EPA-R4-2019-009219	Mrs. Lesley A Pacey	Eastern Shore Community Health Partners, Inc.	I located the article below on the EPA's website and I would like to obtain more information about this incident. I am interested in where specifically this dumping was in Baldwin and Mobile counties; if it was remediated; and the specific details about the chemicals and wastes that were dumped. I contacted the EPA by phone and was told to file a FOIA for more info. The info will be used for educational purposes. Waste Disposal Company Owner Sentenced for Illegal Dumping in Alabama Release Date: 09/01/2004 Contact Information: Contact: Rich Hood 202- 564-4355 /[redacted] (09/01/04) Don Milton White, a private contractor from Mobile, Ala., was sentenced to six months in prison, three years probation and $20,000 in restitution to the U S. EPA. In May, White pleaded guilty to two counts of violating the Resource Conservation and Recovery Act. White contracted with the Escambia County Utility Authority in Florida to transport and dispose of wastes from its wastewater treatment facility. White illegally dumped the wastes, which included oils, tar, paint wastes, hydraulic fluid, solvents and other mixed materials, at separate locations in Mobile and in Baldwin County in Southern Alabama. Of the hundreds of gallons of wastes White illegally discarded, some contained highly corrosive liquid that is regulated as hazardous waste under federal law. Dumping waste oils, fluids and solvents on the ground can create a contamination hazard for humans and wildlife. Sentencing took place on Aug. 19 in the U.S. District Court for the Southern District of Alabama in Mobile. The case was investigated by the Jackson, Miss., Office of EPA's Criminal Investigation Division, EPA's Emergency Response Branch and the FBI. It was prosecuted by the U S. Attorney's Office in Mobile and the Environmental Crimes Section of the U.S. Department of Justice in Washington, D.C.	9/27/2019

EPA-HQ-2019-009209	Mr. Yongjin Ahn	University of Southern California	Dear FOIA officer of Environmental Protection Agency: Hi, this is Yongjin, a doctoral student studying public policy at the University of Southern California. I am currently doing research on the three previous government shutdowns, FY2014, FY2018, and FY2019. Under the Freedom of Information Act, 5 U.S.C. Â§ 552, I am requesting contingency plans that contain information on the planned number of furloughs within each component of Environmental Protection Agency (e.g., Bureaus, Administrations, Offices, etc.) prior to the three events. I noticed that there are contingency plans updated to the latest date in the OMB website, however, what I am searching for are those that were prepared right before shutdowns of FY2014, FY2018, and FY2019. The purpose of my request is to compare the "planned number" of furloughed employees with the "actual number" at the event. Therefore, I also request the number of employees furloughed in each component of Environmental Protection Agency (e.g., Bureaus, Administrations, Offices, IRS, etc.) during those three shutdowns. I am fully aware that there might be employee privacy issues, thus, I require only "the number" rather than individual information. If there are any fees for searching or copying the records, please let me know before you fill my request. If you deny all or any part of this request, please cite each specific exemption you think justifies your withholding of information. Notify me of appeal procedures available under the law. If you have any questions regarding this request, please contact me. Sincerely, Yongjin Ahn [redacted]	9/27/2019

			Pursuant to the Freedom of Information Act, I hereby request the following records: The robots exclusion standard specifies how to inform a search engine or web robot about which areas of a website should not be processed or scanned. According to the robots.txt page on hhs.gov (https://www.epa.gov/robots.txt) several webpages have been de-indexed. Therefore, I hereby request the following records Any emails, memos, reports, or other written or digital communications, sent or received by any employee of the agency between January 1 2010 and the date on which this request is processed which contains any mention of "robots.txt", "de-indexing" or "de-indexing" webpages. Request for Fee Waiver We request a waiver of fees associated with processing this request for records. As a full-time reporter for Gizmodo, I am a representative of the news media. Gizmodo is an online news organization that gathers information of potential interest to a segment of the public, uses its editorial skills to turn the raw material into distinct work, and distributes that work to the public free of charge. Disclosure of the information sought by Gizmodo is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of government and law enforcement. The information sought is not primarily in the commercial interest of the requester. Regardless, Gizmodo is willing to pay fees for this request up to $50 â€‹without prior approval. If you estimate that the fees will exceed this limit, please notify me first. Further Correspondence

EPA-R6-2019-009142	Ms. Kali Venable	Victoria Advocate	Good afternoon, Under the Texas Public Information Act, Â§6252-17a et seq., I am requesting a copy of the EPA's FYR Addendum for the Alcoa (Point Comfort)/ Lavaca Bay Superfund Site cleanup in Calhoun County that is set to be completed by Sept. 30, 2019. I would also like to request a waiver of all fees in that the disclosure of the requested information is in the public interest. I am an environmental reporter with the Victoria Advocate and my request is strictly related to news gathering. The Texas Public Information Act requires that you "promptly produce" the requested records unless, within 10 days, you have sought an Attorney General's opinion. If you expect a significant delay in responding to this request, please contact me with information about when I might expect copies or the ability to inspect the requested records. If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law. Thank you in advance for your time and please feel free to give me a call if you have any questions about this request. Best, Kali Venable	9/24/2019

EPA-HQ-2019-008875	Jeffrey Markley		Copies of AT&T, Verizon and CenturyLink phone bill reports for June 2019 for wire-line services provided by AT&T, Verizon, and CenturyLink. The portion of the bill I am requesting is a summary of charges and not the complete bill. The report name for each of the carriers is as follows: 1) AT&T - Summary of Invoice Charges; 2) Verizon - Tax Summary; 3) CenturyLink - Your Account Balance. In CenturyLink's case the Your Account Balance report summarizes the following fees: 1) Current Gross Charges; 2) Discounts, Promotions & Fees; 3) Government Fees & Taxes; 4) Other Fees and Monthly Charges; 5) Current Net Charges. Please note that the reports being requested are only a small portion of the entire phone bill. The summary reports being requested should be minimal compared to the overall number of pages in a complete bill, and accessing those pages should be a low time-consuming task for the person with expertise navigating the carrier billing portals. Through conversations with TSM's at the GSA, I've been led to believe the person with expertise in this area is likely in the IT billing and finance department, Office of the CIO, or Office of the CFO. I am attaching an example of AT&T's Summary of Invoice Charges for your reference.	9/13/2019

EPA-HQ-2019-008777	Mr. Ciro Gaimari	Romanucci & Blandin LLC	Re: Central Wire Dates of Incident: 2005-201 Location of Incident: 6509 Olson Road, Union, Illinois 6018 To whom it may concern: Our firm, Romanucci & Blandin LLC, represents Dana Harper regarding Central Wireâ€™s continued noncompliance with federal and state regulations regarding emissions and/or polluting of neighboring land, air, and water in Union, Illinois. Upon information and belief, Central Wire, a company located in Union, Illinois, released and/or transferred into the surrounding environment amounts of chemicals significantly exceeding limits established by the US and Illinois Environmental Protection Agencies from 2005 up to and including present day. Pursuant to the provisions of the Freedom of Information Act, 5 ILCS 140/1, I am requesting information related to the release and/or transfer of chemicals into the environment by Central Wire between 2005 and 2019. Specifically, I am requesting any and all: 1) Documents, investigations and/or reports created by the US Environmental Protection Agency (EPA) regarding any and all citations for release and/or transfer of chemicals beyond the established allowed amount; 2) Any and all correspondence and/or communication created or possessed by the EPA regarding the above-listed company; 3) Reports, data and/or diagrams regarding the above-listed company; 4) Meeting minutes and/or documentation of EPAâ€™s concern and/or investigation into the above-listed company; and 5) Documentation from the Bureau of Air, the Bureau of Land, the Bureau of Water, Chemical Safety, and Pollution Prevention programs regarding the above-listed company between 2005 and 2019. I look forward to hearing from you in writing within five working days as required by the Act. Due to the time frame from which I am requesting documents, I acknowledge the vast amount of potential records and propose a rolling disclosure. If you have any questions or need further information to locate the records, please do not hesitate to call.	9/10/2019

EPA-R6-2019-008783	David Frederick		Documents, including emails, photographs, and inspection reports, regarding the Formosa Plastics Corp, Texas, Point Comfort facility (EPA ID No. TXT490011293) received or created since January 1, 2019. This would, particularly, include documents related to an April 2019 inspection of the facility, in some or all of which inspection Michael D. Williams participated. The date range is limited to this year, 2019, to date. Within that range, documents related to the April 2019 inspection in which Mr. Williams participated are of the most interest. I expect those are not numerous or voluminous. Please focus, initially, on those. For pages with redactions, I do not know, prior to seeing the redacted versions, whether substantiation will be requested. In the event, as is its eont, Formosa has designated an entire page as PBI/CBI, I will want to know the page was withheld from disclosure and will want substantiation of the PBI/CBI claim. I am not seeking publicly available information only, and not excluding PBI/CBI.	9/10/2019

EPA-HQ-2019-008774	Lisa Rector	NESCAUM	Per 40 CFR60.5476(h) The manufacturer of an affected wood central heater model line must notify the Administrator of the date that certification testing is scheduled to begin by email to WoodHeaterReports@epa.gov. This notice must be received by the EPA at least 30 days before the start of testing. The notification of testing must include the manufacturer's name and physical and email addresses, the approved test laboratory's name and physical and email addresses, the third-party certifier name, the model name and number (or, if unavailable, some other way to distinguish between models), and the dates of testing. The laboratory may substitute certification testing of another affected wood heater on the original date in order to ensure regular laboratory testing operations. We are requesting the copies for all units that have submitted 30-day notice of a manufacturers intent to conduct certification testing for the period covering May 15, 2015 through September 10, 2019 to the present. We respectfully request all data pertaining to those notification to include all required information including but not limited to the manufacturer names, models, date of test request, test lab and 3rd party certifier. This request is a similar to those filed previously by NESCAUM, as this data provides critical information to track industry compliance and assess program performance.	9/10/2019

EPA-R9-2019-008495	Mr. William Clark	Foley & Mansfield	Please provide certified copies of all records related to ASBESTOS at the following locations: 1)Huntâ€™s Cannery in Hayward, CA; 2)US Pipe at 1295 Whipple Rd, Union City, CA 94587. Hunts operated multiple canneries in Hayward, CA. The company was known as Hunt Brothers Cannery, Hunt-Wesson Foods, Hunt Foods, and Huntâ€™s. The canneries closed in 1981 and have since been mostly demolished and replaced with housing. At its height in the 1960s and 1970s, Hunt's operated three canneries in Hayward (A Street, B Street, and C Street at the Southern Pacific railroad tracks), an adjacent can-making company, a pickle factory, and a glass manufacturing plant. From the 1890s until its closure in 1981. At its peak, Hunt Foods consisted of an industrial complex of 90 acres that stretched for a 1 1/2 miles along the Southern Pacific Railroad. The plant buildings occupied more than 1 million square Feet of space. Hunt eventually merged with the Wesson packing company, and the plant began closing down in 1978. The United Can plant remained in Hayward, employing 200 full-time and 1.300 seasonal workers. Other portions of the Hunt plant were transformed into warehouse space, Cannery Park, and the Price Club/Costco store. Because there has been significant development since these plants closed down, it is not possible to provide an accurate street address for these plants that may correspond with the records in your system. However, I have attached a aerial photo and circled the footprint of the plants. We seek all records related to asbestos at these locations, including asbestos abatement notifications, abatement permits, asbestos violations, asbestos inspections, records of asbestos contamination, or any other records of asbestos being present at these locations. This request is not limited to any specific time period. This is a commercial request. We are willing to pay up to $300 in fees. Please inform me if fees will exceed $300. EPA-HQ-2019-008426	Daniel Sherwood	The Capitol Forum	To Whom It May Concern: This is a request under the Freedom of Information Act (FOIA) on behalf of The Capitol Forum, a media organization. Between years 2011 and 2015, EPAâ€™s Criminal Investigation Division (CID) contacted state counter-parts in an auditing effort to determine the number of enforcement personnel staffed in the state programs. Pursuant to FOIA, I hereby request the following record(s) as it relates to said survey/audit: 1. A document, table, datasheet, or figure including the data from state respondents (i.e. number of support personnel, attorneys staffed, number of agents, etc.) as it was created by EPA staff for distribution. 2. If no such record exists as described above, we request the records reflecting the responsive survey answers as they were filled out by survey respondents and submitted to CID. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires. Sincerely, Daniel A. Sherwood, J.D.	8/26/2019

EPA-R2-2019-008338	Christopher Antonacci	Latham & Watkins	Andreaâ€“ Thank you for discussing the below referenced Freedom of Information Act (FOIA) request (EPA-R2-2019-008338) with me yesterday. As a follow-up to our discussion and our November 4, 2019 letter to EPA, we would like to clarify our request in several respects: â€¢ Recognizing that some of the FOIA-responsive documents are located both in New York and Puerto Rico, we would like to first review the available New York FOIA-responsive documents. We can make ourselves available on any of the following dates to review EPAâ€™s New York files on (i) the PROTECO Superfund Site located in Penuelas, Puerto Rico (EPA ID No. PRD000831487) and (ii) the former Owens-Illinois de Puerto Rico LLC facility located in Vega Alta, Puerto Rico: November 21, November 22, November 25, or December 2-6. â€¢ If EPA has an index available for these two facilities, we would be happy to review the index and try to narrow down the documents that we would like to review. At this time, we are primarily interested in (i) documents related to the two facilitiesâ€™ RCRA, CERCLA, and water program files, including any permitting related to any of these programs; and (ii) any correspondence between the facilities and EPA. â€¢ We are not requesting that EPA produce email correspondence regarding these two facilities. Please let us know when EPAâ€™s New York files can be made available for inspection and whether an index for these two facilities is available to review in advance. Thanks, Kegan A. EPA-HQ-2019-008304	Ms. Lisa Rector	NESCAUM	Per 40 CFR60.534(g) (g) The manufacturer of an affected wood heater model line must notify the Administrator of the date that certification testing is scheduled to begin by email to WoodHeaterReports@epa.gov. This notice must be received by the EPA at least 30 days before the start of testing. The notification of testing must include the manufacturer's name and physical and email addresses, the approved test laboratory's name and physical and email addresses, the third-party certifier name, the model name and number (or, if unavailable, some other way to distinguish between models), and the dates of testing. The laboratory may substitute certification testing of another affected wood heater on the original date in order to ensure regular laboratory testing operations. We are requesting the copies for all units that have submitted 30-day notice of a manufacturers intent to conduct certification testing for the period covering May 15, 2015 through May 15, 2016 and June 15, 2019 to the present. We respectfully request all data pertaining to those notification to include all required information including but not limited to the manufacturer names, models, date of test request, test lab and 3rd party certifier. This is a similar request to the one filed in April of 2018 and 2019, as it provides critical information to track industry compliance and assess program performance.	8/20/2019

EPA-HQ-2019-008306	Lisa Rector	NESCAUM	Per 40 CFR60.537(f) and 60 5479(f) within 60 days after the date of completing each performance test, e.g., initial certification test, tests conducted for quality assurance, and tests for renewal or certification, each manufacturer must submit the performance test data electronically in both CBI and redacted versions to WoodHeaterReports@epa.gov. The regulation also states that emission data, including all information necessary to determine compliance, may not be claimed as CBI. Per sections 60.533 and 60.5475, the submission of emission data are a stand alone component in the certification application process. We are requesting all information EPA received as part of the 60-day reporting requirement under the 2015 Residential Wood Heater New Source Performance Standards reporting requirements to include all non-CBI emission data to include (1) data from fully completed tests, (2) data from stopped or incomplete test reports, and (3) the data this information was submitted to EPA. EPA-R7-2019-008182	Dr. Lisa Martino-Taylor	Southern Illinois University	Please recognize this request for information related to any and all chemical or hazardous materials located in or around the former trailer park named Stonebridge Manor in Eureka, Missouri. This would include addresses off of Williams Road, and locations around Flat Creek in Eureka, MO. The site might have also been referenced as "Stone Bridge" Manor, or under various property-specific names in Eureka, MO. I hereby request all data, correspondence, press releases, reports, summaries, test results, lab reports, and any and all documentation regarding environmental testing for hazardous materials or chemicals in the area, including all information related to potential chemical migration into Eureka and Stonebridge Manor during the flood of 1993 from the nearby town of Times Beach, Missouri. Stonebridge was evacuated during the 1993 flood.	8/15/2019
EPA-HQ-2019-008133	Mr. Dan Keltner	Antea Group	I am requesting files for the following site in Conway, Arkansas: 645 Exchange Avenue, Conway, AR (Denovo Company, Inc.) - RCRA ID #ARD983274044. Specifically, requesting files relating to RCRA Corrective Action, which may have been completed under the name "Treiber Farm." Most of the files may date back to the 1990s. Please let me know if you have any questions or need any further information.	8/15/2019

EPA-R5-2019-008148	Kevin Bogardus	E&E News	In responses to previous FOIA requests, I have received EPA's correspondence logs that identify specific pieces of correspondence between EPA and public officials by control number and public office. I am now requesting specific pieces of correspondence identified in those correspondence logs by control number and public office. Please include attachments, enclosures or any other documents that were provided with the piece(s) of correspondence in its original form. In addition, please provide all direct agency responses to the requested piece(s) of correspondence. I request the following piece(s) of correspondence listed by control number and public office: R5-18-000-7560 Office of the Mayor of the City of South Bend, Indiana AX-15-001-3587 Office of the Mayor of the City of South Bend, Indiana R5-13-000-5763 Office of the Mayor of the City of South Bend, Indiana	8/15/2019

EPA-HQ-2019-008132	Matthew Granahan	HELM Agro	HELM Agro is requesting a FOIA on Syngenta's Closed Handling System Container Design for Net Contents under 120 Gallons. As a requirement of registration on Paraquat Dichloride [Registration Review Docket: EPA-HQ-OPP-2011-0855] Human Health Mitigation Decision per Phase III Label Mitigation Measures, Paraquat Dichloride is required, in the future, to be found in a Closed Handling and Transfer System. The anticipated date of this change is 12 -month after the September 30, 2019 date. HELM is currently leading the Paraquat Closed Handling System Task Force with other Technical Paraquat registrants (except Syngenta) to design and create a Closed Handling System (CHS). The Paraquat Closed Handling System Task Force developed a Closed Handling System (CHS) that has been reviewed and approved by US EPA and we are to begin the tooling and engineering of the CHS prototype in the immediate future. It was just determined Syngenta has developed their own CHS system and that container has been reviewed and accepted by US EPA. The details on the Syngenta Closed Handling System (CHS) is imperative information needed for HELM to make a business case in proceeding with CHS design. HELM Agro appreciates the Agencyâ€™s attention to this matter and if there are any questions please do not hesitate to contact me via email at mgranahan@helmagro.com or via phone at 847-814-2525.	8/15/2019

EPA-HQ-2019-008172	Jackson Somers		I am requesting a compilation, by state, of environmental violation reports from 2000 to current, as one would submit here: https://echo.epa gov/report-environmental-violations (and by phone). Specifically, I do not want media uploads nor personal information, as I don't want to violate an individual's privacy. For each violation reported, a description (if it was provided) of the violation at hand, the "affected subjects" (should this category be filled), date of incident. Each violation should include the date of submission and state in which it was filed. I can see how providing individual violations might be difficult, so if they are not available/not allowed but an aggregate is -- for example: for each state and day, a count of violations pertaining to a certain description, such as "lead in water" -- that is fine. I will accept week of submission, too. If it is easy to include the city without violating privacy, that would be great, too: i.e. list of number of violations in each week (or day) in each city for each type of description of violation. Removal of "violator name", "violation location", "suspected violation zip code", and all reporter contact information should preserve privacy of reporters and those reported. If necessary, removal of the city is acceptable.	8/15/2019

EPA-R6-2019-008150	Mr. Victor M Campos	Espey & Associates, PC	To Whom it May Concern, I am an attorney defending a case involving multiple motor vehicle accidents. The case is pending in the Ector County, Texas 70th Judicial District Court. The cause number is A-16-08-0808-CV. I represent one of the Defendants. I am seeking records regarding a motor vehicle and/or semi-tractor incident which occurred on March 4, 2015. According to the Odessa Fire and Rescue Department, the EPA went out to the scene to assist and contain a fuel leak from a tractor that was involved in the accident. I am requesting records regarding or related to that incident. SPecifically, I am requesting any and all documents regarding any reports, investigations, and inspections of any fuel leaks in the Odessa, Texas and Midland Texas areas between March 2, 2015 and March 7, 2015. This request includes, but is not limited to, photographs, videos, scans, and or documentation of the tractor trailer and the scene of the fuel leak. Please also include any documents or materials which include the identity and contact information for the driver of the tractor trailer, the owner/lessor of the tractor trailer, and any and all firefighters, police officers, or other investigators that went out to the scene of the fuel leak as described above.	8/15/2019

EPA-R1-2019-008160	Hilary Bergen	History Associates	Hi Frank â€“ Thanks for chatting about the FOIA request yesterday. Just to summarize what I understand, youâ€™ve been looking at the voluntary cleanup of the Ciba-Geigy site in the 1990s and have generally found these types of documents: 1. Files from the phase 1 and phase 2 investigation of the facility 2. Final RCRA facility investigation reports on phases 1 and 2 3. Removal reports on the soils and sediments removed from the site 4. Clean up work plans (individual works plans on soil, groundwater, etc.) 5. Monitoring data on soil, sediment, and groundwater supporting the investigation and following the clean-up We are primarily interested in information about the operations of the site prior to the voluntary clean up so right now we are interesting in getting the 1) investigation files and 2) the final RCRA Facility Investigation reports. Hopefully this helps cut down the amount of work for both of us.	8/15/2019

Our hope is that providing a one-time snapshot of the database will allow you to support this project with the least possible effort. If a complete snapshot is not possible, we would like to request data for all drinking water sample parameters/analytes managed by EPA Region for Wyoming and included in Wyoming's Drinking Water Watch. For each data record, we would like to request all available relevant information, including: water system ID (PWSID), water system name, sample type, sample location and/or sample location ID, sample ID, collection date, sample result, unit of measure, method reporting limit (MRL) or method detection level (MDL), and MRL/MDL units. At minimum, we would like to request data for 2009 through the present. We will provide a SQL query to assist the retrieval of the requested data. Ideally we'd like to receive the data in csv files, but can also work with txt files, Access database files, or excel files. Please let me know if there's a concern with providing the data in these formats. We also understand the resulting data file may be very large. We have a company filemail account that can be used for secure transfer of large files. To use this, you just need to upload the file here: https://corona-environmental-consulting.filemail.com/ and hit send. Please let me know If you'd like to use or discuss a different file transfer option. I am available to discuss this data request by phone (303-317-3664) or by email (csamson@coronaenv.com). I appreciate your help with this effort. EPA-HQ-2019-008036	Richard A Cortis		On March 19, 2019 I met with Mr. Todd Garavanta from the U S. Environmental Protection Agency in regards to asbestos contamination at 1099 E Grand River Avenue Williamston Michigan 48895. After I met with Mr. Garavanta on site and showed him where this contamination was located he stated it would take a couple of weeks to get his testing crew out to bore holes. While talking with him about this site he made reference that he had pulled the MDEQ on this site from 2014 and he could pull this report without anyone knowing he pulled it. After making this statement he asked me to point to the spots where I dumped the asbestos. I immediately corrected him and stated I dumped nothing and when discovered by my worker I reported it immediately to the local government unit. After this statement I asked to see his MDEQ report (Incident #20143300017) to see how it was written now that I knew he pulled the report and had it in his possession so I could see what it said about me. He refused to share it with me stating he was not allowed to share that with me and he departed. I would like a complete copy of all records related to Wallace Storage Center 1099 E Grand River Ave Williamston MI 48895. I will pay all fees related to all copies of all reports. Please send me all documents on this file including the field report from Todd Garavanta, MDEQ report from Septmeber 2014 pulled by Mr. Garavanta and any other reports including that of FBI who forwarded this complaint to him.	8/12/2019

The use and usage data on malathion, chlorpyrifos, and diazinon and provided to NMFS, as described in the attached letter by the EPA: Finally, since NMFS issued the 2017 BiOp, our staffs, together with colleagues from FWS and USDA, have been working collaboratively and productively to develop approaches for better integration of pesticide use and usage data throughout all three steps of the consultation process. Significant efforts are underway to better refine these methodologies to incorporate the usage data, the importance of which is underscored by a number of public comments. The additional usage data that was compiled and submitted to the Services after the 2017 BiOp was completed will likely allow NMFS to further refine its conclusions regarding jeopardy and adverse modification for chlorpyrifos, diazinon, and malathion, and to better focus the RPAs and RPMs to more effectively protect listed species and their critical habitat(s). Attachment A (EPAâ€™s July 19, 2019 Reinitiation of Formal Section 7 Consultation Addressing the Registration Review of Pesticides Containing Chlorpyrifos, Diazinon, and Malathion Letter); and 2. EPA-HQ-2019-008030	Mr. Marco A Guzman	The Chlorine Institute	My name is Marco A. Guzman, Jr., Senior Project Engineer at The Chlorine Institute (CI), a non-profit trade association based in Arlington, Virginia founded in 1924. The Chlorine Institute exists to support the chlor-alkali industry in advancing safe, secure, environmentally compatible, and sustainable production, distribution, and use of its mission chemicals which include chlorine, sodium and potassium hydroxides, sodium hypochlorite, the distribution of vinyl chloride monomer (VCM), and the distribution and use of hydrogen chloride. CI and its members are committed to ensuring the safe and proper handling of the industry's products throughout the value chain, by developing and sharing technical information, training and best practices for the industry, its customers, emergency responders and the community. This is a request under the Freedom of Information Act for records of the Risk Management Plan (RMP) data from Jan. 1, 2018 - Jan 1, 2019. RMP data without worst-case scenarios, also referred to as Outside Consequence Analysis is used by our Institute to identify trending incidents in an effort to initiate outreach efforts to prevent their future occurrence. I am not making this request for a commercial purpose. Please send me the records as an electronic Excel spreadsheet, or if that is not possible, in the electronic format in which you keep the records. If the data needs to be mailed please send to: The Chlorine Institute Attn: Marco A. EPA-HQ-2019-008034	Mr. Christopher Peoples	Peoples Partners and Associates	We are conducting a study assessing potential U S. water systems at risk for zebra mussel infestation. To do this we are looking for xls or cvs data on all U.S. drinking water facilities. Based on my explorations, we are looking for the EPA 2015 - 2019 Needs Surveys. Also, in 2006 the CWS Survey had a table which indicated whether or not a drinking water treatment facility had mussel controls. Is this included in the 2015 - 2019 Needs Survey as well, or is there an additional data source which you can provide that also includes this indication for U.S.?	8/9/2019

EPA-HQ-2019-008006	Mr. Brian Rudzki		To Whom it May Concern; I am seeking a copy of the anonymous complaint prompting Special Agent Robert Kozeluh of U.S. Environmental Protection Agency Criminal Investigation Division 5 to initiate an investigation in the Safety-Kleen Co. a division of Clean Harbors on or about 27 June, 2019. Prior to his initial contact with me there was a previous 2 week field inspection by the EPA air group of the property. It is apparent that during or shortly after the field inspection, an individual other then an inspector contacted Agent Kozeluh implying that members of the company were conducting actions contrary to sound business practices as it relates to the companies environmental responsibilities. I must have been singled out in this complaint as Agent Kozeluh paid a personal visit to my residence on the afternoon of 27 June, 2019. Agent Kozeluh and myself had a phone conversation 0n 28 June to address his questions. I believe having an agent make a personal visit to an employees' residence is highly unusual and something had to peek his interest to search out my address and make and effort to drive out to my house. I believe what ever peeked his interest is contained in that complaint which I believe I have a right to a copy of it. I am requesting this information as an individual and not a representative of the company. Thank you in advance and you need additional details or information feel free to contact me. Sincerely Brian Rudzki	8/8/2019

EPA-HQ-2019-007889	Stephen Lee	Bloomberg Environment	Dear Freedom of Information Act Officer: This is a request under the Freedom of Information Act. I request records of all certifications of qualified trusts; certificates of divestiture; impartiality determinations; notices of disqualification; recusals; screening arrangements; waivers and all other ethics-related records filed by and/or given to Mr. Ken McQueen, Region 6 administrator. These documents would likely be prepared under 18 U.S.C Â§ 207; 18 U.S.C. Â§ 208; 5 C.F.R. Part 2634; 5 C.F.R. Part 2635; and 5 C.F.R. Part 2641, as well as be in the care of the Designated Agency Ethics Official. Please do not consider this individualâ€™s OGE Form 278 public financial disclosure reports as responsive records to this request. In order to help to determine my status to assess fees, you should know that I am a reporter with Bloomberg Environment, and this request is made as part of news gathering and not for a commercial use. I am willing to pay fees for this request up to a maximum of $25. If you estimate that the fees will exceed this limit, please inform me first. Please contact me if you have any questions. Thank you for your consideration of this request. Sincerely, Stephen Lee Bloomberg Environment	8/5/2019
EPA-R2-2019-007896	Mr. Jon Hanrahan		I am requesting documents related to an EPA investigation at 212 Freeman Street, Brooklyn, NY 11222. This investigation and "enforcement action" is described in the attached complaint, created by the New York Department of Environmental Conservation [NY DEC]. The NY DEC's investigation took place between May and August of 2007, and concerned a manufacturer called "Nuvite Chemical Compounds," or simply "Nuvite." As for my request, I would like to review the following: 1. Any emails written by EPA Region 2 employees and sent to John Fitzpatrick (NY DEC) regarding 213 Freeman St (or "Nuvite"). 2. Any emails written by EPA Region 2 employees and sent internally regarding 213 Freeman St (or "Nuvite"). 3. The original complaint â€” received either from NY DEC or an individual who was formerly employed by "Nuvite" â€” that triggered the EPA's investigation at 213 Freeman St. 4. Any final reports, narratives, or inter-agency referrals that resulted from the EPA's investigation at 213 Freeman St. I would prefer to receive these documents in PDF form. If that is not possible, I would then prefer CD-ROM. Please let me know if anything in my request is unclear! I'd be glad to sort anything out over the phone. Thanks so much for your searching!	8/5/2019

Â§ 552, and the Environmental Protection Agency (â€œEPAâ€)FOIA Regulations at 40 C.F.R. pt. 2, Democracy Forward Foundation makes the following request for records. Background On December 6, 2018, the United States Department of Agriculture (â€œUSDAâ€)announced the suspension of the Cost of Pollination report that tracked the cash fees associated with honey bee pollination based on information from crop producers about their use of honey bees to pollinate their crops. On July 1, 2019, USDA announced the suspension of data collection for the annual Honey Bee Colonies report, which collected data from the USDA, beekeepers, and other interested parties in order to allow them to compare quarterly losses, additions, and movements and to analyze the data on a state-by-state basis. Records Requested In an effort to better understand and explain to the public EPAâ€™s role in USDAâ€™s decisions to suspend data collection and reporting related to honey bees and other pollinators, Democracy Forward Foundation requests that EPA produce the following within twenty (20) working days: 1. All communications, including interagency communications, concerning USDAâ€™s Honey Bee Colonies Report. 2. All communications, including interagency communications, concerning USDAâ€™s Cost of Pollination survey. Please search the following EPA components: Office of the Administrator; Office of Chemical Safety and Pollution Prevention; Office of Congressional and Intergovernmental Relations; Office of Policy. The search period is September 1, 2018 to the date of search conducted. For responsive records, please search for records regardless of format, including paper records, electronic records, audiotapes, videotapes, photographs, data, and graphical materials.	7/30/2019

EPA-HQ-2019-007635	Kevin Bogardus	E&E News	I request all briefing materials prepared for career EPA officials and/or distributed to Senate Judiciary Committee senators and/or staff members related to the EPA briefing given to the Senate Judiciary Committee regarding the EPA final rule entitled "Freedom of Information Act Regulations Update," RIN 2015â€“AA02, held during the week of July 14, 2019. Please consider any emails, handwritten notes, letters, memorandums, PowerPoint presentations, Slack chats, slide decks, text messages, voice and video recordings as well as other documented forms of communication that record the briefing materials prepared for and/or distributed for this briefing as responsive records to my request. This briefing is described in the following EPA statement issued on July 24, 2019: â€œLast week, the Agency held a briefing for the Senate Judiciary Committee where staff were given the opportunity to ask any questions they had about the updated rule, these questions were answered by the top two career officials who run EPAâ€™s FOIA program. After many years of delay, EPAâ€™s FOIA regulations are now in line with the Congressionally mandated changes to the statute and EPA has no plans to withdraw the finalized rule. As we have said this rule will enhance transparency and efficiency of responses to FOIA requests. Allegations made that the rule is changing the political appointees role in FOIA are false.â€â€“ Michael Abboud, EPA spokesman Please click on this link for more detail on this final rule (https://www.eenews.net/assets/2019/06/26/document_gw_06.pdf).	7/26/2019

EPA-R10-2019-007585	Ms. shagun chaudhary		Dear Sir, My name is shagun, am PhD student from Deakin University from Australia. I am working on some stormwater quality model for which I need sample concentration from discrete (time-series data) sample. I recently got access to NURP data from their Data Appendix 3. but data is not helpful for me because They contain flow composite data sample. I have also tried for NSQD 4.0 for accessing the data but they also don't have. In one of their document they have mentioned that NURP project in Bellevue, Washnigton has collected discrete sample concentration for 6 storm water event and your cooporation has participated in NURP project. Reference: Nationwide Urban Runoff Program, Bellevue Urban Runoff Program, Washington: Summary Report.â€‹ If you have this report or data access to this report. please let me know I will extremely grateful if I can access data for any location in USA for discrete sample I will highly appreciate you if you can give any suggestion or help regarding this! Please let me know if you can help me in any way regarding this as it is very urgent. Warm regards shagunâ€‹	7/25/2019

The Envirofacts database online currently only provides all zip codes in an entire county if a PWS serves any portion of the county, rather than only the zip codes the PWS itself actually serves. For instance, if a county includes only the two zip codes 00001 and 00002, but some PWS only serves 00001, the database currently lists the PWS as serving both 00001 and 00002, whereas we want to know only which zip codes the PWS truly serves, which in this case would be 00001.	7/25/2019

EPA-HQ-2019-007461	Mr. Peter Jenkins Counsel	Public Employees for Environmental Responsibility	All documents and communications related to EPAâ€™s Enforcement programâ€™s adherence to the "Unitary Executive Theory" with respect to enforcement against alleged violations of Federal environmental laws by or at Federal facilities. Specifically, copies of documents generated after January 19, 2017, that address: 1) This statement is found on the Enforcement webpage: https://www.epa.gov/enforcement/overview-enforcement-process-federal-facilities#Enforcement%20Response: "Overview - For those statutes in which EPA has a full range of enforcement authorities, EPAâ€™s practice is to address violations at federal facilities in the same manner as private facilities. While EPA has broad administrative enforcement authority, it does not have civil judicial enforcement authority to address environmental violations by a federal facility. This limitation stems from the Department of Justiceâ€™s (DOJ) interpretation of the Unitary Executive Theory, which prohibits one federal agency from suing another agency in federal court. In contrast, the Unitary Executive Theory does not limit nor prohibit state and tribal regulators, as well as citizen groups from suing another agency in federal court." Provide all documents indicating both when and why that statement was placed on the webpage. 2) Also provide any other documents since January 19, 2017, that the Enforcement program or General Counsel has received, generated or circulated that mention the Unitary Executive Theory with respect to enforcement against alleged violations of Federal environmental laws by Federal facilities, including communications to or from any State enforcement agencies, including, but not limited to, a decision not to join or assist the New Mexico Environment Department in pursuing judicial enforcement against the Department of Defense under the NM Hazardous Waste Act and NMED's RCRA" primacy powers for PFAS contamination related to activities at the Cannon and Holloman Air Force Bases.	7/19/2019

EPA-R4-2019-007322	GLORIA TATUM		This is a FOIA request for an Environmental Justice Report in Hinds County, Jackson, MS. I am the Incorporator for North County Line Rd Homeowners Association (NCLHA). Additionally I am a former Mississippi Department of Environmental Quality Regulator. An application has been filed for a landfill in Madison County, MS. The NCLHA residents in closest proximity to the site location are located on the opposite side of the North County Line Rd, in Hinds County, MS. The community are proponents of the NCL Waste locating in their community. They have provided support letters and a signed Community Benefit Agreement is in place. Therefore before going to the Permit Board I am requesting a EJ Screen report from the EPA. I have developed a EJ Screen report but I would like to ensure the accuracy from EPA Region IV. Additionally, I am requesting the large scale maps with overlays to provide and show how the NCLHA community solicited input from the EPA and the State of Mississippi. A date for the MDEQ Permit Board Hearing, has not been set. Earlier I contacted EPA Region 4 and was told this practice no longer occur for communities. If this is the case would you please provide me the denial request in writing, for my records and to provide at the MDEQ Permit Board hearing?	7/15/2019

To determine if compounds that may be linked with historic operations of the Givaudan Roure Corporation, conducted at 125 Delawanna Avenue, Clifton, New Jersey on Block 73-3, Lots 2.01, 102, are present in the Passaic River. In addition, EMG has knowledge of a letter from the USEPA to Givaudan Corporation dated March 31, 2016, regarding potential responsibility for cleanup associated with the Diamond Alkali Site. We are requesting copies of the above-referenced letters and any subsequent associated documentation. EMG is performing a Phase I assessment of the property located at 261 River Road, which was subdivided from the Givaudan Roure property. Therefore, any such information pertaining specifically to the 261 River Road address is also requested. Thank you.	7/11/2019

Thank you - I appreciate the good work that you do.	7/10/2019
EPA-R5-2019-007225	Mr. Adam C. Turley	SLR International	Background Information: Sandoval Superfund Site: In 2010, U.S. EPA identified certain Company subsidiaries including InterAmerican Zinc, Inc. and Midwest Zinc Corporation as potentially responsible parties for the Site. U.S. EPA alleges that the Company subsidiaries are liable for having sent zinc-related waste materials to the Sandoval site for disposal. U.S. EPA and the Illinois EPA have undertaken various investigation and remedial actions at the Sandoval Site and certain offsite properties in the past; however, a decision on the final remedy for the Site has not yet been issued. Request: SLR International Corporation (SLR) is requesting that your department provide copies of file information pertaining to any Superfund documentation related to InterAmerican Zinc or Midwest Zinc that you may have for the Sandoval Superfund Site. According to records, it appears that the EPA is currently selecting the appropriate remedial action for the site. Has there been any updates or recent correspondence regarding further progress at the superfund? If so, could we see copies of this correspondence or any documentation related to the progress on the site. Please email me at Aturley@slrconsulting com or fax (281) 351-2879 or mail the information, including a reply of no information in files, if appropriate, to Adam Turley, 14011 Park Drive, Suite 100, Tomball, TX 77377, or call him at (281) 351-2856. Thank you in advance for your assistance in this matter.	7/10/2019

EPA-R3-2019-007232	Mr. Adam Turley	SLR International Corporation	Background Information: Jack's Creek/Sitkin Smelting Superfund Site, Maitland, PA: Based on EPA's 2016 Third Five-Year Review Report for Jacks Creek/Sitkin Smelting & Refining, Inc. Superfund Site, in 1994, EPA identified several dozen PRPs. In 1999, EPA issued a consent decree to the PRPs for Remedial Design and Remedial Action. Three phases of remedial action were taken in 2001, 2002 and 2003 which included removal of soils and source areas, reclaiming areas of the site, and capping a portion of the site. Since 2006, the site has been under a five-year review monitoring plan. Based past documents, it appears that Gulf Metals was identified as a PRP for this site in the mid-1990s. Based on EPA's webpage, it appears that an on-going cleanup/long term monitoring plan is in-place. The allocated percentages that Gulf is responsible for on-going monitoring is unknown. SLR International Corporation (SLR) is requesting that your department provide copies of file information pertaining to Gulf Metals Industries, Inc. and the Jack's Creek/Sitkin Smelting Superfund site. Could we see copies of the latest correspondence between the EPA and Gulf Metals Industries? Have there been any closure letters or No Further Action documentation on file? Do you have any files pertaining to on-going monitoring procedures at the site and any files pertaining to Gulf Metals Industries on-going monitoring responsibilities? Any information related to the site and Gulf Metals Industries would be greatly appreciated. Please email me at Aturley@slrconsulting com or please fax (281) 351-2879 or mail the information, including a reply of no information in files, if appropriate, to Adam Turley, 14011 Park Drive, Suite 100, Tomball, TX 77377, or call him at (281) 351-2856. EPA-R4-2019-007285	Carol Burton		I am requesting a copy of NPDES permits issued within the past 10 years for mining-related discharges within the Greater Okefenokee Swamp Basin Boundary. The attached map shows the outer boundary of the Greater Okefenokee Swamp Basin, and boundaries of smaller basins within the Greater Okefenokee Swamp Basin Boundary. To narrow this request, only the most recent NPDES permit for mining projects that involve multiple years/modifications of NPDES permits for the same mining project is requested. The documents described above are requested under the provisions of 5 USC 552, the Freedom of Information Act (FOIA). If fees are required to provide the requested information, I am willing to pay a reasonable fee to obtain this information, but the Act allows fee waivers to be granted when disclosure of the records is in the public interest and is likely to contribute to public understanding of the operations or activities of the government. I am making this request as an individual engaged in public education regarding the regulatory history of mining-related discharges within the Greater Okefenokee Swamp Basin Boundary. I am not a commercial organization. The disclosure of the requested records is in the public interest because it is: a) likely to contribute significantly to public understanding of the operations or activities of the government, and b) not primarily in any commercial interest. Therefore, I am requesting a waiver of fees associated with the requested document. Please provide the records via my e-mail. If the file size is too large, please provide the records on a CD, to my address. Hard copies of any remaining documents can be mailed to me. EPA-HQ-2019-007155	Mr. Colin Driehorst	DCCC	Pursuant to the Freedom of Information Act (â€œFOIAâ€), 5 U S.C. Â§552, et seq., I request access to and copies of all logs of congressional correspondence to or from any officials at EPA and Rep. Mike McCaul between January 3, 2005, and July 8, 2019. Please search for responsive records regardless of format, medium, or physical characteristics. Where possible, please produce records electronically, in PDF or TIF format, via email or CD, particularly if providing the information reduces the time or expense involved. If your office cannot honor this preference, I am willing to discuss the most cost-effective and efficient means of duplication. I agree to pay reasonable duplication fees for the processing of this request in an amount not to exceed $200. However, please notify me prior to your incurring any expenses in excess of that amount. If any records are withheld or redacted, I request that you state the specific legal and factual grounds for withholding any documents or portions of documents. Please identify each document that falls within the scope of this request but is withheld from release and provide an index of those documents as required under Vaughn v. Rosen, 484 F.2d 820 (D.C. Cir. 1973), cert. denied, 415 U.S. 977 (2972). Please describe each document claimed as exempt including the consequences of supplying the sought-after information. If it is your determination that some portions of requested records are exempt, please disclose any reasonably segregable non-exempt portions of the requested records.	7/8/2019

EPA-HQ-2019-007113	Johnsie Lang	EPA	Records regarding the requester. After researching Johnsie Lang FOIA case and consulting with Cynthia Darden and Vicki Simons. This is the conclusion from OCR: The request is really referencing at 4711 investigation which is not handled by OCR. When someone files a harassment complaint using 4711, the employeeâ€™s direct management chain is responsible for conducting a fact finding investigation and decision, not OCR. OCR doesnâ€™t maintain mediation documents, Johnsie Lang Counselorâ€™s Report was uploaded in the FOIA file.	7/8/2019
EPA-R8-2019-007114	Dr. Kit R Kosakowski		Request the Final Supplement to the Final Environmental Statement for the Municipal and Industrial (M&I) System for the Central Utah Project Bonneville Unit filed with the U.S. Environmental Protection Agency (EPA) on 16 Mar 1987 with the Appendix A of the Final Supplement which states that the Bureau of Reclamation (BOR) committed to re-analyzing the impacts to wetlands and potentially revising the Wetlands Mitigation Plan due to concerns voiced by the EPA. Request a copy of the Wetlands Mitigation Plan that was ultimately agreed to by the relevant agencies or documentation that all relevant agencies agreed to the Wetlands Mitigation Plan as set forth in the Final Supplement. Request a specific part of the copy of the Final Supplement, Fig A-1 found on page 110. Apparently, this map was a fold-out and it was left folded during the copying process. I have attached a pdf of the cover pages of the Final Supplement and of Appendix A.	7/8/2019

EPA-R2-2019-007000	Vernon Thornblad		IN ADDITION TO THE ABOVE, SEEKING THE FOLLOWING RELATED DATA: In 1979 or 1980, the Federal government conducted a survey and tested via the air and on land, the radiation levels related to the use of iron ore tailings from the piles left at Port Henry, Witherbee and Mineville, NY (now comprising the town of Moriah). The tailings were left by Republic Steel when they closed their mining operations there in the early 1970's. An earlier government study conducted in the early 1950's and already available online showed that some of the mines there contained Uranium and other radioactive materials. It also found radiation levels in the tailing piles. In the 1979-80 study, the results showed that the tailings which were being used in the county for paving roads, as a replacement for road salt in winter and to form the beach (sand) at Port Henry were 5-10 times the radiation levels the EPA considered safe at the time. There was also concern about the homes that had early in the century been constructed with bricks made from tailings. I am interested in the details of this study, correspondence between the agency or third party that conducted the study and any other agencies including the DEC of NY. Particularly interested in the EPA's assessment, and the decision to take no action.	7/2/2019

I am requesting information regarding the following two properties operated by BASF: BASF Pigments Division: 1057 Lower South Street, Peekskill, NY 10566 Pearl Plant: 16 - 18 White Street, Buchanan, New York 10511 Specifically, I would like records regarding the storage and/or release of hazardous substances and petroleum products, as well as environmental permits, plans, registrations, inspection reports, notices of violation, investigations (including CERCLA and RCRA assessment and investigation reports), and related correspondence.	7/2/2019
EPA-R2-2019-006999	Vernon Thornblad		In 1979-1980 The Federal government did a survey and investigation via air and on the ground in Essex County, NY, particularly in the Moriah NY for radiation levels on the streets that had been paved with iron ore tailings left behind in the large piles in Port Henry, Witherbee and Mineville, NY. They also measured radiation on the roads where traditional asphalt paving was used but which were covered in the winter with tailings, a practice still used today instead of spreading road salt. A third area of concern was the beach in Port Henry, which had been created by flatenning and spreading a tailing pile. The radiation was measured at 5-10 times the level the EPA considered safe at the time. The NY Department of Environmental Conservation got involved. Lastly, there was concern about the homes constructed of bricks that were made using the tailing material, but the radiation in and outside the homes was not measured.No action has ever been taken. I am interested in receiving the report, and any communication between the EPA, the NY DEC, any third party that may have been involved with the study and any other communication regarding the study and the subsequent decision to take no action.	7/2/2019

EPA-R6-2019-006912	Mr. Stanley Millan	JonesWalker	See pdf below: 2019 data, documents from Weston and/or EPA on radiation cleanup at Lowerline and Olive Street in New Orleans. No cbi is requested. I am referring to a recent, ongoing cleanup and removal of radium 226 at lowerline street in New Orleans. This is current local news, on the internet and TV. It should be in your Superfund records. Apparently the city and/or LDEQ asked for epa assistance under cercla in the cleanup around January 2019. Apparently epa hired Weston to monitor that neighborhood and test, cleanup, contain, and transport the waste to texas. The work took place in May-June 2019. I am looking for 2019 correspondence between epa and LDEQ and/or the city of New Orleans regarding the cleanup. I am looking for the work or task order epa issued to Weston for that 2019 work. I am looking for data from Westonâ€™s 2019 lab test reports for the site, its 2019 site reports to epa including photos, and a record of its 2019 Geiger counter readings for that site. Plus any 2019 reports made by your on-scene coordinator. Attached is a notice from New Orleans for the work. Date range of records requested is May-June 2019, except Weston task order by EPA may predate that. That contract document is the only thing between Jan 2019-May 2019 I want. I agree to a total $300.00 total fee commitment.	6/27/2019

EPA-HQ-2019-006896	Sara Reardon	Nature	Hello, Pursuant to the federal Freedom of Information Act, 5 U.S.C. Â§ 552, I request a list of all FOIA requests submitted to the agency between FY 2016 and date of processing. I'd like the name of the requester, the date, a summary of the topic, and whether the request was approved. I would like to receive the information in searchable electronic format. I agree to pay reasonable duplication fees for the processing of this request in an amount not to exceed $25. However, please notify me prior to your incurring any expenses in excess of that amount. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request. I look forward to your reply within 20 business days, as the statute requires. Thank you! Sara	6/27/2019

Please include all records that document Stepp's schedule, including but not limited to agenda sheets, appointments, day calendars, itineraries, Google calendars, Outlook calendars, programs and timetables. If possible, I would prefer to receive the largest number of records or documents in electronic form. Please produce the documents on a rolling basis. FOIA requires that if part of a record is exempt from disclosure, you must redact and release all segregated parts. Please describe the deleted material in detail and specify the reasons for believing that the alleged statutory justification applies in this instance. If my request is denied in whole or in part, please specify which exemption(s) is (are) claimed for each passage or whole document denied. In addition, please give the number of pages in each document and the total number of pages pertaining to this request and the dates of the documents withheld. Such statements will be helpful in deciding whether to appeal an adverse determination. As required by FOIA, I look forward to hearing from your office within 20 days in response to this request. If you have any questions about the nature or scope of this request, please call me at 202-446-0438 or email me at chiar@eenews.net. Thank you for your consideration of this request.	6/18/2019

EPA-HQ-2019-006560	Ms. Lisa Rector	NESCAUM	Per 40 CFR60.534(g) (g) The manufacturer of an affected wood heater model line must notify the Administrator of the date that certification testing is scheduled to begin by email to WoodHeaterReports@epa.gov. This notice must be received by the EPA at least 30 days before the start of testing. The notification of testing must include the manufacturer's name and physical and email addresses, the approved test laboratory's name and physical and email addresses, the third-party certifier name, the model name and number (or, if unavailable, some other way to distinguish between models), and the dates of testing. The laboratory may substitute certification testing of another affected wood heater on the original date in order to ensure regular laboratory testing operations. We are requesting the copies for all units that have submitted 30-day notice of a manufacturers intent to conduct certification testing for the period covering May 1, 2018 through June 14, 2019. We respectfully request all data pertaining to those notification to include all required information including but not limited to the manufacturer names, models, date of test request, test lab and 3rd party certifier. This is a similar request to the one filed in April of 2018. This is information that should be available to agencies interested and with delegated authority to witness testing. Two of NESCAUM members have this authority but do not have access to data that would allow them to witness testing.	6/14/2019

EPA-HQ-2019-006425	Kathryn G. Wellman	Moore & Van Allen PLLC	Moore & Van Allen PLLC represents EarthKind, LLC (â€œEarthKindâ€) in its civil action against The Lebermuth Company Inc. (â€œLebermuthâ€) and Robert M. Brown in the United States District Court for the Western District of North Carolina, Statesville Division, Civil Action No. 5:19-cv-51. That action asserts claims arising out of Lebermuthâ€™s failure to adhere to Confidential Statements of Formula (â€œCSFsâ€) submitted to the U.S. Environmental Protection Agency (â€œEPAâ€) in 2006 in supplying ingredients for EarthKindâ€™s natural pest repellants. Pursuant to the Freedom of Information Act, 5 U.S.C. Â§ 552, we request access to and copies of all files, documents, and other materials related to any investigations by the EPA into, or actions taken by the EPA against, Lebermuth for its noncompliance with the CSFs. For reference, on July 24, 2017, EarthKind submitted a FIFRA/12A1C Compliance Report for Facility to the EPA which disclosed that Lebermuth (EPA Establishment Number 83238-IN-001) had not been following the EPA-approved CSFs for Canadian Wilderness Oil (Registration Number 082016-AAA) for EarthKindâ€™s pesticide â€œFresh Cabâ€ (Registration Number 82016-1). This request includes copies of all forms, letters, and other documents in possession of the EPA in connection with Lebermuthâ€™s noncompliance, including any materials prepared by the EPA in anticipation of regulatory action against Lebermuth or as part of the EPAâ€™s investigation into Lebermuthâ€™s noncompliance.	6/11/2019

EPA-HQ-2019-006437	Marjorie Snook	NewFields	In the mid to late 1980s, EPA engaged in a cooperative project with the paper industry (represented by trade association NCASI) to characterize the dioxin content of paper mill sludges and effluent. This work resulted in the the '104 Mill Study' report as well as a separate 'Statistical Findings and Analyses" report. The final report is attached to this request for reference. Specifically, we are seeking the analytical data for ALL of the TCDD/TCDF congeners. The summary report attached only includes 2,3,7,8-TCDD and 2,3,7,8-TCDF, and not all of the other congeners. However, a report discussing the inventory of EPA dioxin data released in 2006 (page attached) states that in an initial phase of the 104 Mill Study, samples from eight kraft mills and one sulfite mill were analyzed for ALL 2,3,7,8-substituted CDD/CDFs. We are requested that data, as well as any other raw data from the 104 Mill Study. I am requesting the raw analytical data for this study, as it was submitted to the EPA by NCASI in the late 1980s.	6/11/2019
EPA-HQ-2019-006381	Christine Szpond	Matrix New World	Matrix is preparing a Phase I Environmental Site Assessment for the properties located along the proposed LaGuardia airtrain alignment in Queens, New York. Matrix is requesting any information/files including but not limited to: underground storage tanks, above ground storage tanks, tanks and building permits, health and environmental violations, discharges/releases of petroleum and hazardous materials, spills, hazardous materials, health and environmental inspections and/or investigations, historic property ownership, existing and former tenants, fires, potable wells, monitoring wells, and septic systems. The proposed alignment spans from LaGuardia Airport, follows the Grand Central Parkway, crosses under Northern Boulevard, and turns near Roosevelt Avenue toward the current Mets- Willets Point Subway Station and LIRR Station. EPA-R2-2019-006232	Ms. Allyson Kritzer	Langan	Langan Engineering, Environmental, Surveying, Landscape Architecture and Geology, D.P.C. (Langan) is currently conducting a Phase I Environmental Assessment of the site located at 537 Columbia Street (Block 591, Lot 1) in Brooklyn NY. As part of the assessment, we are requesting a general records search for the above-referenced property. Please consider this a formal Freedom of Information Law (FOIL) request for records regarding buildings, construction, chemical spills, underground storage tanks (USTs), monitoring wells, ground water sampling, asbestos abatement, radon, hazardous materials, and any other documents that your department may have regarding the above-referenced property. This site at 537 Columbia Street is bound to the north by Creamer Street followed by 3 one- to two-story industrial buildings and two plots of vacant land, to the east by Hicks Street followed by a portion of Red Hook Park, to the south by Bay Street followed by a portion of Red Hook Park, and to the west by Columbia Street followed by a one-story industrial building and a construction storage yard. According to the information we have available at this time, the majority of the site is occupied by several interconnected 1-to-3-story commercial/light industrial buildings. The remaining portions of the site are generally asphalt-paved, concrete-paved, and unpaved driveway and storage yard areas used to store miscellaneous vehicles, equipment, and supplies. Three out-of-service No. 2 Fuel Oil tanks under NYSDEC Site No. 2-613015 are reported on the subject property, as well as an open No. 2 Fuel Oil spill under NYSEC Spill No. 1811342. Based on records maintained online by the City Planning Commission, the subject property is zoned for manufacturing use (M1-1). According NYC Department of Finance, the site is currently owned by Grinnel Realty Holdings LLC and leased to RH 537 LLC.	6/4/2019

EPA-R6-2019-006231	Ms. Chieu Mai	Terracon Consultants, Inc.	Terracon is conducting an environmental site assessment (ESA) on the Groco Specialty Coatings facility located at 10770 and 10818 C F Hawn Freeway in Dallas, Texas. I would like to request the RCRA (TXD053134086) and SEMSARCH (TXD053134086) files for this facility. If you have any questions or require additional information, please do not hesitate to contact me and reference Terracon project number 94197736. According to a regulatory database search, the facility in question, Groco Specialty Coatings, is listed on the EPAâ€™s RCRA Generators database, as well as the SEMSARCH database. The database information does not provide enough information about the operations at this facility, and the online record search provides essentially the same information as the database. I was hoping to review the paper files to obtain more information on how this facility manages their wastes and if there have been compliance issues in the past. The ID number provided by the database provider for this facility appears to the be the same for both the RCRA and SEMSARCH databases. The date range would be from the early 1970s through the present, which is the amount of time which this facility has operated. I am requesting the publicly available information only, excluding CBI. I do not need a denial log.	6/4/2019

EPA-R6-2019-006254	Ms. Catherine Ngai		I am a journalist for Bloomberg News. I hereby request the following records pursuant to the Freedom of Information Act, 5 U.S.C. Â§552 et seq.: all records pertaining to environmental concerns related to dredging in and around Corpus Christi as well as Corpus Christi Bay in Texas. The disclosure of the information requested is in the public interest because it is likely to contribute significantly to the understanding of government operations. Specifically, oil infrastructure is of current interest to the public because the boom in U.S. oil production and gas has created a network of pipelines and terminals to move that hydrocarbon to international markets. As construction of new terminals and dredging begins in the nation's key waterway, it is important for the public to understand whether this activity poses any risks for the environment. Please inform me if such a waiver of fees is not applicable. I further request expedited processing of this request. I am a member of the news media and there is an urgent public need for information that sheds light on the growth of exporting oil, which has already hit record levels thanks to the unprecedented surge in shale. I certify that my statements concerning the need for expedited processing are true and correct to the best of my knowledge and belief. Please advise within 10 calendar days whether the agency has granted my request for expedited processing.	6/4/2019

EPA-R4-2019-006056	Brenden Lewis	Ramboll	Our firm is conducting an environmental assessment of the facilities located at 1514 Bushy Park Road, within the Charleston International Manufacturing Center at Bushy Park (CIMC), Berkeley County PIN: 246-00-00-0046. Our investigation thus far has revealed up to 125 SWMUs and 7 AOCs within the CIMC complex. We would like to obtain any documentation regarding these entities, including details on closure and NFR notices if applicable. This request is not for a commercial purpose. If possible, I would like any relevant records sent via email. Please let me know if any copying fees or additional information is required to process this request. Your time and assistance is greatly appreciated.	5/29/2019

EPA-R6-2019-006048	Angela Hunt	AEI Consultants	I am looking for the most recent groundwater monitoring reports, site assessment reports, and agency evaluations for the Signetics Corporation site at 9201 Pan American Freeway NE. Site ID: 0600797; EPA ID: NMD000709782. I would like to determine if the release at the site has affected surrounding properties. As clarification to my request, I am looking for records pertaining to: Signetics Corporation 9201 Pan American Freeway Northeast, Albuquerque, New Mexico 87113 The date range I am looking for is between 2005 and 2008. That is when a reported closure was given to the facility by the EPA. I believe the closure was granted in 2006 or 2007. The EPA ID is NMD000709782. The information I obtained is from an EDR database and indicates that there was groundwater contamination at the site but that the current human exposures are under control and that the corrective action process has been terminated. I am specifically interested in seeing the most recent groundwater and (if available) soil vapor monitoring that took place at the site (ideally with maps) so I can determine if the adjacent property to the west of the site was impacted by groundwater contamination and or vapor migration. Am only looking for publicly available information and no CBI. In addition, as recommended, I would like to increase the fee commitment to $55.	5/29/2019

EPA-R10-2019-005909	Ms. Kim Pierson	The National Stormwater Center	Original Description (2/20/19): Per discussion with Region 3, HQ OECA-OC-ETDD-IUTC has agreed to respond to this FOIA since the information requested, while embedded in the publicly accessible databases, cannot be pulled by the public. I am requesting info about federal facilities in Washington DC, Idaho, New Mexico, NH & MA with both individual NPDES permit coverage & general permit coverage (MS4, Industrial & Construction stormwater) Specifically, the info we are requesting is the name & telephone number & email of the signatory or â€œresponsible party". Each permit number to also include the mailing address. Data in an excel or CSV file. Modified Description (4/9/19): Ms. Pierson, I am writing to follow up on our call this afternoon to discuss your above-referenced FOIA request re: NPDES industrial stormwater permits held by federal facilities in DC, Idaho, New Mexico, NH & MA. As we discussed on our call, the specific records you are seeking are those which provide the following info about the federal facility permits in question: permit number, facility name, signatory, signatory's title, signatory's contact information (mailing address, email address). If EPA maintains a document (e.g., Excel file) that compiles this info for NPDES industrial stormwater permits (specifically for federal facilities, or which can be filtered for federal facilities), you are requesting that record. If EPA does not have such a record specifically compiling this data, the alternative records you seek to gather this data are notices of intent and/or the permits themselves. On our call, you also agreed to extend the due date for this request to April 30, 2019. Thank you for your understanding. If my takeaways from our call, as described above, are inaccurate, please let me know. Otherwise, we will continue processing your request as clarified above. Thank you, Ava Azad Region 10 - Only needs to respond with regards to Idaho.	5/21/2019

EPA-R6-2019-005908	Ms. Kim Pierson	The National Stormwater Center	Original Description (2/20/19): Per discussion with Region 3, HQ OECA-OC-ETDD-IUTC has agreed to respond to this FOIA since the information requested, while embedded in the publicly accessible databases, cannot be pulled by the public. I am requesting info about federal facilities in Washington DC, Idaho, New Mexico, NH & MA with both individual NPDES permit coverage & general permit coverage (MS4, Industrial & Construction stormwater) Specifically, the info we are requesting is the name & telephone number & email of the signatory or â€œresponsible party". Each permit number to also include the mailing address. Data in an excel or CSV file. Modified Description (4/9/19): Ms. Pierson, I am writing to follow up on our call this afternoon to discuss your above-referenced FOIA request re: NPDES industrial stormwater permits held by federal facilities in DC, Idaho, New Mexico, NH & MA. As we discussed on our call, the specific records you are seeking are those which provide the following info about the federal facility permits in question: permit number, facility name, signatory, signatory's title, signatory's contact information (mailing address, email address). If EPA maintains a document (e.g., Excel file) that compiles this info for NPDES industrial stormwater permits (specifically for federal facilities, or which can be filtered for federal facilities), you are requesting that record. If EPA does not have such a record specifically compiling this data, the alternative records you seek to gather this data are notices of intent and/or the permits themselves. On our call, you also agreed to extend the due date for this request to April 30, 2019. Thank you for your understanding. If my takeaways from our call, as described above, are inaccurate, please let me know. Otherwise, we will continue processing your request as clarified above. Thank you, Ava Azad Region 6 - Only needs to respond with regards to New Mexico.	5/21/2019

EPA-R9-2019-005920	David L McGrath	Manatt, Phelps & Phillips, LLP	Quemetco, Inc. (â€œQuemetcoâ€) operates a secondary lead smelting facility located at 720 South 7th Avenue, City of Industry, California, 91746. On November 13, 1992, RSR Corporationâ€™s Gerald Dumas submitted a request on Quemetcoâ€™s behalf to then-EPA Region IX Administrator Daniel W. McGovern for a two-year variance from the secondary containment requirements for Quemetcoâ€™s containment building pursuant to 40 CFR section 264.1101(b)(4) (see first attached letter). On August 2, 1993, then-EPA Region IX Hazardous Waste Management Division Director Jeffrey Zelikson sent a letter to Gerald Dumas granting the two-year variance (see second attachment). In its letter, EPA required Quemetco/RSR to maintain information on file regarding (1) the removal of liquids from the secondary containment system and (2) a plan describing procedures to address releases into the secondary containment system. We are requesting the following records: (1) any and all documentation (including correspondence and other submittals to or from EPA) pertaining to Quemetcoâ€™s variance from the secondary containment requirements; (2) any and all documentation (including correspondence and other submittals to or from EPA) pertaining to the Quemetco containment buildingâ€™s leak detection system; and (3) any and all documentation (including correspondence and other submittals to or from EPA) pertaining to the operation of the Quemetco containment buildingâ€™s secondary containment system. EPA-R4-2019-005847	Mrs. Andelyn D Nesbitt-Rodriguez	City of Columbia Community Development	Good afternoon, We are working on a project located on Wiley Street in Columbia, South Carolina. We need to track down the Brownfield information for a project that was assessed at 1917 Wiley Street, in order to make certain that we can build residential on this site. HUD states that: According to NEPAssist this project was assessed in March 2018 as part of Brownfield Assessment Cooperative Agreement with the City of Columbia and EPA. It is likely that an assessment was completed and found no contamination present. HUD is requiring that we supply information to prove that we can do this residential project. I believe it would either be found in the Brownfield agreement or the actual results of the assessment. We tried a FOIA request with DHEC (South Carolinaâ€™s Department of Health and Environmental Control) and DHEC responded with the following: This is to advise you that the Freedom of Information Office could not locate any files on the referenced subject, company individual, and /or address as submitted. If you feel that the information you requested may be found under another name or description, please submit the additional information by fax (803) 898 â€“ 3816 or by e-mail to foi@dhec.sc gov referencing the above Request Number. If you have any questions or require further assistance, please contact our office at (803) 898 - 3882. This request is now closed. Can you possibly help us get this resolved so that we can move forward? Any assistance/insight/direction would be appreciated. Thank you, Andelyn	5/20/2019
