 Bull Street: Site Assessment, Remediation & Revitalization Division. We would appreciate emailed response to save postage and receipt delay if that is possible.	8/24/2018

EPA-R1-2018-010868	Graham W Moller		Submitted by: Graham Moller, Esq. of Cramer and Anderson LLP, (860)355-2631. I am requesting the ability to inspect the below cited documents in person at the region 1 headquarters in Boston. Please reach out with any questions or concerns regarding the scope of the requested documents or method of inspection. I am seeking the entirety of the documentation that the EPA has on a project called "Century Brass", located at 12 Scovill Street, New Milford, CT 06776. It is possible, in congruence with Connecticut DEEP, that the file is also referred to as "Scovill" or "Aspetuck" by the EPA. The requested documentation includes, but is not limited to, any and all: emails sent or received by Region 1 PCB Coordinator Kim Tisa and other EPA staff regarding this project; documents submitted to the EPA or CT DEEP; any internal documents and/or correspondence between EPA employees relating to this project; handwritten notes; and any other documents within the EPA's file kept for this project. The project has to this point gone through three phases. The first two phases started in the late 1990s and continued through the early 2010s, while the third phase started in 2014 and is still open. We are seeking documentation on all three phases, so from the 1990s through current. 9/12/18 Phone Conversation w/ Mr. Moller: He confirmed that the above-referenced info request concerning the â€œCentury Brassâ€br â€œScovillâ€br â€œAspetuckâ€ project is NOT INTENDED to be a request for any of the enforcement-related files pertaining to the TSCA/PCB action for penalties commenced in June 1992 and resolved in May 1997. During the course of the conversation, Mr. Moller expressed an interest only in docs dating from 1998 forward.	8/23/2018

EPA-HQ-2018-010746	Kevin Bogardus	E&E News	I request the "case study" done by Deputy EPA Administrator Andrew Wheeler related to the secure phone booth installed for the use of EPA Administrator Scott Pruitt in his office at EPA headquarters in Washington, D.C. This case study is described in the following excerpt of "Transcript of E&E News' interview with Andrew Wheeler," Robin Bravender and Kevin Bogardus, E&E News PM, July 13, 2018 (https://www.eenews.net/stories/1060089083): Have you used the secure phone booth? Have I used it? No, I have not used it yet. What are your plans for it? Do you have any plans for it yet? Have you given it any thought? It's there. It would be expensive to tear it apart, I don't see any sense in tearing it apart. And in this day and age, I don't know what the assessment was for the need of it. I did look into the cost of the booth after I got here. Administrator Pruitt asked me to look over the expenses for his office and in doing that I decided the best way would be to pick a case study and take a look at it to see how the decisions were made. So I looked at how the decisions were made on the spending for the booth.	8/20/2018

EPA-R2-2018-010476	Mr. Nick Bayack		Hello again, I am looking for information on one of Mark Ford Farms properties...Located on Slaughter and Stage Rd Middletown NY 10941. I am looking for the results of any investigations including soil tests and/or fines against the landowners. The landowners filled in parts of the wetland area with different types of fill. Will any of this be removed from this property? When I pulled up the EPA's FRS facility detail report online I did not see this property on the report. When this landowner was backfilling his land with local fill some of the same trucks that brought illegal garbage from the city to his other site were bringing fill to the Slaughter road location years ago. Me and some neighbors are curious about what was contained in it. Please let me know if I should be breaking these questions up into seperate FOIA requests. Thank you again for your time, Nick Bayack	8/13/2018

			Hello, I am looking to get the information on the environmental cleanup plans for the Mark Ford Farms property (Formerly Hidden Brook Farm) located on Stony Ford Road Middletown NY 10941. I am looking for results of the investigations including tests on the soils. Any fines incurred and any charges that are still pending. Basically any public information that you can provide. The landowner was shut down for illegal dumping and I would like some information on everything in writing. I will submit a seperate request for the property located on slaughter road. If this needs to be a seperate FOIA request please let me know. I would like to know the estimated extent of the cleanup operations including what environmental controls will be used to keep the coal ash from blowing onto neighboring properties and the roadway. Thank you for your time,

EPA-R6-2018-010346	Mr. Edward G. Brocksmith	Save the Illinois River, Inc. (STIR)	Regarding Arkansas 2016 303(d) list of impaired waters: Save the Illinois River, Inc., (STIR) requests copies of all correspondence between U.S. EPA Region 6 and the Arkansas Department of Environmental Quality relating to the March 10, 2016 EPA Region 6 request that ADEQ provide "...detailed rationales for removing segment/pollutant combinations from their previous 303(d) lists in the record of decision for the list." The letter is from Stacey B. Dwyer, P.E., Associate Director NPDES Permits & TMDL Branch, EPA Region 6 to Mr. James Wise, Water Division, Arkansas Department of Environmental Quality, North Little Rock, Arkansas. The letter requesting documentation from ADEQ is in response to Arkansas' failure to list Osage Creek and Spring Creek as impaired in the 2016 303(d) list given EPA. Page 5 of the letter states: "Until new data indicate that the segments are no longer impaired, Osage Creek and Spring Creek need to be listed on Arkansas's 2016 303(d) list." The documents STIR is requesting include those from Arkansas ADEQ in response to EPA Region 6's request for "new data" as well as subsequent correspondence from Region 6 to ADEQ on the 2016 Arkansas 303(d) list.	8/7/2018

EPA-R2-2018-010357	Chris Geraghty	Proactive Environmental Solutions, LLC	Hi, my request pertains to the following facility's NYSDEC Air State Facility Permit (Permit ID: 8-2699-00059/00027). The facility is "University of Rochester" (Facility DEC ID: 8269900059), and is located at 390 Elmwood Avenue Rochester, NY 14323. Conditions 1-5 through1-8 of the State Facility Permit reference two separate "NOx Monitoring Plans" for facility boilers (Boiler Nos. 9 and 10), Emission Unit: B-OILRN, Emission Sources: BLR10, OBLR9. I am requesting copies of the NOx Monitoring Plans that were submitted to and approved by NYSDEC and/or EPA. The State Facility Permit notes that a NOx Monitoring Plan needed to be submitted for facility Boiler No. 10, and references an existing NOx Monitoring Plan for Boiler No. 9 ("Boiler No. 9 NOx Monitoring Plan", dated September 2007). Given that the State Facility Permit was issued in March 2016, I am assuming that each plan could be made available. Please feel free to contact me if you have any questions regarding this request. I greatly appreciate your assistance! Regards, Chris	8/7/2018

EPA-HQ-2018-010115	Nicholas R Wehner	Open Communications for The Ocean (OCTO)	Under 17 U.S.C. Â§105 all works "prepared by an officer or employee of the United States Government as part of that personâ€™s official duties" cannot be copyrighted and are thus part of the Public Domain in the United States (https://www.law.cornell.edu/uscode/text/17/105). Despite this law, it appears that many academic journal articles and other scholarly works published by EPA scientists are illegally offered copyright protection. See https://www.sciencedirect.com/science/article/pii/S0025326X18305551, for an example. We request a list of all academic journal articles, books, book chapters, and other scientific works produced by EPA staffers since this law has taken effect. The list should note which works are published in compliance with the law, and which are offered copyright protection. In addition, we request information on how EPA is working to stay in compliance with the law moving forward.	7/30/2018

			Wolverine World Wide, Inc. â€“ Rockford, MI Requesting documents pertaining to Wolverine World Wide (Wolverine) of Rockford, Michigan and contamination of soil and groundwater allegedly caused by its waste disposal practices in its manufacturing of shoe ware. Contaminants of concern are those associated with the tanning industry. In addition, Wolverine used a 3M Company product called â€œScotchguardâ€containing per / and polyfluoroalkyl (PFAS) in its manufacturing process. Adverse health effects are suspected as a result. Sites include the: Rockford Tannery of 123 North Main Street, Rockford, MI. House Street Disposal Area located at 1855 House Street N.E., Belmont, MI. Rogue River and Rum Creek, waterways proximal to the Rockford Tannery. Various known and unknown disposal areas throughout Kent County, MI. I request documents pertaining to the contamination discovery; source, nature and extent; studies regarding remediation and costs to date; correspondence between regulatory agencies and Wolverine and the 3M Company; notices of violations regarding the waste handling practices of Wolverine. Any lists pertaining to additional contaminated sites being identified. In 1966, Wolverine, in a lawsuit v. the Township of Plainfield, Michigan, was authorized to use the House Street property for waste disposal. In the off-chance that EPA has this item, could you possibly provide it. I understand that contamination may have begun as early as 1939. You may limit your search to publicly available documents. Thanks, Ron.

EPA-HQ-2018-010014	Mr. Bryan Stockton	Pillsbury Winthrop Shaw Pittman LLP	On behalf of the Renewable Fuels Association, I request under FOIA the following: â€¢Every record listing the small refiners/refineries that the Department of Energy (DOE) recommended receive a temporary extension through 2012 of their exemption pursuant to 42 U.S.C. Ã§ 7545(o)(9)(A)(ii); â€¢Every record containing the names of small refiners/refineries to whom EPA granted exemptions in 2011 and 2012 pursuant to 40 CFR Ã§Ã§ 80.1441(e)(2), 80.1442(h); â€¢Every record containing the DOEâ€™s recommendation for each exemption that had been requested by a small refiner or refinery for years 2013-present; â€¢Every record containing DOEâ€™s evaluation of each small refiner/refinery exemption granted for compliance years 2016 and after (an example of which is published in Ergon-West Virginia v. EPA, No. 17-1839, slip op. at 16 (4th Cir. July 20, 2018)); â€¢Every record containing EPAâ€™s policy concerning the degree to which EPA will defer to the DOEâ€™s analysis of disproportionate economic hardship in considering small refiner/refinery hardship exemptions; â€¢Every record containing basic facts concerning small refiner/refinery exemptions that were granted by EPA for compliance years 2016 and after. Basic facts include the small refiner or small refinery petitionerâ€™s name, the name and location of the facility for which relief was requested, the general nature of the relief requested, the time period for which relief was requested, and the extent to which the EPA granted or denied the requested relief. See 81 Fed. Reg. 80,909 (Nov. 16, 2016); â€¢Every record since January 1, 2017 that contains the agencyâ€™s position concerning the release of small refiner/refinery exemption information to information requests from the general public or Congress; â€¢Every record describing the EPAâ€™s authority or process for allowing small refiners/refineries denied exemptions in previous years to generate new 2018 vintage RINs. The end date of this request is the date when EPA searches for responsive records.	7/26/2018

We are looking for any and all information you may have on the above referenced site to include but not be limited to the following: â€¢ Site inspection and environmental reports; â€¢ Violations pertaining to handling, storage and/or disposal of hazardous substances; â€¢ Hazardous material releases or spills; â€¢ Underground storage tank information; and â€¢ Any other information regarding potential areas of environmental concern.	7/17/2018
EPA-R2-2018-009666	Mr. Steven M Rozek	Apex Companies, LLC	Apex is completing a due diligence assessment of the Site located at 153-17 Cross Island Parkway in Whitestone, Queens County, New York (located within Block 4717, Lot 16). The Site consists of a leasehold space within the Whitestone Shopping Center. Apex is requesting all files related to environmental concerns at the site including, but not limited to, above ground and underground storage tanks, remedial actions and permits, tanks and building permits, health and environmental violations, discharges/releases of petroleum and hazardous materials, spills, EPA correspondence, inspections, health and environmental investigations, historic property ownership, existing and former tenants, fires, potable wells, monitoring wells, septic systems, and other compliance or environmental-related records not requested herein.	7/17/2018
EPA-HQ-2018-009704	Dr. Iain Weatherston	J&T Associates LLC	The request is made on behalf of Brandt Consolidated Inc., Springfield, IL and a subsidiary company, Brandt iHammer, Powell, OH. These companies are respectively the registrants of Brandt GlucoPro, EPA Registration No. 48813-3 which was registered on March 23, 2018 and Technical Alpha Methyl Mannoside, EPA Registration No. 91428-1. Even although both products were registered 4 months ago, the Agency has not approved the final label of the GlucoPro product, stating that since the label format was changed to a booklet label after the registration issued, a full review of the booklet label would be necessary. Brandt does not believe that this is necessary and their are examples of BPPD treating other registrants differently. We have also requested access to the DER's for both registrations and have been told no DER's were prepared, a situation which I believe to be highly irregular. These products are biopesticides and it is, I believe, normal for BPPD, the relevant registration issuing division, to prepare a Biopesticide Registration Action Document (BRAD) for new biopesticide registrations. Requests for the BRAD documents have gone unanswered with no explanations being given. At this time I am requesting that I be sent copies of the complete registration files for registrations 91428-1 and 48813-3 in order to decide what action the registrants wish to take at this time. Sincerely, iain Weatherston, Authorized Agent to Brant iHammer & Brandt Consolidated Inc.	7/17/2018

EPA-R8-2018-009656	Stanley Tromp	Journalist	In early July, the news media reported that frustrated U.S. representatives on a commission tasked with protecting the quality of water flowing across the Canada/U.S. border went public with claims that Canadian commissioners are refusing to accept scientific data that shows an increase in selenium pollution from B.C.â€™s Elk Valley coal mines. Two U.S. commissioners on the International Joint Commission released a letter to the U.S. State Department that says Canadaâ€™s three representatives on the commission will not endorse a recent report that shows risks to aquatic life and humans from selenium pollution from five Teck Resources Ltd. coal mines. The polluted water, which leaches from massive amounts of waste rock at Teckâ€™s metallurgical coal mines, flows into the Elk and Fording Rivers in B.C., then into the Koocanusa Reservoir which straddles the border and finally into the U.S. Kootenai River before curling back up into Canada at Creston. Teckâ€™s five metallurgical coal mines are all upstream of the transboundary Koocanusa Reservoir. 			Pursuant to the Freedom of Information Act (â€œFOIAâ€), the Environmental Law & Policy Center ("ELPC") requests copies of all correspondence (including emails and letters) between the United States EPA Region 5 and both the Ohio EPA and the State of Ohio in regard to Ohio's 2018 Integrated Report and Clean Water Act ("CWA") Section 303(d) list. Please email, mail, or make arrangements to supply copies of all requested records as soon as possible to ELPC. As ELPC is a non-profit conservation organization dedicated to promoting the public interest by protecting natural resources, ELPC respectfully requests that you waive all fees in connection with this request as provided by 5. U.S.C. Â§ 552(a)(4)(A)(iii). ELPC has no commercial interest in the requested information. The disclosure of the requested information will benefit the public interest by improving the public's understanding of EPA's actions with respect to its oversight of the water quality of Ohio's waters, and the information is not otherwise attainable by the public. In the event that EPA denies a fee waiver for this request, ELPC will pay the required fees up to $50.00. In the event that the expected cost of this request exceeds $50.00, please call me at (614) 569-3827. Please note that the request for a fee waiver should not be construed as an extension of the 20-day limit for replying to this request under 5 U.S.C. Â§ 552(a)(6)(A)(i) & (ii)(II). If you determine that any of the requested records are exempt from required disclosure under FOIA, please disclose them anyway in order to serve the interest of educating citizens. Should you invoke a FOIA exemption, please include sufficient information for ELPC to appeal the denial, including basic factual material about each withheld item (e.g. originator, date, length, subject matter, and location), and reasons for denial.

Any e-mails or paper letters the office of Don Benton and Doug Ericksen received from Susan Hutchison from January 1, 2017 through July 16, 2018. I am willing to pay up to $100 for your office to fulfill this request. If the cost of fulfilling this request will exceed that amount, I requested that you provide me with a written estimate prior to incurring any costs. My preferred reproduction format is an electronic file e-mailed to me at [redacted] If this is not possible, I request that you provide access to these records electronically via an FTP site, or mail electronic copies of the records to me on removable media, such as a CD or flash drive. If none of these delivery methods are feasible, I request that you mail paper copies of the records to me at the address provided above. If your office decides that any information is exempt from the FOIA, please provide me with any segregable portions that are not exempt by redacting the specific exempt information. Please feel free to contact me by e-mail if you have any questions about my request. Thank you in advance for your assistance. Sincerely, Brian Nichols	7/13/2018

EPA-HQ-2018-009607	Mr. Billy J Watkins		My Sister Jacklyn Susan Marie Opp filed illegal tape recordings of me during her internship at the E.P.A. during the Summer of 2016. She worked in Washington D.C. She brought her husband Christopher Opp and children Victoria and Alex- I filed a police report with the Fort Collins Police Department in May. My sister was only at the E.P.A. for a single summer and I believe she sent the recordings through to the D.O.E. where bad actors were amassing material through the various agencies in a place that can't be FOIA'd. I have gone into detail about what happened to me on this page. https://acchat40.com/phpBB3/viewtopic.php?f=164&t=132667 I also have went into further detail on this twitter account. https://twitter.com/watkins_2 I can give any additional information required but given her small time spent in D.C. and large size of the files I am confident that it should be as easy as looking through what she was doing to find an extraordinary crime that needs to be investigated ASAP. She may have used the handle SusieQOpp as a reference to the Q-Security Clearance that is at the top of the D.O.E. This crime wasn't just committed in a small time frame it was from birth, I was born in Hahira Georgia and they kept me at the hospital for much of my first 5 years where through guise of an ear infection they experimented one me, possibly related to this https://www.ncbi.nlm.nih.gov/pubmed/4044133 There's a lot more but I only have limited space so I hope this finds someone of able mind that is uncorrupted by D.C. to actually look into my claim this time.	7/13/2018

EPA-R9-2018-009555	Marybeth Norgren	Coast 2 Coast Environmental, Inc.	Beginning in 1991 or 1992 and continuing through 1996 (or possibly later), USEPA was the lead agency for assessment and remediation of Quik Lube, Inc./Quick Check, 13123 Poway Road, Poway, California 92064. The owner of the Quik Lube site ran out of funds to do any assessment or remediation and USEPA apparently came in as lead agency with the funding necessary to complete the work. Notes found in a local agency file list Bob Mandel at USEPA's San Francisco office (415-744-2290) as the case manager. Attached is one letter which Mr. Mandel addressed to the owner of one of the adjoining sites impacted by the release at 13123 Poway Road. We need copies of USEPA's records for this case. The contamination also impacted 13117 Quate Court, Poway, CA, 92064 and USEPA's remediation efforts likely included this site as well.	7/12/2018

EPA-R9-2018-009486	Mr. Gary Gertzweig		On behalf of 600 homes destroyed and emotional trauma & financial loss suffered by the families displaced by the lava eruptions at Leilani Estates on the Big Island of Hawaii, as well as loss of a marine sanctuary and farmlands, and loss of the community of Kopoho, this request is for the EPA to reveal any documents which give insight to the management decisions in the operation of PGV (Puna Geothermal Venture) owned and run by Ormat Technology, as well as the Governmental oversight documents regarding drilling wells and pumping fluids through pipes deep into the active Volcano system, that may have contributed to the initial eruption outbreak being half a mile from the Geothermal site. The area continues to pose a hazard to the community through high SO2 levels and continuing lava flow, and yet there is no mention by USGS or any public official of the proximity of the plant to the new eruptions started on May 3, 2018 and so I began doing research and eventually spoke with ex-US Department of Energy employee, where I discovered that magma had gone up the wells. He writes: "On the proximity of magma at depth to the reservoir, I believe I mentioned on the phone that the KS 13 well hit dacite magma which came up the well. With the amount of new magma intruded at depth, it is likely that the reservoir was impacted. It may be gone completely. We donâ€™t really know at this point, but PGV investors would be gambling to assume nothing had changed." It appears that Ormat Technology, by their wells, breached the reservoir, where magma came up their pipes. While Gvmt Agencies have reported this was triggered by an event at the Summit of Kilauea, some 10+ miles away up the rift zone, out of a sense of caution, any reasonable conclusion would need to rule out the PGV plant as a cause. It is important to note that the wells became coated with silica from the brine, and new wells were drilled. We wish to see documents detailing how many wells drilled and were they all permitted?	7/11/2018

EPA-2018-009430	Alexander Rony		This is a request under the Freedom of Information Act. I. Background Information Former EPA Administrator Scott Pruitt's last day at the agency was on Friday, July 6, 2018. That same day, the agency deactivated Pruitt's official Twitter account, @EPAScottPruitt, which was used to promote EPA work and priorities. Thus, records pertaining to official federal government functions are set to be deleted. According to Twitter, "You can restore your Twitter account if it was accidentally or wrongfully deactivated for up to 30 days after deactivation." The Office of Public Affairs likely manages EPA administrator social media accounts. They were involved in another FOIA request on this Twitter account (https://www.muckrock.com/foi/united-states-of-america-10/scott-pruitts-blocked-followers-38939/). II. Description of Records Sought I hereby request the Twitter archive for the @EPAScottPruitt Twitter account under the Freedom of Information Act. You can get the archive by going to https://twitter.com/settings/account and clicking "Request your archive." Alternately, you can go to https://twitter.com/settings/your_twitter_data. In both cases, the @EPAScottPruitt account must be restored first. III. Record Retention and Delivery I prefer my request be filled electronically, by e-mail attachment if available or CD-ROM if not. If you determine that portions of the records requested are exempt from disclosure, I request that you segregate the exempt portions and deliver the non-exempt portions of such records. If the EPA denies all or part of this request, please cite the specific exemptions you believe justify your refusal to release the information. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 10 calendar days, as the EPA's FOIA regulations require for expedited requests.	7/11/2018

EPA-HQ-2018-009362	Ms. Gina Ecolino	Beveridge & Diamond, PC	Pursuant to the Freedom of Information Act, 5 U.S.C. & sect; 552, as amended, and the FOIA regulations promulgated by the U.S. Environmental Protection Agency in 40 C.F.R. Part 2, I hereby request a copy of the final response to FOIA case EPA-HQ-2018-009259, including a copy of the original request and any related correspondence between EPA and the original requester. I respectfully ask that EPA keep this request open until FOIA case EPA-HQ-2018-009259 is closed and EPA issues its final response in connection with that case.	7/9/2018
EPA-R9-2018-009336	Andrea Brown	Mapistry	Any and all correspondence received by the United States Environmental Protection Agency, Region IX, during the time period of May 15, 2018 up to and including the date of your response to this request, constituting or purporting to constitute a notice of alleged violation, pursuant to Section 505(b) of the Federal Water Pollution Control Act, 33 U.S.C. Section 1365(b).	7/9/2018
EPA-R2-2018-009338	Claire Puleio	TRC Engineers, Inc	635 Muncy Avenue, Lindenhurst, NY. For the above referenced-site, I would like to obtain the status and description of any reported petroleum spills or tanks; copies of any record of decision regarding investigation or clean up of the site; notification of the lead agency that is primarily responsible for investigating and cleaning up the site; notification of any legal action involving the site; detailed reports, monitoring data, regulatory non-compliance notices, documents or studies regarding any pollution problems at the site, and how I may obtain copies of them or review them in person..	7/9/2018
EPA-2018-009334	Bryan Menegus	Gizmodo	This is a request under the Freedom of Information Act. I am requesting an archive of all "tweets", "retweets", and "likes" made by the former Administrator of the United States Environmental Protection Agency, Edward Scott Pruitt, during his tenure (February 17, 2017 to July 6, 2018.) These tweets were posted by the account @EPAScottPruitt which has since had all tweets prior to approximately July 8th deleted and its handle changed to @EPAAWheeler, though its approximately 60,000 followers remain associated with the account. These deletions are a clear violation of the EPA's own Social Media Policies, an exerpt of which is reproduced in the NARA "Best Practices for the Capture of Social Media Records" white paper: "The laws, regulations and policies that govern proper records management (i.e., creation, maintenance/use and disposition) still apply when using social media...New content created with social media tools that qualifies as a Federal record must be captured and maintained in a recordkeeping system according to EPA Guidance EPAâ€™s Records Management Policy...Please note that content created with social media tools may be subject to document production under FOIA or litigationâ€Ø(Using Social Media Internally p.4-5)" A record of the former Administrator's public activities on Twitter are necessary and important to public enlightenment, and all the more valuable in light of the series of scandals Mr. Pruitt has been embroiled in.	7/9/2018

			To Whom It May Concern: Pursuant to the Freedom of Information Act, I hereby request the following records: 1. All memos written by Scott Pruitt from 7/1/18 to present date that contains the word resignation. 2. All emails sent from Scott Pruitt with subject "Resignation" from 7/1/18 to present date. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires. Sincerely, Carlos Gamez Update 1/13/20

EPA-HQ-2018-009182	Mr. Samuel Falk	Hawkins Inc	Subject: Vertex Chemical Corporation (EPA No. 9616) Stamped Confidential Statements of Formula (CSF) Hello, My name is Sam Falk and I work for Hawkins, Inc. based out of Roseville, Minnesota. Back in 2011 Hawkins purchased Vertex Chemical Corporation (a bleach manufacturer). Recently I have been tasked with combining the two pesticide maintenance programs, as the previous person retired. I have been through all of the paper and electronic Vertex files. I am looking for stamped copies of their Confidential Statements of Formula (EPA Form 8570-4), but have been unable to find them. I would like to have these on file in order to perform State Registrations and updates. The EPA Registration Numbers are: 9616-7, 9616-8, 9616-10, 9616-11, 9616-12, 9616-13 and 9616-15. I do need the Stamped, EPA Approved copies in order to use them. I have attached an example form to this request. Please let me know if you have questions or require additional detail. Thank you, Sam Falk	7/2/2018

EPA-R3-2018-009030	Jessica Skillman		Paul Ruge of the EPA investigated Roof Right Inc on July 14, 2015 for violation of lead safe work practices at my home, 905 Adana Road, Baltimore, MD 21208. The EPA found Roof Right Inc non-compliant after an interview and investigation of records of 7 projects done in the past year. Specifically, Roof Right neglected to give owners EPA lead safe renovator pamphlet and produce records required by federal law to show lead safe work practices were taken. Linda Standiford was notified of the finding of noncompliance in a letter dated 3/21/2016. Roof Right was required to respond within 30 days, to Annie Hoyt indicating actions they take to ensure future compliance with the requirements of the RRP Rule. My prior FOIA request only included a redacted version of what was publicly available. I specifically request information regarding Roof Right's letter to Annie Hoyt. I specifically request a copy of the complaint I filed and signed. I request any and all documents in the EPA's possiession, custody or control that relate in any way to the above investigation. I request any information regarding Roof Right's lead safe practice company policies or protocol in place at the time of the investigation. I request any and all communications with Roof Right or anyone acting on behalf of these entities and at any time. I request any and all documents memorializing Complaints filed against Roof Right at 905 Adana Road 21208, my residence. This information is necessary to provide evidence supporting the litigation I have regarding non-compliance with lead safe practices and recovering costs we incurred to clean up extensive lead contamination of our property. In addition, small children lived at this home and I want to make sure that no one is exposed to this dangerous type of work in the future. EPA-HQ-2018-008922	Emma Best		Copies of all drafted, submitted or received SF-311 forms (https://www.archives.gov/files/isoo/security-forms/sf311.pdf) produced in the year prior to the receipt of this FOIA request. SF-311 forms may also be identified as Agency Security Classification Management Program Data. I am a member of the news media and request classification as such. I have previously written about the government and its activities, with some reaching over 100,000 readers. As such, as I have a reasonable expectation of publication and my editorial and writing skills are well established. In addition, I discuss and comment on the files online and make them available through non-profits such as the Internet Archive and MuckRock, disseminating them to a large audience. While my research is not limited to this, a great deal of it, including this, focuses on the activities and attitudes of the government itself. As such, it is not necessary for me to demonstrate the relevance of this particular subject in advance. Additionally, case law states that â€œproof of the ability to disseminate the released information to a broad cross- section of the public is not required.â€ Judicial Watch, Inc. v. Depâ€™t of Justice, 365 F.3d 1108, 1126 (D.C. Cir. 2004); see Carney v. U.S. Depâ€™t of Justice, 19 F.3d 807, 814-15 (2d Cir. 1994). Further, courts have held that "qualified because it also had â€œfirmâ€ plans to â€œpublish a number of . . . â€˜document setsâ€™â€ concerning United States foreign and national security policy." Under this criteria, as well, I qualify as a member of the news media.	6/21/2018

EPA-HQ-2018-008786	Emma Best		To Whom It May Concern: Pursuant to the Freedom of Information Act, I hereby request the following records: Lists, indices or other records that describe or enumerate any historical studies produced or commissioned by the agency's historical staff or various offices/subdivisions. These documents will be used, among other things, to identify individual histories that are of interest to the public, which will then be requested in a separate FOIA request. I am a member of the news media and request classification as such. I have previously written about the government and its activities, with some reaching over 100,000 readers. As such, as I have a reasonable expectation of publication and my editorial and writing skills are well established. In addition, I discuss and comment on the files online and make them available through non-profits such as the Internet Archive and MuckRock, disseminating them to a large audience. While my research is not limited to this, a great deal of it, including this, focuses on the activities and attitudes of the government itself. As such, it is not necessary for me to demonstrate the relevance of this particular subject in advance. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires. Sincerely, Emma Best	6/19/2018

EPA-HQ-2018-008723	Adam Carlesco	Public Employees for Environmental Responsibility	On June 13, 2018, in an interview with WZFG-AM 1100, Administrator Scott Pruitt stated that EPAâ€™s 2009 endangerment finding on greenhouse gases was simply â€œtransferredâ€ to the agency from the United Nationâ€™s Intergovernmental Panel on Climate Change (IPCC), and was not the product of EPA research. We request the following: 1. The documents that Administrator Pruitt relied upon in making these statements; and 2. Any EPA agency records that demonstrate EPA did not conduct its own studies regarding the endangerment finding. 3. Any EPA agency records that support the conclusion that the endangerment finding relied solely upon research and studies â€œtransferredâ€ to EPA from IPCC. 4. Any EPA agency records that support the conclusion that there was a â€œbreach of processâ€ with regard to EPAâ€™s endangerment finding	6/15/2018

EPA-R2-2018-008664	Nick Bayack		Hello, I am looking for information on the investigation with two Ford properties in Middletown NY please. One of the properties is on Slaughter Road/Stage Road---the other is on Stony Ford Road/Stage Road--Middletown NY 10941 mailing address...Town of Wallkill. I would like to know the results of all soil tests done on both sites. I would like to know the current status regarding the Wetlands violations. I live on Stage Road and was the initial complainant to the EPA against the property owners. I would like to know if there is a Master Plan for the properties and what/when will the soil be removed from the properties. If there is a map that shows this information I would like to look at it please. I would like to see all correspondence between the EPA/DEC and the property owners. I would like to know if/when/how my name was shared with the property owners I complained against. If my name has not been shared yet please let me know when it will be shared. I would also like to see all correspondence between the Town of Wallkill and the EPA. The property owners have many Town of Wallkill employees on their payroll. Wallkill workers and the town supervisors seemed to know about and enable the illegal activities on the site. I would like to know where/when/how my name may have been shared with the Town of Wallkill. I kind of want all information I can get without having to pay any extra fees. (I understand I may get overwhelmed with the volume of information on this)... If I should be phrasing my request in another way please let me know. Thanks so much for your time and help. EPA-HQ-2018-008519	Matt Kasper		To Whom It May Concern: Pursuant to the Freedom of Information Act, I hereby request the following records: Any and all electronic communications between Matthew Z. Leopold, General Counsel, and representatives of the Edison Electric Institute, and Hunton & Williams. According to Mr. Leopold's calendar, he had meetings, speaking engagements, and/or calls with representatives of EEI and Hunton & Williams on May 4, May 3, April 16, March 22, and March 8. This request should include but is not limited to emails, attachments, both sent and received, notes, minutes, event materials, agendas, or handouts. The search for records may be limited to December 14, 2017 and the processing date of the request. Please exclude all press clips. I would also like to request a waiver of all fees in that the disclosure of the requested information is in the public interest. The organization I work for, the Energy and Policy Institute, is a clearinghouse of information and can qualify as a representative of the news media. There are several examples of public record requests that have been provided to my organization and that were then published on our website to inform the public. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires. Sincerely, Matt Kasper	6/11/2018
EPA-2018-008518	Andrew Perez	Maplight	A copy of the EPA's current numbered queue for FOIA requests for records held by Administrator Scott Pruitt's office. As some context, I received a message from Jonathan Newton at the EPA today informing me that my request, #EPA-HQ-2017-010166, is currently 574 in the queue. I am requesting a copy of that queue in its current numbered order and format. I ask that my request be expedited. I am a full-time journalist employed by MapLight, a California-based nonprofit research organization. My reporting is published on our website, MapLight.org, and has often produced in partnership with other news outlets, such as Fast Company and Newsweek Media / International Business Times. Our reporting has been shared by major outlets like CNN, the New York Times and Washington Post. My request concerns federal government activity: the EPA has informed me and other Washington journalists of its FOIA queue. There is urgency to inform the public about this federal government activity -- about how this queue is structured and how its order has been determined -- in light of reports that the EPA is facing an unprecedented number of FOIA lawsuits and that aides to the Administrator are screening requests and delaying responses past the timeframe allowed by law. I ask that your agency waive all fees. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter. Please let me know if there is any more information I can provide in order to expedite my request.	6/11/2018
EPA-HQ-2018-008516	Mr. David Kesselring		I read the following quote relating to septic systems on https://www.epa.gov/septic/septic-systems-overview , "The most serious documented problems involve contamination of surface waters and ground water with disease-causing pathogens and nitrates. Other problems include excessive nitrogen discharges to sensitive coastal waters and phosphorus pollution of inland surface waters, which increases algal growth and lowers dissolved oxygen levels. Contamination of important shellfish beds and swimming beaches by pathogens is a concern in some coastal regions." Please send the "serious documentation" that is stated. Please feel free to email me your response to this request. If you do plan to charge for this request, please send me an estimate of any costs before completing this request.	6/11/2018

EPA-R2-2018-008397	Veronica Gonzalez		An October 31, 2017, news release by EPA, regarding Hurricane Maria updates, included the following information: â€œEPA has completed preliminary assessments at all accessible EPA-led Superfund sites, oil sites, and chemical facilities in both Puerto Rico and the USVI to determine if the sites were affected by Hurricane Maria, and is conducting follow-up actions, such as fence and structure repairs. In addition, EPA is coordinating with the lead federal agencies for two other sites, Culebra and Vieques.â€ However, those assessments and corrective actions have not been made public, to my understanding. I therefore request that documents containing the following information be provided to me: â€¢ All documentation of assessments undertaken by EPA at all Superfund sites in Puerto Rico to determine any possible effects of Hurricane Maria or updates in the sitesâ€™ status following Hurricane Maria and the sitesâ€™ current status; â€¢ All documentation of follow-up actions taken, recommended, or proposed by EPA at these Superfund sites as a result of these assessments; â€¢ This request includes all documentation, data, plans, reports, or future projections, internal or otherwise, regarding post-Hurricane Maria assessments and actions at the Former Atlantic Fleet Weapons Training Area in Vieques, Puerto Rico. There is interest, in particular, in any documentation of possible further contamination at these sites, dispersal of munitions or contaminants to surrounding areas, or any other environmental phenomena related to a widening or shifting of the siteâ€™s toxic footprint.	6/6/2018

EPA-R9-2018-008361	Nick Surgey		On behalf of Documented and the Intercept, pursuant to FOIA, I hereby request the following: A copy of the visitor logs for the EPA regional office, dated January 20, 2017 through to January 20, 2018. Where possible, please provide records on a rolling basis as they become available for release. The requester is entitled to a fee waiver because he is a member of the news media, and because this request for records concerns activities or operations of the government. Disclosure of the requested records will likely increase public understanding of government operations since the requester has the ability and the intention, through the means described below, to effectively convey information contained within the requested records to a broad public audience. Requester is an investigative journalist and the director of Documented, an investigative watchdog and reporting group that explores the relationship between industry and government. Nick Surgey writes for the Intercept. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.	6/5/2018

EPA-HQ-2018-008372	Michael Biesecker	Associated Press	The Associated Press requests a copy of a a Sept. 2017 email exchange between Millan Hupp, the scheduling director to EPA Administrator Scott Pruitt, and employees of the Trump International Hotel in Washington. According to transcribed testimony by Hupp before the House Committee for Oversight and Government Reform, she contacted the hotelâ€™s managing director both by phone and email to inquire about obtaining an â€œold mattressâ€ from the hotel for use by Pruitt in his home. In an interview with The Associated Press, Patricia Tang, the marketing director for the Trump International, said hotel managing director Mickael Damelincourt and his assistant responded to Hupp by email. We are seeking a copy of that full email exchange. Please see attached letter for additional details.	6/5/2018
EPA-HQ-2018-008352	Emma Best		Copies of all emails containing the terms "MuckRock", "Muck Rock" or "MuckRock.com", excluding emails sent to or from a MuckRock.com email address. Please include the complete email exchange for each email, including any emails that are being replied to as well as any subsequent replies. I am a member of the news media and request classification as such. I have previously written about the government and its activities. I have a reasonable expectation of publication and my editorial and writing skills are well established. I discuss and comment on the files online and make them available through non-profits such as the Internet Archive and MuckRock, disseminating them to a large audience. While my research is not limited to this, a great deal of it, including this, focuses on the activities and attitudes of the government itself. As such, it is not necessary for me to demonstrate the relevance of this particular subject in advance.	6/5/2018

EPA-HQ-2018-008369	Mr. Billy Watkins	My Sister Jacklyn Susan Marie Opp filed illegal tape recordings during her internship at the E.P.A. during the Summer of 2016, I filed this FOIA two months ago and only now received the need for clarification. I was held against my will by family who was so terrified of me looking into what my sister did that they kept me away from computers. But I filed a police report with a Micheal McTie at the Fort Collins Police Department so that will correlate my story as well as begin an investigation from a different side of the DOJ. I'm not going to stop! I was filmed my entire life and so were many other people! I can give any clarification that is within my capacity to give and my sister was only at the E.P.A. for a single summer, and these files have to be huge, in the gigabytes of video data therefore with just a small few months and knowing her full legal name as well as my accounts, are you suggesting you need clarification still? How many terabytes of data did she send that makes my videos hard to find? Especially given the files have NOTHING to do with anything remotely in the E.P.A.'s charter. These are illegal tapes of ME. Want more info? How about the other victims? Barbara from San Bernadino whose grandmother was a double agent for trafficking drugs, Jonathan from New York who lived underground in his childhood. Robert from Chicago who was locked in a garage for most of his childhood. Many more! I've met about 20 victims of this and know so much now, I can explain even why people like me and them were chosen as victims because our fathers and grandfathers made powerful people angry. I know the whole scam now! I just need help from ANYONE that is willing to spend a few seconds helping me by looking at what my sister and the people who helped my sister did.	6/5/2018

EPA-HQ-2018-008354	Nick Surgey		On behalf of Documented and the Intercept, pursuant to FOIA, I hereby request the following: A copy of the visitor logs for EPA Headquarters, dated January 20, 2017 through to January 20, 2018. Where possible, please provide records on a rolling basis as they become available for release. The requester is entitled to a fee waiver because he is a member of the news media, and because this request for records concerns activities or operations of the government. Disclosure of the requested records will likely increase public understanding of government operations since the requester has the ability and the intention, through the means described below, to effectively convey information contained within the requested records to a broad public audience. Requester is an investigative journalist and the director of Documented, an investigative watchdog and reporting group that explores the relationship between industry and government. Nick Surgey writes for the Intercept. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.	6/5/2018
EPA-R5-2018-008342	Mrs. Criste Greening		I would like all information (notes, emails, phone records, communications) leading up to, and resulting in, the groundwater contamination investigation conducted in May 2018 in Wisconsin's Juneau County township of Armenia. I would appreciate all water test results from the 41 test sites drilled by the EPA and an overview of the 90 residential wells tested as well as a copy of the Investigation Report in its entirety. Additionally, I request any documentation, investigative reports, or complaints filed against the Central Sands Dairy - Owner: Wysocki Family of Companies to the EPA to also be included in this FOIA request. Location is also in the Juneau County township of Armenia with base office in Bancroft, WI. I understand that the department also has communicated with local residents (Juneau County township of Armenia) regarding water contamination issues and would like documentation as to their concerns and health issues reported to the EPA from residents of this township. EPA-R9-2018-008439	Mrs. Sandra L Demoruelle		Aloha, I request two copies of the Pahala and Naalehu environmental review documents named above be sent to me for placement in the Kau Libraries. Thank you, Sandra Demoruelle, President Friends of the Ka'u Libraries P.O. Box 588, Naalehu HI 96772-0588 The County of Hawaii Department of Environmental Management (COHDEM), in compliance with the Naalehu Project Schedule (the Consent Order (AOC) Attachment B Table 1 dated 4/20/2017, ID# 6 "3 HRS 343 EA/PER for Naalehu - B&C (Contract 2), has stated that they have performed an Environmental Site Assessment (ESA) and Preliminary Engineering Report (PER) for this wastewater treatment plant (WWTP) and began the "EA Process" on 11/30/17. No reason is given for an "EA Process" when AOC comments pointed to significant EIS triggers back in May 2017 - but the important point is the COHDEM and Brown & Caldwell (B&C) are proceeding on two Ka'u WWTP projects with no publication of notice in The Environmental Notice (TEN)! Please insist that all environmental review documents be made available to the community as required by Hawaii statutes. Thank you for your concern with these over-priced, unwanted WWTPS that will be forever an albatross for the COH taxpayers. The community all agreed on LCC conversion to septic for $3,600,000 with the 2007 FEA - which has never been withdrawn on TEN. COHDEM "scrapped" that LCC solution and went for 2 full-size secondary WWTPs with absolutely no TEN notice - and now they are denying the community access to the environmental review documents underlying their current 2018-19 CIP project budget decisions. Thank you so much for your help in getting us these UIPA requested records. Sincerely, Sandra Demoruelle	6/4/2018

EPA-R5-2018-008231	Abigail R Shurtleff	Tower Engineering Professionals, Inc.	NRC Report #910144 My company is performing a Phase I Environmental Site Assessment (ESA) for an existing communications tower in Wayne County, Michigan. As part of that process we look for records of potential environmental concern, and the company that we use found a record on the parent property of the tower, which Iâ€™d like to see if you have any additional information on and/or would know who to contact about the issue. The property in question is located at 9750 Belleville Road, Belleville, MI 48111 and is occupied by Waterworks Car Wash. A call was placed and filed in the EPAâ€™s Emergency Response Notification System (ERNS) on 06/22/2009 stating that â€œvarious car washing chemicalsâ€ were being dumped on the property. Particularly, the caller said various chemicals are â€œpoured out on rainy days when the car wash is closedâ€ and that dumping occurred at the back of the property (where there is a storm-water retention pond). The report I have lists land and soil as the primary mediums of concern, but Iâ€™m much more inclined to think storm-water runoff and particularly the pond on the property would have been affected. My question is â€“ do you have any additional information on what action was taken in response to the ERNS call?	6/1/2018
