EPA-HQ-2019-005686	Billy J Watkins			My sister Jacklyn Susan Marie Opp worked for the Obama administration in Washington D.C. as an Intern at the E.P.A. for 6 months during the Summer of 2016 and she delivered illegal recordings of me through her work from the time I was a small child for decades afterwards. The footage will show many forms of abuse and attempts to murder me. I do not know the exact mechanism she used to transfer the data, whether they were physical recordings or digital but looking into things transferred from the E.P.A. to others in the E.P.A. & other departments (including the D.O.E.) may reveal the material . She is only 3 years older than me and so it was not her prerogative at a young age to film - but she participated in the recordings and at the behest of others abused me while we were both filmed in childhood and into adulthood. While many were involved my grandparents are in particular connected - my father's mother Louise Watkins and my mother's mother Linda Dale Harris are good places to look. My mother was also heavily involved but I do not know if she would be cooperative. There were many involved - and it involved a religious element as I was born on May 13 1982 - and exactly 1 year before that to the day Pope John Paul II was shot 4 times and nearly assassinated - as bizarre as it may sound the actions taken against me may have been a revenge for that act due to the timing of my birth. As one example out of many I could give - I was brought as a young teen to a dangerous river with sharp rocks at the bottom and asked to jump into it from a cliff- while I did jump in I didn't jump from the cliff and as a result I lived (barely). This event tho I never told a single soul about it was joked about to me a decade later by people with no connection to me or awareness of it. "For cameras" - a show about my death - when the Pope died in 2005 they had me switch jobs - well there's too much to say with so little room. I hope you'll take this seriously and look.	5/13/2019

EPA-R2-2019-005679	Mr. Robert Spiegel		The FOIA request is for all documents related to the Ringwood Mines Superfund Site, Ringwood New Jersey. The requester requires all documents the USEPA has in files regarding correspondents between the USEPA and the USEPA National Remedy Review Board. This includes all written and electronic documents, e-mails and exchanges of any form. The date range for the request is January 1, 1995 and May 10, 2019 any documents, testimony, phone logs, reports or deliverables regarding the Ringwood Mines Superfund Site. The specific agencies involved are the USEPA Region 2, Headquarters Washington, DC and National Remedy review board. The requestor wants the entire administrative record as it pertains to materials presented to or in the possession of the USEPA National Remedy Review Board and it members during the requested years. Documents, e-mails and other deliverable related the Ringwood Mines Superfund Site. Since this site was the first and only Superfund Site listed, delisted and relisted again the documents for this request cover both submissions by the USEPA and NRRB including those of Region 2, Washington D.C. Headquarters and the of the Washington NRRB. The requester wants the entire and complete administrative record related to the NRRB and the USEPA proposed plans for the site wide cleanup. This includes all remedial and removal work on the site, Peters Mine, Oâ€™Connor Disposal Area, Cannon Mines and Ringwood Municipal Landfill. All power point deliverables as well as significant public comments within these records and this request covers the release of the entire NRRB files for both times the site was listed on the NPL. This also includes digital photos, sampling results and stakeholder packages submitted by the USEPA on behalf of the public and other parties and is not subject to any restrictions as there is no deliberative process or other reason to withhold any part of the FOIA request.	5/10/2019
EPA-HQ-2019-005654	Mr. Santanu Kundu	University of Mannheim	Dear Sir/Madam, I am an academic researcher at the University of Mannheim, Germany. For my research purpose, I am interested in archived frozen data snapshots from Enforcement and Compliance History Online (ECHO) system at the end of each fiscal year 2000 - 2018 (or whenever is available to the agency). I require the frozen yearly snapshots as the weekly snapshot that is available misses important time series variation in the facility level data that is crucial for research outcome. It will be really helpful if you can kindly provide me the data. As an academic researcher, I declare that I will not use this data for any commercial purpose. Additionally, I am committed to disseminate the final data and the result of my research findings to the general public. I can also provide EPA a consolidated ECHO data file out of my research exercise which the agency can use in any way they seem appropriate. Regards, Santanu	5/10/2019

EPA-R8-2019-005677	Mr. Paul M Seby	Defend Colorado	Please provide all Documents related to Coloradoâ€™s 2018 monitoring data subject to certification under 40 CFR 58, and Appendix A to the same. This includes all data collected by Federal Reference Method, Federal Equivalent Method, and Approved Regional Method monitors at any State and Local Air Monitoring Stations or Special Purpose Monitor stations that meet the criteria in Appendix A, from January 1, 2018 through December 31, 2018. This includes any ambient concentration data and the quality assurance data submitted to the Air Quality System (AQS) by Primary Quality Assurance Organization 0240, Colorado Department of Public Health and Environment, Colorado Air Pollution Control Division, or the Colorado Air Quality Control Commission (the Subject Matter). The data sought is exclusively ozone related. For the purposes of this FOIA request: Documents means: (1) any certification letter submitted by Colorado for the 2018 data year; (2) any attachments to that certification letter; and (3) a download of associated information submitted by Colorado to the AQS database for the annual certification between January 1, 2018 - December 31, 2018 that is related to the Subject Matter of this Request. An example of Coloradoâ€™s 2017 data certification letter is uploaded with this request to provide context.	5/10/2019

EPA-HQ-2019-005593	Steve VanderGriend	ICM Inc.	Rafal Sobotowski and Aron Butler, both from EPA's OTAQ, National Vehicle and Fuel Emissions Laboratory located in Ann Arbor MI have presented data in 2018 and 2019 from a specific vehicle study conducted by EPA. Testing was conducted using six GDI vehicles testing 6 E10 fuels. Testing included both FTP and US06 drive cycle data and some testing done at lower temperature. The Urban Air Initiative (UAI) is requesting all vehicle emission and fuel data from this testing. Testing data was likely generated in 2017 since modeling data was first noted by UAI in March of 2018. Attaching a presentation given in March of 2019 which presents just a small fraction of total emission data typically generated. UAI is also requesting speciation data which is noted in this presentation as also being collected.	5/8/2019

EPA-HQ-2019-005508	Abigail Smith	Washington Examiner	Re: Freedom of Information Act Request Dear Freedom of Information Act Officer: This is a request under the Freedom of Information Act. I request a copy of documents containing information on the calendar or calendar entries of EPA Administrator Andrew Wheeler from April 1, 2019, to April 30, 2019. These documents could include, but not be limited to, itineraries, scheduling documents, or correspondences detailing meetings in person, over the telephone, or onlineâ€”including a list of each meetingâ€™s attendees and any correspondences on what was discussed. For calendar entries included in Outlook or similar programs, please produce the records in â€œmemoâ€ format to include all invitees, notes, and attachments. In order to help to determine my status to assess fees, you should know that I am a reporter with Bloomberg Environment, and this request is made as part of news gathering and not for a commercial use. I am willing to pay fees for this request up to a maximum of $25. If you estimate that the fees will exceed this limit, please inform me first. Please contact me if you have any questions. Thank you for your consideration of this request. Sincerely, Abby Smith Bloomberg Environment 1801 S. Bell St., Arlington, VA 22202 703-341-3778	5/3/2019
EPA-2019-005516	Mr. Alexander Guillen	POLITICO	I request all photographs of Administrator Andrew Wheeler, or any related materials from events which he attended, that were created by Eric Vance or any temporarily assigned employee or contractor on or between April 1 and April 30, 2019. This request includes meetings, public appearances, press conferences, photo sessions or any other activity, whether public or private, Wheeler participated in during the course of official EPA business. This includes materials not previously made public by EPA. Please organize the material by date, and include each eventâ€™s location, subject and any other relevant information. I am open to discussing the best way to receive the requested documents since the file sizes likely will be large.	5/3/2019

EPA-R5-2019-005380	Amy Trautman		Flint Ink Corporation/Flint Inc Corp, located at 17851 Englewood Drive in Middleburg Heights, is included in the SEMS-ARCHIVE, RCRA CORRACTS, and OH UNREG LTANKS databases. The listings specify that the SEMS case was not placed on the National Priority List and was deferred to RCRA. The RCRA cases status indicates that the site underwent a RCRA Facility Assessment and it was determined that a RCRA Facility Investigation was not necessary. The OH UNREG LTANKS listing (incident # 18937600) indicates that a release was confirmed at the site. No further information on the release was given in the records that I have. Does the R5 office have any further information on the incident(s)? I contacted Ohio EPA and they said there are formal closure events for the site in early 1980s and the regulatory authority was US EPA and not Ohio EPA. The closure plan was approved but thereâ€™s no indicator showing if the closure was completed. Ohio EPA referred me to R5 for more information.	4/30/2019

EPA-R4-2019-005352	Robert Ukeiley	Center for Biological Diversity	The version of Rule 15A NCAC 2Q.0525 which was submitted to EPA on July 29, 1998. This should be in the docket NC-T5-2001. It is referenced in 66 Fed. Reg. 31,575, 31,577 3rd column (June 12, 2001) which says: North Carolina made several additional program changes after EPA granted interim approval on November 15, 1995. The operating permit application processing schedule in Rule 15A NCAC 2Q.0507(f) was deleted and replaced with a new application processing schedule in Rule 15A NCAC 2Q.0525. The new schedule established time frames for the State to complete various aspects of permit issuance, including acknowledging receipt of the application, the completeness check, the technical review, mailing the public notice, and holding a public hearing if one is requested. Rule 15A NCAC 2Q.0525 was initially submitted to EPA on March 23, 1995 and then the State amended it to ensure that final action on permit applications would be taken within 18 months of being deemed complete, as stipulated in 40 CFR 70.7(a)(2). The amended rule was submitted to EPA on July 29, 1998.	4/29/2019

			To Whom It May Concern: Pursuant to the Freedom of Information Act, I hereby request the following records: During the past few elections, numerous states have had issues with humidity causing ballot scanners/tabulators to stop working (https://qz.com/1449303/midterms-2018-how-humidity-affects-voting-machines/). Scientists have indicated that with climate change, humidity will increase (https://e360.yale.edu/digest/global-warming-could-cause-dangerous-increases-in-humidity). Thus, I am requesting all materials on or related to the impact of climate change on elections and ballot processing due to humidity. Materials include, but are not limited to, the following: â€¢Emails from November 2018 to the present containing the keywords "ballot scanner," "ballot tabulator," "ballot," "humidity," "elections," and/or "climate change" â€¢Studies and/or reports on the impact of climate change on elections â€¢Any policy directives, guidance documents, memorandum, training materials, or similar records The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires. Sincerely,

Communication includes, but is not limited to, emails, memos, letters and text messages. For emails, at a minimum, EPA must do a search for the following terms: "science advisory board", "SAB", "board", "advisory", "MATS", "mercury", "hydrochloric acid," "ethylene oxide", "IRIS", "biogenic", "BAF", "chloroprene", "particulate matter," "PM2.5", "PM", "PM10" and "smog." I am only requesting publicly available information. Please exclude confidential business information. Grist Qualifies as a Representative of the News Media Founded in 1999, Grist is an independent, non-profit publication that pursues in-depth stories on under-covered topics like clean energy, sustainable food, livable cities, environmental justice, and a better economy. We elevate solutions, expose inequity, and give our readers the context, knowledge, and tools to make a difference. If this request is denied in full or in part, please cite the exemptions pursuant to 5 U.S.C. Â§ 552(b) that justify the denial. If an exemption applies, however, please consider exercising the agency's discretionary release powers to disclose the records. Additionally, please release all reasonably segregable portions of the records as they are collected. If you have any questions about handling this request, please donâ€™t hesitate to call me at the following number 917-593-6683 or email me at nsadasivam@grist.org	4/24/2019

EPA-R2-2019-005193	Natoya Duncan		Re: Gowanus Framework/Gowanus Neighborhood Planning Study Dear Sir or Madam: After reviewing the Department of City Planningâ€™s website re: Gowanus Framework/Gowanus Neighborhood Planning Study, I learned about various neighborhood studies that were conducted regarding this project; however, none of the studies were available online. Pursuant to the Federal Freedom of Information Act (5 U.S.C 552 et seq.) dealing with the examination and duplication of documents maintained by public agencies, I would like to request a copy of all the studies, plans and reports related to the Gowanus Framework/Gowanus Neighborhood Planning Study. The Subject Project is Brooklyn, New York. I was advised by DEC that EPA is the leading agency for this project and would be the best agency to gather this information. Please contact me at 212-421-2150 with any questions or send your response to my attention at nduncan@sprlaw.com. Thank you in advance for your cooperation. Sincerely, Natoya Duncan	4/22/2019

EPA-HQ-2019-005173	Mr. Mark Walker	The New York Times	This is a request for all correspondence between the OECA and Amazon.com Inc, Amazon Services LLC or Golden State FC LLC, from Jan. 1, 2018 to the present, except for correspondence regarding FIFRA and the FIFRA settlement.	4/22/2019
EPA-HQ-2019-005172	Taylor Scott		"liberals", "kushner", "Giuliani", "Mastroianni", "Elliott Broidy", "Mark Siffin", "EB-5", "George Nader", "Erik Prince", "alias", "FOIA", "Israel" or "whistleblower". You may exclude emails that may be classified as newsletters, junk, or spam. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires. Sincerely, Taylor Amarel Scott Update 7/11/19: If its acceptable, you can limit the search to the following search terms: "liberals", "kushner", "Giuliani", "Mastroianni", "Elliott Broidy", "Mark Siffin", "EB-5", "George Nader", "Erik Prince", or "whistleblower". You may also limit it to only emails that were sent by Susan Bodine. Update 8/7/19 I am willing to restrict the search further, however, it is worth noting: 1.) Almost all other Federal Agencies have been able to respond to such requests for emails identified by key-strings; 2.) The keystrings are the topics of information that I am requesting and also the key to conduct a text based search; 3.) Government employees, through their regular work, routinely search emails by key-strings, therefore it is not a complex or burdensome task to complete. With that in mind, I am willing to limit my request to the following key-strings and timeframe: -Key-Strings: "Giuliani", "Mastroianni", "Elliott Broidy", "Mark Siffin", "EB-5", "George Nader", "Erik Prince"; Timeframe: 1/1/16 to 1/1/17	4/22/2019

EPA-R10-2019-005194	Mrs. Marina Goodrich	Marten Law LLP	We request that Region 10 of the U.S. Environmental Protection Agency (â€œEPAâ€ disclose, pursuant to the Freedom of Information Act, 5 U.S.C. Â§ 552, any and all documents (electronic and hardcopy) within EPA's possession, custody, or control related to all known releases of Aqueous Film Forming Foam ("AFFF") from all facilities, pipes, or similar located on Joint Base Lewis-McChord ("JBLM"), Pierce County, Washington. Specifically, we request that EPA provide all documents related to the December 2000 release of AFFF from JBLM referenced in Attachment A. Please provide these records within 20 working days, as required by 5 U.S.C. Â§ 552. Please also contact us to discuss search terms, custodians, or other information that may assist you in processing this request. We are happy to assist you in searching for responsive records so that this request may be processed within a reasonable time and at a reasonable cost. If you are unable to meet the 20 day deadline required by the statue, Marten Law will accept rolling releases of documents in response to this request, but asks that you contact us to provide a schedule of rolling releases. To the extent that you claim any document or portion of document as exempt from disclosure, we request that you release all reasonably segregable portions of any such document, with a clear designation of volume of information withheld and basis for any withholding. See 40 C.F.R. 2.104(h). In addition, to the extent that you believe any record may be withheld in full as exempt, we ask for a listing or index of such records and the basis for any withholding.	4/22/2019

EPA-HQ-2019-005125	Mr. Matt Dempsey		On behalf of the Houston Chronicle, I request all correspondence between EPA Headquarters staff and any employee of KMCO from 4/1/2019 and 4/18/2019 regarding any violations, site inspections, compliance requirements, investigation, flood risks, flood control, flood prevention, flooding, enforcement actions, regulatory oversight, emergency response, hazardous waste disposal, accident planning or prevention related, and the decision making process regarding how to proceed with the situation created by KMCO's explosion and fire at its 16503 Ramsey Road in Crosby, Texas (EPA facility identifier 100000118623). I request only publicly available information. The correspondence should include anything whether sent or received via email, phone text messages, fax or postal mail. Iâ€™d like to get responsive records emailed to me as PDFs to my email address or, if another request is already being processed and records are being produced in another format, I will accept records in that format in order to expedite release of records to the Houston Chronicle and lessen the workload on your staff. If records exceed 50 pages, I ask that they be made available to me on a rolling basis, meaning as they become available for release after any FOIA review process, rather than delaying release until the last document is ready. I'd like to get responsive records emailed to me . I agree to the release of records on a 30-day rolling basis. I also ask that you communicate with me by email or phone to expedite the FOIA process. Thank you.	4/18/2019

EPA-R5-2019-004922	Mr. William Clark	Foley & Mansfield	Please provide certified copies of all records related to asbestos at 1325 Monroe St NE, Minneapolis, MN 55413. This includes, but is not limited to, any inspection of this property, or samples taken from this location to be tested for asbestos, the results of any such testing, or any records related to any cleanup/abatement/remediation of asbestos at this location such as maps and photos regarding the cleanup. Beginning in about 2000, the EPA came in to northeast Minneapolis and discovered that the soil around properties in the area of the W.R. Grace at plant at 1720 NE Madison St., Minneapolis, MN 55413 and at 1815 Jefferson St NE, Minneapolis, MN 55418, was contaminated with Libby asbestos. It was determined to be from the free waste/crush rock that the WRG piled out outside its plant. The EPA tested and then did a cleanup of nearly 300 properties in the area, attributed to rock from the WRG facility. This request is not limited to any specific time period, though the relevant records will probably have been created from 1999 to 2007. We do not request any confidential business information.	4/9/2019

EPA-R2-2019-004674	Mr. Dylan Zaliwski	ERM, Inc.	I am requesting records regarding the property located at 55 Hamilton St, & 101 2nd St, Somerville, NJ. Specifically, I am looking for records regarding the storage and/or release of hazardous substances or petroleum products, including any incidents involving water or land contamination, hazardous waste manifests, and any permits, registrations, inspection reports, and/or notices of violation. Thank you!	4/1/2019
EPA-R2-2019-004663	Mr. David R Steinberg		4/11/2019 - I am interested in any report or study which shows evidence of pollution that can be traced to the PES/Sunoco's refinery in Philadelphia that affects the NJ side of the Delaware River for drinking water used by towns along the river or in the underground aquifer. The time frame is from 2009 to the present. When I read about the possibility of Pollution in the aquifers and dringking water in NJ alarmed me and I am doing research to find facts relating to this. A report was issued 9/20/2018, authored by Christina Simone, Director of Policy and External Affairs, Kleinman Center for Energy Policy, at the University of Penna, 267-997-7257 (c) 215-573-4096 (o) csimeone@upenn edu & https://kleinmanenergy.upenn edu/. She has done extensive research regarding the shaky finances of the refinery and the pollution into the air, land and water. I call your attention to this link of the entire study, which lists the chemicals found in each of the eleven (AOI) Areas of Interest. Please look at this attached report for AOI # 11 and the chart on page 59, as it relates to possible pollution in NJ aquifers, which is my focus: . https://kleinmanenergy.upenn.edu/sites/default/files/proceedingsreports/Beyond-Bankruptcy_0.pdf As result of reading this report, I am deeply concerned about what effect this has on the drinking water for the residents of NJ. I request to have all documents, studies, reports, maps, etc. from any and all information that has been conducted by the EPA or any other governmental agency , non-profit, business or any other entity that you have in your records pertaining to the possible pollution of the NJ aquifers and drinking water by this refinery from the Delaware River and its tributaries on the NJ side of the river. The time line is 2009 to Present.	4/1/2019

EPA-HQ-2019-004655	Mr. Brian Bienkowski	Environmental Health News	This is a request for information under the Freedom of Information Act, 5 U.S.C. 552. I request that you make available to me the following records: Pesticide Emergency Exemptions (Sections 18s) granted by the EPA between January 1, 2018 and April 1, 2019. I am requesting the record listing all of the exemptions (database or record layout). In addition, please include all relevant documentation regarding this data. I will not be using this data for commercial gain, but rather the release of this information will be used in the public interest and will significantly contribute to the public understanding of government operations and activities. Because of this I would like to request a waiver of all fees associated with this request. If a waiver is not granted, please let me know what the cost of the data will be before proceeding with this request. For the record layout documentation, in keeping with 5 U.S.C. Â§ 552(a)(3)(B), agency FOIA guidelines and presidential directives regarding the release of public data in machine-readable format, I request that these records be provided in an electronic format that can be imported into standard database software. Examples include an Excel .xls or .xlsx file, an Access.mdb or .accdb file, a textbased delimited file (.csv, .txt., .tsv., etc.), a .dbf file or an SQL dump. (This would not include PDFs, which are not readable by database software.) Please let me know if there is anything I can do to help clarify or expedite this request. I look forward to hearing from you and appreciate your assistance.	4/1/2019

EPA-R2-2019-004641	Mr. Jonathan D Wood	PennJersey Environmental Consulting	To whom it may concern, We are conducting a Phase I Environmental Site Assessment of a portion of Naval Weapons Station Earle (NWS Earle) known as IR Site 5. A ROD was signed in 1997 for the subject property. The property is located at 201 NJ-34, Colts Neck, NJ 07722 (Block 56, Lot 1). NWS Earle's NJDEP Program Interest number is 015100. As part of this Phase I, we are requesting that your office perform a records search to seek any identifiable remedial, permitting, and enforcement violation records at the property. Generally we are interested in files related to historic property owners and operators, permits taken out by site owners/operators/sub-contractors, fires reported on site, police calls to the property, connections to town sewer/water, municipal violations, and NJDEP investigations. We are aware of the time, expense and burden our request has on your department. We would be glad to ease that burden in any way possible. If you are able to pull the files and they are unable to be sent electronically, we would be glad to travel to your office to review and copy anything needed for our investigation. Thank you for your time and effort. If I can be of any further assistance please call or email me. EPA-R10-2019-004515	Robert B Barnes		Please provide all EPA Region 10 report(s) regarding State of Washington Pollution Discharge Elimination System, including but not limited to the State enforcement program under the Clean Water Act NPDES Program. I am requesting a copy of records related to the Sundberg Gravel Mine located at 2200 Cooper Point Road NW in Olympia, WA 98501. This site has been used as an unpermitted and unregulated landfill. The site is located only four minutes from the largest toxic waste site in the South Sound. There is evidence that the Port of Olympia may have illegally dumped sediments from the Cascade Pole Site here at one time. I am concerned about potential contamination of groundwater, surface water, and protection of human health in water quality standards under the Clean Water Act. There is a proposal to develop 181 houses on this 50 acre site (Parcel No's 81700000000, 74202900000, 74202500200, and 74202500100) on the former gravel mine and toxic dump. The proposed development is at the headwaters of the last remaining undeveloped area of the Green Cove Creek watershed. This is an extremely critical aquifer recharge area of the Green Cove Basin as indicated on the City and County's 1998 Green Cove Comprehensive Plan. Contamination of the aquifer at this site will affect the groundwater for miles around, threatening individual wells (including mine) that supply 40% of Olympia resident's water. The proposal potentially impacts Federally protected waters, as Green Cove Creek and Butler Creek empty into Eld and But Inlet, respectively. Federal law requires that the responsible jurisdiction conduct thorough testing for toxicity on the proposed site, and an analysis of sediment runoff before any soil can be disturbed. In addition, the National Pollutant Discharge Elimination System (NPDES) of the EPA maintains that a city may be held fully liable for any contamination that enters into the streams and groundwater that enters into Federally protected tidal waters.	3/25/2019

EPA-R7-2019-004520	Corbin Hiar		Under the Freedom of Information Act (FOIA), I request any and all requests for information EPA made pursuant to Sections 113 and 114 of the Clean Air Act for the Thomas Hill Energy Center; responses Associated Electric Cooperative Inc. or its representatives made to those requests; and notices of violation, fines, and consent orders/decrees issued regarding Thomas Hill for the following period: January 2002 through March 2019. The FRS ID for Thomas Hill is 110000444243. FOIA requires that if part of a record is exempt from disclosure, you must redact and release all segregated parts. Please describe the deleted material in detail and specify the reasons for believing that the alleged statutory justification applies in this instance. If my request is denied in whole or in part, please specify which exemption(s) is (are) claimed for each passage or whole document denied. In addition, please give the number of pages in each document and the total number of pages pertaining to this request and the dates of the documents withheld. Such statements will be helpful in deciding whether to appeal an adverse determination. As required by FOIA, I look forward to hearing from your office within 20 days in response to this request.	3/25/2019
EPA-HQ-2019-004516	Deirdre Casey		Langan Engineering is conducting a Phase I Environmental Site Assessment (ESA) of the property located at 55 Bank Street in White Plains, Westchester County, New York. This property is also identified as 125.82-1-7.1. This property is also referred to as 57 Bank Street in some records. In support of our Phase I ESA, Langan is requesting any information or copies of files regarding environmental conditions at the site, such as environmental reports, environmental permits, notices of violation, spill/discharge incidents, storage or disposal of hazardous discharges, Underground Storage Tanks (USTs) or Above Ground Storage Tanks (ASTs), Leaking Underground Storage Tanks (LTANKS), asbestos abatement and any other environmental reports that your department may have. Thank you.	3/25/2019
EPA-HQ-2019-004498	Mr. Doane Cafferty	Brinkerhoff Environmental Services, Inc.	On behalf of Brinkerhoff Environmental Services, Inc., I am requesting any information on: Underground Storage Tanks, Aboveground Storage Tanks, chemical storage, chemical spills, environmental clean ups, environmental complaints, gasoline/fuel oil storage, building demolition, environmental assessments and reports for the property located at 170 Fairfield Avenue, Fairfield, NJ 07004 (Block 1107, Lot 13).	3/25/2019
EPA-R5-2019-004495	Mr. Richard W Volpi	Haley & Aldrich	All information concerning Miller Salvage Superfund site located at 1617 Lapparell Road in Latham, Pike County, Ohio	3/25/2019

EPA-HQ-2019-004505	Jack Litzke	Roux	We are performing a Phase I Environmental Site Assessment for Sunpower for the properties located at 2 Riverside Drive, Camden NJ (Blcok 139.02, Lot 1.01). Please provide any information related to environmental reports, releases/discharges, underground/aboveground storage tanks (USTs/ASTs), permits, complaints, inspections, enforcement actions, etc.	3/25/2019
EPA-R6-2019-004509	Chris Jackson	Farmer Environmental Group	Farmer Environmental Group is requesting prior environmental reports (e g. soil/groundwater sampling reports, remediation reports) regarding the following site in Odessa, Ector County, Texas: Site Name: ODESSA DRUM CO INC Site ID: TXD008012254 Site Address: 2214 ALICE ST, ODESSA, TX The following is a brief summary of what has prompted our interest in the EPA reports: Odessa Drum Co. was a drum reconditioning business that operated between 1962 and 1990. When the business closed, approximately 100,000 drums were abandoned on-site. The business was not permitted to accept waste, but 12,000 drums and five large storage tanks did contain hazardous materials and waste. EPA conducted site remediation in three phases: 1) drum, tank, and waste removal, 2) soil sampling to delineate contamination, and 3) soil excavation and disposal. These activities were conducted between 1990 and 1997. â€¢ think we can narrow the timeframe down to the 1990s, unless there is readily accessible information regarding the SEMS-ARCHIVE status (reportedly archived during 2013). â€¢ would like to narrow the scope to only documents related to the assessment and remediation activities. I do not need any of the legal/lawsuit information, project funding information, Potentially Responsible Party (PRP) documentation, or information that would require a substantiation process. â€¢ An example of the type of report that Iâ€™m looking for was referenced in data provided by the TCEQ as the â€œEPA Site Assessment Reportâ€ dated 1992.	3/25/2019
EPA-HQ-2019-004522	Ms. Maxine Joselow	E&E News	I request all communications concerning a Feb. 14, 2019 meeting between Assistant Administrator for EPA's Office of Air and Radiation Bill Wehrum and Natural Gas Vehicles for America.	3/25/2019

EPA-R3-2019-004474	Todd Lippman	CEC	Looking for reports, sample data, and maps related to the Starvaggi Machine Shop on Potomac Avenue, Weirton, Hancock County, West Virginia, 26062. The facility is listed in the US Brownfields database; Cooperative Agree m e n t N u m b e r : 97384901. The Property was used as a construction vehicle maintenance facility since the 1960s. The facility was historically used as a coal strip mine. A 2011 Phase I Environmental Assessment and 2012 Phase II Environmental Assessment on the approximate 22-acre facility are also referenced. Non-specific institutional controls at the facility are also indicated in the database. Review of the available online USEPA Brownfield website only indicated soil impacts from polycyclic aromatic hydrocarbons are present at the facility. I am seeking more specifics on where the samples were collected, specific laboratory results, agency correspondence, and any environmental reports that were prepared for the facility (Phase I and Phase II ESAs). Thank you.	3/22/2019

EPA-R9-2019-004439	Mr. franklin j goldman		Need to review and copy environmental technical reports for permitting and case files for the properties at 1748, 1750, 1752, 1754, and 1776 Laurel Street in San Carlos CA. Will want to see the whole files and must include, but not limited to, technical reports, inspection reports, permits, notices of violation, all maps and figures, data, correspondence, tables of date. All maps, drawing, and plans are Public Record unless they are stamped by a licensed Civil Engineer or architect. If stamped plans are found, we want them identified and provided for our observation. We will contact the engineers for permission to review stamped plans. It is our understanding that USEPA Region 9 may have inspected the former dry cleaner operation at 1752-54 Laurel Street and may have EPA inspectors notes, field sketches, notices of violation, correspondence, lab testing results, field monitoring results. We want to review and copy this information as it is required under a water code enforcement letter by San Mateo County GPP under Water Code Section 13267.	3/21/2019

EPA-R5-2019-004450	Mr. Carson Colletier	UES Consulting Services, Inc.	I am requesting any CORRACTS related documentation for the facility Vector Packaging located at 102 E Bailie Street in Kentland, Indiana. The EPA ID is IND000708545, NAICS code is 326121. The facility has several CORRACTS listings in 2015, including listings in 1993 and 2014. It is reported that migration of contaminated groundwater is under control, and that current human exposures are under control. This implies that groundwater/soil sampling has been performed, so I am also requesting any environmental reports/assessments., including media sampling/monitoring reports conducted on the property. I am not interested in the large quantity hazardous waste generator (RCRA-LQG) listing, as I have documents related to it from the state. I am performing a Phase I Environmental Site Assessment on the east adjoining property. Thanks in advance!	3/21/2019

EPA-R4-2019-004335	Ralph Young		Hello. I live in Jefferson County, Alabama and I am researching the Data Requirements Rule (DRR) for the 1-Hour Sulfur Dioxide Primary National Ambient Air Quality Standard (NAAQS), PA-HQ-OAR-20J3-0711, published August 21, 2015. Under this rule, each air agency was required to submit a list to the EPA by January 15, 2016, that identifies all sources within its jurisdiction that have SO2 emissions that exceeded the 2,000 tons per year (tpy) annual threshold. For each source on the list, the air agency was required to indicate by July 1, 2016, whether it will characterize air quality through ambient monitoring or through air quality modeling. >>>I write to request digital copies of all submissions, indications, correspondence, inquiries, emails, or other records to/from the following organizations and people concerning the implementation of this DRR rule in Jefferson County, Alabama. My air authorities are the Jefferson County Department of Health (JCDH) in cooperation with the Alabama Department of Environmental Management (ADEM). Principal contacts include but are not limited to Corey Masuca, Jonathon Stanton, Jason Howanitz, Mark Wilson, Ronald Gore, Michael Malaier, and Lance LeFleur. Please limit your search between and including the dates August 21, 2015 and July 1, 2016.	3/19/2019
EPA-HQ-2019-004350	Mr. David Schultz	Bloomberg Environment	Per the Freedom of Information Act, I request access to a list of Environmental Protection Agencies who worked on the following regulatory actions during the time period of Dec. 22, 2018, through Jan. 25, 2019: RIN: 2040-AF75 RIN: 2040-AF74 RIN: 2040-AF15 Please provide me with a list of all of the names of the EPA employees who worked on these three regulatory actions during the time period I have specified above. Please also provide me with the titles of these employees and with the offices in which they are employed at the EPA. Thank you for your help with this request. Please do not hesitate to contact me further if you are unclear about what information I am seeking. Sincerely, David Schultz	3/19/2019

EPA-HQ-2019-004368	Mr. Robinson Meyer	The Atlantic	I am requesting an electronic copy of any written or audiovisual record of the speech that Bill Wehrum delivered to the Auto Alliance board at 10am on December 7, 2017. I am also requesting an electronic copy of any notes or text that Mr. Wehrum used to help deliver his speech. Mr. Wehrum is the assistant administrator of the EPAâ€™s Office of Air and Radiation. The speech, which was delivered at the Auto Alliance office at 803 7th Street NW in Washington, D.C., appears on Mr. Wehrumâ€™s calendar for that day. I request that all fees be waived as I am a working journalist covering the EPA, employed full-time by The Atlantic magazine and news website. I look forward to your response within the 20 working days, as outlined by the statute.	3/19/2019
EPA-HQ-2019-004351	Mr. Anthony Lacey	Inside EPA	I am seeking all EPA staff comments on the following legislation introduced in the 116th Congress: S. 638 S. 233 H.R. 89 H.R. 1152 and Senate companion S. 458 H.R. 535 H.R. 843 H.R. 1281 H.R. 1337 H.R. 1391 H.R. 1024 I am seeking all possible correspondence -- internal EPA letters and emails between EPA staff that discuss the bills, as well as communications with outside entities such as Congress discussing the bills. These records are not protected by the deliberative exemption in FOIA because they do NOT affect EPA rulemaking in any way shape or form. They are simply the opinions of EPA staff on legislation that Congress is developing, nothing more. If you withhold any documents you must provide a list of the withheld documents and a document-specific reason for each withholding beyond simply citing a FOIA provision. Thank you in advance.	3/19/2019

EPA-HQ-2019-004354	Mr. Anthony Lacey	Inside EPA	I am seeking all EPA staff comments/internal emails/etc. on the Green New Deal proposal from Democrats. Please include these specific terms in your document search: -- Green New Deal -- GND -- H.Res.109 -- House Resolution 109 -- AOC -- Alexandria Ocasio-Cortez I am seeking all possible correspondence -- internal EPA letters and emails between EPA staff that discuss the Green New Deal, as well as communications with outside entities such as Congress discussing it. These records are not protected by the deliberative exemption in FOIA because they do NOT affect EPA rulemaking in any way shape or form. They are simply the opinions of EPA staff on legislation that Congress is developing, nothing more. If you withhold any documents you must provide a list of the withheld documents and a document-specific reason for each withholding beyond simply citing a FOIA provision. Thank you in advance.	3/19/2019

EPA-R6-2019-004263	Tya Antrim	Wright, Lindsey & Jennings LLP	Any and all documentation that the EPA has concerning the "Stump Dump" near or on Trafalgar Road in Bella Vista, Benton County, Arkansas. Time Period for Requested Records: July 1, 2018 to present. Type of Records Requested: Publicly available information only, and excluding proprietary business information. Limited to, Air Quality Test Reports (Preliminary and Final), Site Visit Notes/Reports, Sample Notes/Reports, Communication with Other Agencies/Officials Involved with the Site, Communications with Fire Expert(s), Fire Suppression Reports, and any additional information or documentation regarding the fire. I believe the EPA enlisted the help of technical experts from the Office of Research and Development (ORD) regarding the options for extinguishing the underground fire at the Brown Tree Care Site. The plaintiffâ€™s complaint in our case alleges that the EPA conducted air quality monitoring for semi-volatile and volatile organic compounds. As far as the â€œparameters/contaminantsâ€ we are interested in all of the air quality tests that were performed at the site. Facility ID: BTS Equipment, LLC also known as Browns Tree Care Dump. Facility Address: Trafalgar Rd, Bella Vista, AR Parcel Number: 16-77998-007	3/15/2019

EPA-R6-2019-004065	Sharon Lerner		I am writing to request a complete list of attendees at the November 8, 2018 meeting with Andrew Wheeler at EPA Region 6 Offices in Dallas, Texas. (Please see attached document.) I am interested in the visitor logs for November 8, 2018 (note not 2019). It would be sufficient for EPA R6 to search for responsive records in your possession involving HQ. At this time, I do not need this FOIA request to be referred to EPA HQ for EPA HQ Wheeler staff to search for records. In addition, I am requesting any notes or summaries of the meeting as well as any communications including emails, letters or planning documents associated with the meeting produced between 6/1/2018 and 3/1/2019. I am not interested in planning information for the Nov. 08, 2018 meeting as it relates to IT logistics, supplies, room reservations/set-up â€“ essentially those emails related to ensuring the meeting room logistics are functional or operational. Finally, I am requesting any EPA Region 6 staff communications regarding the Martin Lake Steam Electric Plant from 1/1/2018 through 3/1/2019. Regarding the last part of my request â€” for any EPA Region 6 staff communications regarding the Martin Lake Steam Electric Plant â€” I am requesting an IT email search of the staff of the Compliance Assurance and Enforcement Division using the following key terms: "Martin Lakeâ€ AND any of the following: SO2, Nonattainment, Luminant, OR Sierra Club. This is for communications from the period 1/1/2018 through 3/1/2019.	3/8/2019

EPA-HQ-2019-004082	Mr. Kevin Yancy		Hi, I'd like copies of all studies you have on the effects of Jet fuel, Jet Exhaust, Motor Vehicle Gas on people working in environments where they're used, stored, maintained, exposed to, etc... I ran a flight deck on a helicopter carrier and for two years and daily was exposed to long periods of jet and motor gas fuel by vapor and directly on my skin in closed spaces, on the flight deck, as well as to exhaust from jet engines directly and indirectly as residue on the ship. At that time I developed symptoms, which I didn't discover until recently were consistent with exposure to these fuels and exhaust. The symptoms being neurological damage, autoimmune disease, headaches, audio dyslexia. I've come across some studies which support the claim I'm making to the VA. But I'm looking for more studies to support my claim, which have stronger validity for the VA. Thank you, Kevin Yancy	3/8/2019
EPA-HQ-2019-004067	Mackenzie Farkus	MuckRock News	To Whom It May Concern: Pursuant to the Freedom of Information Act, I hereby request the following records: Materials from 2016 onward related to the water contamination at Camp Lejeune and its subsequent health effects on those currently or formerly stationed at Camp Lejeune. Potential documents include but are not limited to correspondences containing the keywords "illness," "water contamination," and "disability benefits," reports concerning levels of current water contamination at Camp Lejeune, and brochures/pamphlets/booklets given to those impacted by Camp Lejeune's water contamination. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires. Sincerely, Mackenzie Farkus	3/8/2019

EPA-HQ-2019-004028	Claire Palandri		Dear Madam, dear Sir, In he context of a research project, I am interested in the assessments conducted by the EPA of the quality of data in the Federal Safe Drinking Water Information System (SDWIS/FED) database. I found 3 publications on the results of EPAâ€™s triennial reviews of data quality in SDWIS/FED (based mainly on data verification audits): respectively, the reports EPA 816-R-00-020, EPA 816-R-03-021 and EPA 816-R-07-010. These publications covered data only up to 2004. According to the EPA OIG's 2017 report No. 17-P-0326: "Prior to 2013, the EPA conducted program reviews in each state every 3 to 4 years using a contractor, who evaluated the implementation of National Primary Drinking Water Regulations. The EPA referred to these contractor-led reviews as data verifications. According to EPA staff, these data verification reviews ended when funding ceased, at which point EPA staff assumed the program review function." This implies that such assessments should be available up to 2013. However, I cannot find any such publications regarding data after 2004 (neither through a web browser nor through the National Service Center for Environmental Publications -NSCEP- catalog). The last one I could find was EPA 816-R-07-010, published in 2006 and covering data between 2002 and 2004. I am therefore requesting access to the results of the program reviews conducted up to 2013, and to any publication published after 2006 containing an assessment of the quality of the data in SDWIS/FED. Thank you very much in advance for your reply, Best regards, Claire Palandri	3/7/2019

EPA-R5-2019-003956	Mr. Thomas Demetrio	Clifford Law Offices	We seek all EPA records of asbestos maintenance, abatement, and/or removal from the refinery located at 2815 Indianapolis Blvd, Whiting, IN 46394, from 1985 - 2014. British Petroleum currently owns, controls, and operates the refinery, but Amoco Oil Company also owned, controlled, and operated the refinery during the period requested. Additionally, we would like a record of any "open air containment" permits the EPA issued for this location. We seek these records as part of ongoing litigation. Our client worked as an insulator at this refinery at various times over the 30 year period and was exposed to a lethal amount of asbestos. He developed mesothelioma, which killed him a few years ago. Upon information and belief, the EPA has records of all reported asbestos projects at this location.	3/5/2019

EPA-R2-2019-003846	Carol Farrell	NYC BIB Program Hurricane Sandy	I reported a request for NYSDEP in Region 2 - Breezy Point NY 11697. My Home was Rebuilt by The City of NY Sandy Recovery Program and my Home was approved for Accommodations from HPD The Mayors Office for People with Disabilities. My daughters health is a Environmental Auto Immune ; loss of eyesight in one eye and other severe illnesses. During the rebuild of my home, by RBBC hired a man from the Malbro Construction company working in this program to crush my cesspool illegally spilling 1,200 gallons of human waste <fesses > on my property after the demolition ticket in the NYC Buildings Department was closed. My daughter witnessed this and took a video of this cat digger actually filling my whole property < sand > with waste spill and neither companies will and HPD Denied my request and will not have the descenty to Properly And Professionally have the sewage removed and chemical clean up. The whole point is that they were never going to replace my cesspool during construction stage only replacing covers and not put a new Septic System in the ground. The got caught in this whole illegal situation and still no remorse since June 19,2018.As a Homeowner and legal Rep for my disabled daughter My Developer and HPD are the ones that defaulted on the Homeowner.in the Agreement Docuentation please understand what this has done to my own health of infectious disease trying to clean up myself.This is a serious health issue Please look into this and I can not afford to have a private lab test done. They are covering up and legal issue. Thank You	3/1/2019

EPA-HQ-2019-003909	Ms. Sarah D OBrien	Sustainable Purchasing Leadership Council	On behalf of the Sustainable Purchasing Leadership Council, a not for profit association that works to support institutional purchasers' integration of sustainability requirements in their procurement, I am requesting release of documents related to the EPA ecolabel assessment project - specifically: 1) The latest draft of the Assessment Process Manual developed and used during the project 2) The latest draft EPA Guidelines generated following the pilot project, including any changes made since the current version was posted online (https://www.epa.gov/greenerproducts/final-pilot-assessment-guidelines-epas-recommendations-standards-and-ecolabels) 3) The independent assessments made by EPA and EPA's contractor(s) of the product categories addressed directly by EPA/contractor My organization's interest in these documents derives from our role as the primary convening organization for North American sustainable procurement professionals, whose practices may be informed and improved by the detailed work carried out by EPA in this project. Rather than launch a separate ecolabel recommendation system, we wish to build on the detailed frameworks and work done by EPA and their contractors on this ecolabel assessment project, so that a wide range of public and private purchasers can understand and use ecolabels rated in a way consistent with EPA recommendations for a wide array of additional product categories beyond those addressed so far in the EPA project. By so doing, we believe we can help institutional purchasers aggregate demand and send clear market signals to suppliers as to which are the most meaningful and credible ecolabels they should leverage to demonstrate their sustainability performance to institutional purchasers. This is in service of the public interest in environmental sustainability, human health and reductions in carbon impacts, and in service of creating a transparent and accountable marketplace for more sustainable products and services.	3/1/2019

EPA-R6-2019-003842	John Muir		Baker Â Wotring LLP hereby requests the prompt production and disclosure of any and all memoranda, lists, correspondence, and other documents and records, whether draft, preliminary, interim or final, as well as any other related documentation in electronic format, in the possession, custody or control of United States Environmental Protection Agency (EPA), including EPA Region 6, identifying, evidencing or related to Texas Gulf Terminals, Inc. (TGT), the TGT application for a Deepwater Port License (Docket No. MARAD 2018-0114), and any other related documents. My request is not limited to EPA Region 6. During the processing of the first 3 requests I have received conflicting information as to whether EPA Headquarters may have responsive documents. Therefore the request EPA-R6-2019-003842 is intended to request documents from both Region 6 and EPA Headquarters. This request is for all information in whatever media it may be kept and in whatever form including, but not limited to, any book, paper, letter, document, e-mail, Internet posting, text message, instant message, other electronic communication, printout, photograph, film, tape, microfiche, microfilm, sound recording, map, and drawing and a voice, data, or video representation held in computer memory in the possession, custody or control of EPA Region 6 and EPA HQ. The date range of records requested is November 23, 2018 to March 6, 2019. To avoid any confusion, I am not requesting documents that have been produced in response to FOIA Requests EPA-R6-2019-001627 and EPA-R6-2018-010861. I also want to include in the request all denial logs produced by EPA Region 6 for FOIA Requests EPA-R6-2019-001627 and EPA-R6-2018-010861. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the Act. Please also release all non-exempt portions of otherwise exempt material. If costs exceed $125, please contact me at 713-980-1715 or jmuir@bakerwotring.com.	2/28/2019

EPA-HQ-2019-003810	Bruce McKay		I am requesting that a lawyer for U.S. EPA OPP (Office of Pesticide Programs) explain what I may or or may not do with public information from EPA's PDMS (Pesticide Document Management System). All requests about PDMS are referred to Purdue's University NPIRS search system. This requires a subscription fee and charges for each search of the PDMS system. I want to provide clients with PDMS information. I have reengineered, deconstructed, and reformatted output from NPIRS, such that it must approximate EPA,s internal database(s). However, the Terms and Conditions of Purdue's NPIRS sites contains this: "NPIRS reserves the right to revoke or deny subscriptions to individuals or organizations deemed as competitors that produce similar systems and/or websites. " Am I to interpret the NPIRS statement that I have NO Rights regarding the EPA's public information, and that U.S. EPA WILL NOT release the public PDMS information to other than Purdue University. EPA-HQ-2019-003688	Mr. Benjamin H Klayman	Reuters	Reuters is filing a request for the release of all information under the Freedom of Information Act pertaining to the Feb. 21, 2019, announcement by U.S. automaker Ford Motor Co that it is investigating its process for U.S. emissions certification. A copy of that release is attached to this request. We would like to see all documents pertaining to Ford notifying the EPA of the issue, starting with the company's notifying the EPA on Monday, Jan. 18, as well as all the documents Ford sent to the EPA explaining how the problem occurred. Given the public's right to know how this affects the vehicles they drive and the previous 2015 scandal surrounding Volkswagen's efforts to defeat US regulatory review of its emissions - a case dubbed Dieselgate by the public - Reuters feels this request is reasonable. We would like to see all correspondence and documents pertaining to the issue, including any documents and call logs by Ford group vice president Kimberly Pittel and any other Ford officials involved in case, any paperwork on how the issue was discovered and how the company was then alerted. We would like to see any documents submitted by Ford prepared by the automaker of outside law firms or laboratories hired to run tests on the issue by Ford, as well as any documents added to the file by the EPA and its investigator and administrators. If any questions, you can contact myself - Ben Klayman, Detroit Bureau Chief for Reuters, at 313-600-2277 or benjamin.klayman@thomsonreuters.com - David Shepardson, our Washington transportation reporter, at 202-579-6093 or david shepardson@thomsonreuters.com.	2/22/2019

EPA-R4-2019-003687	Mr. Joe E Carr	Candidate for Mayor	Due to lobbying by chemical companies, companies haven't been required to report Acetone emissions to the EPA since 1993. Yet a Superfund site for Eastman Acetone Release exists on the EPA's website: https://cumulis.epa gov/supercpad/CurSites/csitinfo cfm?id=0407320 In the last year of reporting acetone emissions, the Eastman Chemical Company reported emitting 22,200,000 pounds of acetone into the air in 1993 here in Kingsport. It does not even list a location for the release site! Nor does it merit a spot on the National Priority List. I am asking for all information on the Eastman Acetone Release Superfund Site.	2/22/2019

EPA-R2-2019-003638	Tyler Anderson		I am gathering the latest data on emissions that is present in the air. In regards to the discussion of climate change, I am looking to analyze trends in why emission rates continue to go up, despite general society making the greatest push yet towards clean energy. So why do emissions rates indicate that they are going up in spite of the "green push." This is for research purposes to determine how to fight effects of climate change before we reach the point of no return, and what it takes to come to a resolution. All I ask for, is data to analyze statistics in emissions presence so I can better determine a solution.	2/20/2019

EPA-HQ-2019-003149	Zhengyan Li	Indiana University SPEA	I am trying to get the universes of facilities that are under the jurisdiction of Clean Air Act, Clean Water Act (NPDES), and Resource Conservation and Recovery Act respectively each year historically. I am working with data sets downloaded from the Enforcement and Compliance History Online (ECHO) system. I have access to three facility data sets: â€œFacility/Source Level Identifying Data (ICISAIR_FACILITIES.csv)â€for air, â€œFacility (ICIS_FACILITIES csv)â€for NPDES, â€œFacility (RCRA_FACILITIES.csv)â€for RCRA. These datasets include all the facilities ever existed historically under each program and their current operating status. However, I do not know during what period of time historically each facility was operating or under the jurisdiction of these environmental regulatory programs. Information such as the time when each of the facilities started to operate and shut down will be helpful for me to identify the universes of facilities that are under the jurisdictions of CAA, NPDES, and RCRA, each year historically. Can you provide me with the information (the open and shut down date for each facility in the three facility datasets mentioned above)? Thanks.	2/1/2019

EPA-HQ-2019-003033	Mr. David Archer	CDEnviro Ltd	I would like to receive information on Water Utilities in each region serving more than 10,000 people. My records from the EPA website show that there should be over 4,300 of these. Specifically, I would like to see records of how many slow sand filters are in use in each state/region and what the land footage is of these filtration beds. Additionally, I would like to see records of how much sand is required to be passed through these filters on a yearly basis and the financial implications of this for each utility, preferably split into $ value per tonne of replaced sand. I have attached a spreadsheet detailing findings so far in terms of how many utilities are in each state/region based on EPA data. If any of the blanks can be filled in it would be much appreciated.	1/29/2019

EPA-R6-2019-003027	Joshua Smith	Sierra Club	Freedom of Information Act Request for Communications Regarding U.S. Environmental Protection Agencyâ€™s Texas-Related Clean Air Act Actions. Per requester confirmation on Feb. 12, 2019, requester confirms the following: A. Timeframe for records sought is January 1, 2018 to January 28, 2019; B. Requester agreed to rolling responses with releases every 30 days; C. Requester wants a denial log with appropriate FOIA exemption(s) identified for document(s)/information withheld; D. Requester wants access to Proprietary Business information (PBI - historically aka Confidential Business Information (CBI)). Requester agreed to go through the Substantiation process with the understanding that the process can take up to one year for a determination to be made by the Office of Regional Counsel (ORC); E. Requester discussed with EPA Region 6 the idea of an Index or Indices of all potentially responsive documents which would include the title, date, number of pages prior to review for responsiveness. However, it was understood that an Index/Indices may not be possible to generate at this time; F. Requester agreed that for those prioritized domain names, the entities listed in (1) of the request would not require an additional search for potential responsive records; G. Requester clarified that for each of the prioritized domain names or those non-repeating entities listed in (1), a search will be created for the 4 topics identified in the request; Furthermore, Sierra Club does not agree to waive any rights, including, but not limited to, the right to a timely determination of whether the agency intends to comply with the request, timely compliance with any provisions governing CBI/PBI substantiation, timely fee waiver disposition, a timely final determination, production of reasonably segregable public documents, or any other procedural requirement or right under the FOIA.	1/28/2019

			I request copies of all communications records related to EPA's Dec. 27 proposal titled "Proposed Revised Supplemental Finding and Results of the Residual Risk and Technology Review" sent between executives, representatives or employees within the coal mining industry and EPA's Office of Administrator and Office of Air and Radiation. This includes emails, calendar invitations, text messages, PowerPoint presentations, memoranda, analysis, Excel spreadsheets, and any other files or documentation. I would like to receive this information via email or thumb drive in a searchable electronic text format (PDF is preferable). I am willing to break this request up and receive the results in batches if that would expedite it. If so, I would prefer to receive the documents starting from the most recent available. If you have any concerns with this request or feel the responsive records may be too large to process, please contact me at 206 939.1119 or at zack.hale@spglobal.com to discuss further. I would appreciate your communicating with me by telephone or email, rather than by mail. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the federal Freedom of Information Act.

Where possible, please provide any records on a rolling basis as they become available for release. Documented seeks the above listed records for noncommercial use as a representative of the news media. Documented qualifies as a news media organization under the definition provided by Congress in the OPEN Government Act because it â€œgathers information of potential interest to a large segment of the public, and uses its editorial skills to turn the raw materials into a distinct work, and distributes that work to an audience.â€ Specifically, Documented is seeking this FOIA request because the information in it is of interest to a large portion of the pubic, including the many concerned citizens that regularly acquire information through our extensive range of publications. These publications include websites, blogs, newsletters, reports, press statements, social media networks such as Facebook, and Twitter. In addition, Documented reaches out to many traditional news media outlets that regularly broadcast our publications through television, radio, print and electronic articles and interviews. Documented plans to compile the information from this request into a distinct, original work that will be released to the public through the publications listed above. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter. EPA-HQ-2019-002577	Ms. Yasmeen Abutaleb	Reuters News	Dear FOIA Officer: I am a journalist for Reuters News. Pursuant to the federal Freedom of Information Act, 5 U.S.C. Â§ 552, I am requesting the following records: â€¢Â A list of all political appointees to the U.S. Environmental Protection Agency from Jan. 1, 2017, to Jan. 1, 2019. â€¢Â Any and all resumes for these appointees. â€¢Â All financial disclosure forms filed by these appointees. I am requesting a fee waiver, as this request is being made in connection with Reuters Newsâ€™ newsgathering functions in the public interest and not for any other commercial purpose. I am also requesting expedited processing of this request. I am a member of the news media and there is an urgent public need for timely information about the qualifications and backgrounds of EPA officials who are carrying out changes in environmental regulations, including rules that govern pesticides and toxic chemicals. The public has a right to access this basic information. I certify that these statements concerning the need for expedited processing are true and correct to the best of my knowledge and belief. Please advise within 10 calendar days, as the statute requires, whether the agency has granted this request for expedited processing. If you decide to exempt portions of any record, I ask that you segregate those portions and promptly release the remainder of the records. If you withhold any record or portion of a record, please specify which statutory exemptions are claimed for each withholding. If there are any search, review or duplication fees greater than $25, please inform me before you fill the request. Because this request is time-sensitive, please contact me by telephone at 646-832-8870, or by email at yasmeen.abutaleb@thomsonreuters com, rather than by mail, if you have questions or wish to discuss this request. If I can clarify this, or speed this request in any way, please do not hesitate to contact me. Thank you for your prompt attention to this request.	1/3/2019

EPA-R4-2019-002461	Rodney Huerter	Veolia North America	I hope you all had a merry Christmas and are enjoying the Holiday Season. On September 6, 2018, in response to FOIA Online Request No. EPA-R4-2018-011123, the EPA provided the attached RCRA Site Detail report (RCRAInfo 'handlerrpt') for EPA ID No. NCD070619663 (the â€œEPA-R4-2018-011123 (9.4.18) - RCRAInfo, Site Detail, NCD070619663â€file). The current â€˜ownerâ€™ and â€˜operatorâ€™ of record information in that report is consistent with the information that is identified today in the following EPA web-based reports: 1) the Envirofacts Facility Detail Report for EPA Registry Id. No. 110000615264, and 2) the RCRAInfo Web Current Site Details for EPA ID No. NCD070619663 (I have attached screen prints for each of these referenced reports from the Agencyâ€™s website). I request a current copy of the RCRA Site Detail Report for EPA ID No. NCD070619663 (updated to include any and all new information from the September 4, 2018 run date of the attached â€œSite Detailâ€report to present). Thank you.	#########

EPA-R4-2019-002467	Rodney Huerter	Veolia North America	On December 18, 2018, in response to a search based on â€œHandler ID: NCD070619663,â€the web-based RCRAInfo Search site (https://www3.epa.gov/enviro/facts/rcrainfo/search.html) returned the information included in the attached â€œcrainfoquery_3, NCD070619663 (12.18.18)â€file. The information relates to a facility located in Swannanoa, North Carolina, which was named â€œOld Asheville Dye and Finishing Locationâ€ (the â€œFacilityâ€ Today, however, the same system returns â€œNo records found,â€based on a search for the same Handler ID number, including active and inactive facilities, using only RCRAInfo facility information (see the attached â€œRCRAInfo, fac_search, NCD070619663 (12.28.18) - no active or inactiveâ€file). The system did not include the Facility in searches based upon Facility names that start with â€œOldâ€or include â€œAshevilleâ€(screen prints of these results are attached with this request). I also conducted alternate searches based upon all active or inactive facilities located in Swannanoa, N.C., Asheville, N.C., and Buncombe County, N.C. â€“ the Facility is not identified in any of these searches (screen prints of these results are attached with this request). I request complete copies of: (1) the records that explain why the Facility is not appearing in searches conducted on the RCRAInfo Search site (for example, was the EPA ID Number cancelled?), and (2) if they exist, records that indicate the individual(s) who directed the change that results in the Facility not appearing in searches of the RCRAInfo Search site, and their affiliation (for example, whether the individuals are U.S. EPA employees or state agency employees). Thank you, and Happy New Year.	#########

Through that link there is a mapping system which allows the user to select Superfund Site and see varying information about that site. What we are looking to do is have an internal mapping system of all of these sites similar to this, which would require either coordinate locations or address locations of each. We would want this in order to look at potential impacts to properties we are working on in the vicinity of the superfund sites. Preferably we are looking for an already existing shapefile that shows boundaries of each site.	#########
