EPA-2020-007196	Ms. Dorothy Sammartino	Retired	This is a public records request for all documents pertaining to the discharge of waste water on February 20-23, 2017 by 4 Bros Dairy, Shoshone, Idaho (4 Bros Dairy, 250W 420 N, Shoshone, ID; President/Owner/Manager: Andrew Fitzgerald.) Idaho is in District 10. I have been in contact with Mitch Vermeer, USDA-Boise: Dairy Bureau Chief and he said that I needed to submit a separate request to EPA concerning all EPA records and information on the Waste Water Spill by 4 Bros Dairy, Shoshone, Idaho concerning the EPA. Mitch Vermeer of the USDA said I could only have the USDA's 138 pages that are directly related to the USDA issues in regards to this spill. In the public Twin Falls, Idaho newspaper it has said that charges are still pending in this case. I am requesting to see all public records documents concerning the February 20-23, 2017 Waste Water Spill at 4 Bros Dairy, Shoshone, Idaho and any documents onwards from Feb. 20, 2017. Thank you very much, PII REDACTED Idaho Operations Office â€“ EPA 950 West Bannock, Suite 900	9/28/2020

EPA-2020-007178	Mr. Thomas A. Grieb		This is a FOIA request for a list of all EPA disbursements to the Aquidneck Island Planning Commission (AIPC) under the EPA Island Waters Grant. This was a grant from US EPA Region 1 to AIPC for watershed restoration on Aquidneck Island (RI) under funding opportunity EPA - R1 - SNEP - 2016, CDFA 66.129 in the amount of $996,000. I am requesting the list of individual payments by the EPA to AIPC, what grant deliverables each payment covered and the dates those payments were made over the 4 years of this EPA grant. I would also like the information AIPC provided with their invoices explaining what the requested amounts covered. If the amount the EPA paid was ever different from what AIPC invoiced, I would like the explanation provided to AIPC for the difference. Electronic copies of this information are fine for my purposes and hopefully will make providing the information easier. EPA-R3-2020-007028	Mr. Justin k Holder		in the late 1980s the epa made agreements with maryland over the Chesapeake Bay to reduce nutrients. Part of that meant the epa gave the state grants to install sewer. In 1988 the 4-1 sewer district for Keedysville and Sharpsburg was created in Washington county maryland. Gilbert commonwealth was used to consult and did a study. That study was used to create the boonsboro-keedysville-sharpsburg 201 facilities plan. Please provide the following documents. The grant application from Washington county maryland, the boonsboro-keedysville-sharpsburg 201 facilities plan, any grant applications, cost, drawings related to installation of the sewer. EPA-R6-2020-006955	James Reis		I am looking for the Remedial Investigation (RI) Report pertaining to the following information: The Alcoa/Lavaca Bay Superfund Site is located in Calhoun County, Texas and consists of the Alcoa Point Comfort Operations (PCO) Plant, Dredge Island, portions of Lavaca Bay, Cox Bay, Cox Creek, Cox Cove, Cox Lake and western Matagorda Bay. The PCO Plant is located on the south side of State Highway 35 near the City of Point Comfort, Texas and is adjacent to Lavaca Bay on the west and Cox Creek/Cox Lake on the east (Figure 1). On March 16, 2000, the Remedial Investigation (RI) report for the site was approved by EPA. Numerous investigations of environmental media at the site, both in the Bay System and on the Plant/Mainland, were performed as part of the Superfund investigations. Primarily, these investigations included evaluations of Bay System water, biota, and sediment, and Plant/Mainland ground water and soil. The RI studies were conducted to evaluate: (1) the site environmental setting (i.e., physical characteristics of the site, such as meteorology, Bay hydrodynamics, geology, hydrogeology); (2) chemical characteristics of the site (i.e., nature and extent of contamination of environmental media, such as sediment, surface water, ground water, air, and biota) and the fate and transport of site chemicals within and across these	9/15/2020

EPA-2020-006967	Ryan Elliott		In September 2002, the Ohio River Valley Water Sanitation Commission (ORSANCO) completed a Total Maximum Daily Load (TMDL) Report for PCBs for a 277-mile stretch of the Ohio River that begins at the Pennsylvania and West Virginia border near Chester, WV at Ohio River Mile 40.0, and extends downstream for 277 river miles to the border between Kentucky and West Virginia near Kenova, WV at Ohio River Mile 317.1. This stretch of the Ohio River forms the border between Ohio and West Virginia. The TMDL was developed by ORSANCO on behalf of USEPA, Region 3. ORSANCO is an interstate water pollution control agency for the Ohio River Basin. Because the TMDL was developed on behalf of USEPA Region 3, the TMDL (and other related records) would likely be maintained by USEPA Region 3. That said, because ORSANCOâ€™s membership includes the 8 states contributing drainage into the Ohio River (Illinois, Indiana, Kentucky, New York, Ohio, Pennsylvania, Virginia, and West Virginia), responsive records may also be maintained by USEPA Region 2. Accordingly, pursuant to the Freedom of Information Act, I am requesting: 1. A copy of the Final TMDL Report: â€œOhio River Total Maximum Daily Load for PCBs, Ohio River Miles 40.0 to 317.1. September 2002; 2. Copies of any drafts of the TMDL Report; 3. Comments submitted on the draft TMDL; and 4. EPA-2020-006950	Angie Koenigsberg		Dear FOIA and/or Environmental Protection Agency Associate, I live at 1510 1/2 Mission Street is South Pasadena, CA. I'm in dire need of someone to please have the compassion to honestly disclose the Los Angeles Hazmat test results and/or testing from any private environmental inspectors, for meth and other drug exposure to two neighboring units. Although I can't be sure, I have reason to believe that the testing was done by LA Hazmat on 1512 1/2 sometime this year between August 28th, 2020 and September 2nd, 2020. I don't know if LA Hazmat was allowed to test 1510 or not, as this space is owned by a different landlord who is very dishonest. I should add that I believe mitigation fogging was done several times in both spaces, so evidence likely no longer exist unless I am granted access to tests which were already done. Although I wanted to give you some dates to use as starting points for beginning your search, I need any and all drug test results for these two spaces which were done by any public or commercial entity at any point in time. I also ask that you please follow up after doing the test searches by seeing if anyone confessed and/or was found guilty by any law enforcement entity. I would never willingly expose myself to the kinds of drugs which neighbors have exposed me to through, via drifting 2nd hand air. As a result of this exposure and trying to seek help from my local police and fire departments, I have experienced devastating health effects as well as serious civil rights violations. Namely, I've gotten several heart attacks and many TIA's. My trust in the local South Pasadena Police and Fire departments has been destroyed. As such, I am not willing to set myself up for an exercise in frustration and risk further retaliation	9/14/2020

EPA-R5-2020-006880	Ryan Elliott		In September 2002, the Ohio River Valley Water Sanitation Commission (ORSANCO) completed a Total Maximum Daily Load (TMDL) Report for PCBs for a 277-mile stretch of the Ohio River that begins at the Pennsylvania and West Virginia border near Chester, WV at Ohio River Mile 40.0, and extends downstream for 277 river miles to the border between Kentucky and West Virginia near Kenova, WV at Ohio River Mile 317.1. This stretch of the Ohio River forms the border between Ohio and West Virginia. The TMDL was developed by ORSANCO on behalf of USEPA, Region 3. ORSANCO is an interstate water pollution control agency for the Ohio River Basin. Because the TMDL was developed on behalf of USEPA Region 3, the TMDL (and other related records) would likely be maintained by USEPA Region 3. That said, because ORSANCOâ€™s membership includes the 8 states contributing drainage into the Ohio River (Illinois, Indiana, Kentucky, New York, Ohio, Pennsylvania, Virginia, and West Virginia), responsive records may also be maintained by USEPA Region 2 and Region 5. Per my original request, I am requesting: 1.A copy of the Final TMDL Report: â€œOhio River Total Maximum Daily Load for PCBs, Ohio River Miles 40.0 to 317.1. September 2002; 2.Copies of any drafts of the TMDL Report; 3.Comments submitted on the draft TMDL; and 4.Correspondence between USEPA and representatives of ORSANCO regarding the development and implementation of the TMDL. At that time, we received a certificate certifying that Lead paint hazards have been controlled at the Denverside Apartments. The certificate states that these apartments qualify for the exemption in 24 CFR part 35 and 40 CFR part 745 for target housing being rented or leased that is free of lead - based paint as defined in the rule. Since that time for our Management Operations Review, we were asked for a copy of the letter stating that the entire property was completed. The property is still maintained in accordance to HQS and to date, we have had no incidences with lead paint issues.	9/1/2020

			I request the document that outlines the capital planning process that EPA has implemented pursuant to the requirements in the Nov. 6, 2019 memorandum titled â€œImplementation of Agency-wide Real Property Capital Planningâ€ by Office of Management and Budget Director Russell Vought. This document is described in the following excerpt from that memorandum: â€œEach agency, as defined per 5 U.S. Code Â§ 105, must provide the specified information described below to the [Federal Real Property Council] by August 15th of each year beginning in 2020. An FRPC working group will review the submissions based on information contained in Sections 2 and 3 below. Each agency shall submit a document that outlines the capital planning process the agency has implemented pursuant to the requirements in this memorandum. The document should outline specific actions and components that make up the capital planning process, specifically addressing items in Section 2 of this document. The intended outcome of this document is to ensure that all agencies have a consistent, repeatable capital planning process that can support their mission. The FRPC working group will review the documentation and provide comments and feedback to the agencies to allow for continuous improvement in the capital planning process. Based on the FRPC's recommendation, OMB may waive future submission requirement of an agency's Capital Planning Process Documentation if it determines the agency's planning has matured to be fully compliant with this policy and OMB's Capital Programming

EPA-R6-2020-006551	Mr. Larry Peter Englande	Treadaway Bollinger, LLC	Dear Sir or Madam, My firm represents Ironshore Specialty Insurance Company in a lawsuit pertaining to the sinkhole resulting from the collapse of the OG#3 salt brine cavern within the Napoleonville Salt Dome in Assumption Parish, Louisiana on or about August 3, 2012. It has come to our attention that tremors and other seismic activity; subsidence, erosion, collapse and other damage to real property; damage to improvements upon real property; and the release of liquid and gaseous pollutants preceded, or may have preceded, the formation of this sinkhole on or about August 3, 2012. Pursuant to Louisiana's Public Records Law (La. R.S. 44:1, et. seq.), we request an opportunity to obtain copies of any and all records pertaining to reports of tremors and other seismic activity; subsidence, erosion, collapse and other damage to real property; damage to improvements upon real property; and the release of liquid and gaseous pollutants which occurred or which may have occurred, between January 1, 2012 and June 29, 2012, including but not limited to: reports made by residents and/or business owners of Assumption Parish; investigations of the same by any person or entity; data, evidence and/or findings generated by local, state and/or federal agencies with respect to such activity during that timeframe; and/or any other document, photograph or video related to any or all of the above. Please advise if this request present a problem or if additional information is needed. Thank you in advance, L. Peter Englande, Esq. Treadaway Bollinger, LLC 406 N. EPA-R6-2020-006490	Justin Nobel	Simon & Schuster	To Whom It May Concern, I write on science and environment for US publications and am writing a book for Simon & Schuster on NORM/TENORM in the oil industry. My present research has led me to the request of specific documents from EPA: 1. In a 1999 Argonne National Lab report, DISPOSAL OF NORM-CONTAMINATED OIL FIELD WASTES IN SALT CAVERNS (https://www.osti.gov/servlets/purl/3003) reference is made to a set of letters sent in 1996 between Ground Water Protection Council and EPA regarding the issue of 'the types of waste that can be disposed of in class II injection wells.' The letters are referenced as follows in the Argonne report, and I am looking for a copy of each of these letters: a. "In February 1996, the Ground Water Protection Council asked the EPA to clarify that all exempted oil field wastes can be injected into Class II wells" â€“ PLEASE PROVIDE A COPY OF THIS LETTER b. "In June 1996, the EPA responded to the request in a letter from Robert Blanco, Acting Director of EPAâ€™s Ground Water Protection Division" This letter is cited as follows in the Argonne report, "Blanco, R.J., 1996, letter from Blanco, Acting Director of EPAâ€™s Ground Water Protection Division, Washington, DC, to M.J. Paque, Executive Director of the Ground Water Protection Council, Oklahoma City, OK, on the types of waste that can be disposed of in Class II wells, June 26" - PLEASE PROVIDE A COPY OF THIS LETTER. 2. I understand Lotus LLC operates a NORM disposal facility in Andrews County Texas and that in October 2016 Lotus emailed EPA for clarification in determining whether oilfield waste could be imported to the United States, and that in November 2016 EPA responded with a letter stating oilfield waste could indeed be imported into the United States - Iâ€™VE ATTACHED A COPY OF THIS LETTER, PLEASE SEE PAGE 3. Iâ€™m looking for Lotusâ€™s original October 12, 2016 letter to EPA requesting to import oilfield waste. - PLEASE PROVIDE A COPY OF THIS	8/24/2020

EPA-R4-2020-006372	Jill Mastrototaro	Audubon Mississippi	Please see attached letter request for records pursuant to the Freedom of Information Act, 5 U.S.C. Â§ 552. Audubon Mississippi requests copies of the materials identified below relating to the Yazoo Backwater Pumping Plant Project, Mississippi (the â€œYazoo Pumpsâ€). On June 15, 2020, in response to the U.S. Army Corps of Engineersâ€™ (Corps) April 16, 2020, Federal Register Notice of Intent to prepare a Supplemental Environmental Impact Statement (SEIS) for the Yazoo Pumps, EPA submitted a scoping comment letter to Colonel Robert A. Hillard of the Corpsâ€™ Vicksburg District. In its letter, EPA stated that it had â€œreceived a request for information during the cooperating agency meeting held on May 19, 2020, regarding the proposed models that will be used to assess various natural resources, such as wetlands and fish. EPA provided comments on relevant models to the USACE on June 12, 2020 â€ Accordingly, I am requesting the following documents: 1. The Corpsâ€™ request to EPA for information during the cooperating agency meeting held on May 19, 2020, regarding the proposed models that will be used to assess various natural resources, such as wetlands and fish; and, 2. EPAâ€™s comments on relevant models provided to the USACE on June 12, 2020.	8/14/2020

EPA-R8-2020-006188	Ms. Danielle V Handel	Federal Reserve Bank of Chicago	I am writing to request sampling data for community drinking water systems. I request this data for all states in Region 8 for which the data exists. I am an economic research intern at the Federal Reserve Bank of Chicago researching water pollution and safe drinking water in the United States. I seek all available variables for all available community water systems. I seek data at the level of an individual community water system (i.e., not state-wide totals). I have included a list below of some of the most important variables, but we request any and all variables in the microdata. Some of these data are available online, but I am hoping to obtain a bulk download. Data Request: I am looking for the following data for all time periods that you have data: -Public Water System ID and Name -Public Water System Type and Owner -Public Water System Address (City, State, Zip) -Public Water System Population Served (Population Served, City, County) -Public Water System Primary Source (ground, surface) -Sample Date -Sample Location (i.e., before treatment, after treatment, location within distribution system) -Parameter Name (i.e., Lead, Nitrate, Turbidity, pH) -Parameter Code -Sample Value -Sample Units (i.e., mg/L) -Chemical Group -Sample Non-Detects (if parameter was not detected) -Sample Non-Detect Limit	8/5/2020

EPA-R7-2020-006044	Alex Garel-Frantzen	Schiff Hardin LLP	I have complained that a neighbor applies Ortho Ground Clear in excess to kill all vegetation in concentrated areas and areas prone to runoff and directly effecting wildlife, aquatic life, and potentially harming the water that directly effects a holding pond. Ortho has a product available on store shelves that does contain the purported carcinogenic properties we all have been made aware of and I am very concerned that property owners are not following guidelines as per the label. My concern is the product may kill natural presence of other living plants ie. jack in the pulpit, moss, fungi, etc. The other topic of conversation at stake is weather or not the adjacent property owner is across or within the buffer zone to apply the material. Lastly, I find that Ortho Ground-clear is a product to be taken seriously, should not be available in concentrate form and the owners a statement on the label should make property owners aware of the following: if this product is incorrectly applied and it does harm plants, vegetation or effect natural wildlife, that the part applying the material will be held liable in any civil court proceeding.	7/29/2020

EPA-R10-2020-005779	Mrs. Sharon L Phillips		We purchased the property 6174 W. Van Giesen, West Richland, WA 99353 in August 2007, and are now trying to refinance the business loan at its maturity and the bank will not complete the refinance until we have the documentation on the underground tank removal. Sometime between January 23, 1989, and February 27, 1989, the Benton County Mosquito Control who resided at 6174 W. Van Giesen, West Richland, WA 99353 removed underground tanks. According to their meeting minutes: 1. February 27, 1989 meeting minutes it indicates "We pulled out underground fuel tanks today. They took soil samples and pictures of the area." 2. In their meeting minutes of June 25, 1990, "The Manager stated that he had written to the Department about removing our last heating oil underground storage tank. He said that we received approval to remove it after the 5th of July." 3. The September 24, 1990 minutes "The Manager stated that we had removed the last underground tank and that we had complied with all the regulations concerning the removal of underground tanks." EPA-2020-005753	Mr. Paul Douglas Frantz	self-employed	For a book under contract to Henry Holt & Company, I am looking for records related to a 2017 investigation by the EPA criminal division into potential violations of the Clean Water Act by Cooke Aquaculture Pacific in Puget Sound, Washington. The EPA investigator was Matthew Stratton and the AUSA was Seth Wilkinson in the Seattle US attorney's office. On 8/20/17, a salmon farm owned by Cooke Aquaculture Pacific collapsed, allowing about 300,000 salmon to escape. Within days, Stratton started an investigation, with Wilkinson as his contact point. The subject was potential violations of pollution regulations under the CWA and the targets were Cooke Aquaculture Pacific and at least one of its employees, Innes Weir. The investigation continued through the summer and fall of 2017. It was closed down by EPA in Washington because of a determination that escaped fish did not constitute pollution under the criminal sections of the CWA. A subsequent civil suit against Cooke Aquaculture by an NGO under the CWA resulted in a $2.75 million settlement by Cooke in US District	7/10/2020

EPA-R4-2020-005711	Mr. Hank Whitley	Southport Marina	On April 17th a NCDEQ agent performed a surprise inspection at Southport Marina based on a complaint that was filed. She found no violation and our business was closed due to circumstances surrounding the COVID-19 pandemic. She told people on property that there was a complaint about â€œoil in the ditchâ€ â€œendangerment to the wildlifeâ€ and she was there to investigate. We picked her up on our security cameras and reached out to Dan Sams of NCDENR to find out who the agent was and what triggered this inspection. He explained that DEQ housed more than 20 divisions other than the one he represented, the Division of Energy, Mineral and Land Resources. He also said that he wasnâ€™t aware of this particular inspection but he had included a number of Division Regional Supervisors in the â€œccâ€ in the event someone is aware of this inspector. Very shortly afterwards Megan Faulkner called and identified herself as the agent that came to Southport Marina and proceeded to tell me why she was there. First and foremost she said there were NO violations. I ask her how something like this could happen. We work extremely hard to make sure we do all things environmentally to the tee. We have maintained and are certified as a â€œNorth Carolina Clean Marinaâ€ so this false complaint really offended us. Megan understood and explained that the complaint first went to the EPA in Atlanta then funneled down to her supervisor Tom Tharrington. Tom then sent her to Southport to investigate. Megan indicated that she requested information from the EPA about this complaint but had not heard anything, so she suggested we	7/9/2020

			Hello, I am a journalist for The Intercept. I would like to file a Freedom of Information Act for news gathering purposes. I am requesting copies of written agreements and reports filed under the Intergovernmental Personnel Act (IPA) for all officials appointed under this program during the period of Jan. 21, 2017 through June 25, 2020 to this agency. I am seeking any filings related to Â§334.106, Â§334.107, Â§334.108 and Â§334.103 of the law, which include any written agreements between personnel & agency outlining the responsibilities for personnel, organization documents submitted to obtain eligibility certification under the program, and documents submitted for personnel in compliance with the IPA program, including ethics statements. I am also seeking a list of names of officials hired through the IPA program to this agency. As a member of the new media, I am seeking an exemption to any fees related to this request. If fees are incurred, please notify me if fees related to this request exceed $200. I can be reached by phone at 202-394-9170 and I can be reached by mail at Lee Fang, First Look Media, 604 Mission St., 7th Floor San Francisco, CA 94105. If possible, please send any responsive documents electronically over email to lee.fang@firstlookmedia.net Please do not hesitate to contact me if you have any questions or concerns regarding this matter. The Committee notes that wastewater treatment facilities are some of the largest industrial users of electricity in the nation, and has provided Green Project Reserve (GPR) funds as part of the Clean Water State Revolving Fund to encourage states to improve energy and water efficiency at treatment facilities. In order to better track the ways in which states are utilizing GPR funds, the Committee directs the Agency to develop a uniform reporting framework which states may use to report their GPR spending, and urges the Agency to include tools and metrics that allow states to quantify estimated energy and water savings benefits of these in-vestments. The Agency is directed to brief the Committee on its progress in developing this guidance within 180 days of enactment." EPA-2020-004907	Jennifer Dlouhy	Bloomberg News	In her March 26, 2020 memo on "COVID-19 implications for EPA's enforcement and compliance assurance Program," Susan Parker Bodine wrote that "entities should make every effort to comply with their environmental compliance obligations," but "if compliance is not reasonably practicable, facilities with environmental compliance obligations should" take several steps, including acting to minimize the effects and duration of the noncompliance and identifying the nature and dates of the noncompliance as well as how COVID-19 led to it. That information was to be documented, per the memo. Pursuant to the Freedom of Information Act, 5 U.S.C. Section 552 et seq. ("FOIA"), I am requesting all correspondence sent to EPA's Office of Enforcement and Compliance and/or the agency's compliance and monitoring programs citing the March 26 memo, as well as all communications between EPA and corporate or other government agencies regarding the March 26 memo. If possible, I would like to receive the information in electronic format. EPA-2020-004867	Mr. Michael Ayele	Association For The Advancement of Civil Liberties	Hello, This is Michael A. Ayele sending this message though I now go by W. You may call me W. I, W am writing this letter to file a FOIA/PA request for records. (...) On September 2015 I was declared missing by Montgomery County Media Publication Sonia Burke following numerous calls I had made to have marijuana legalized. USA today also declared me missing. I was also declared missing by Arizona Central, Democrats and Chronicles, Patch and WUSA. I am not contacted by the media before being declared missing. The content of these articles if you have previously read them for your information is mostly false, libelous, offensive and defamatory. What was correctly noted is that I frequented libraries in the Silver Spring, MD; Arlington, VA and Washington D.C area. My request for records are the following. 1) What formal and informal ties does the Environmental Protection Agency (EPA) have with Arlington Public Library, the Callaway County Public Library, the Holocaust Memorial, the Italian Culture and Arts Museum, the Los Angeles Public Library (LAPL), the Martin Luther King Library, the Missouri River Regional Library (MRRL), the Montgomery County Public Library (MCPL), the National Museum of the American Indian and the San Francisco Public Library (SFPL)? 2) Have either employees and/or legal representatives of the media, law enforcement agencies, museums or public libraries in the Silver Spring, Maryland; Arlington, Virginia and/or the District of Columbia ever gone into communication with employees and legal representatives of the EPA about I, W for any reasons mentioned in this request for records or for	5/26/2020

Environmental Protection Agency 1200 Pennsylvania Avenue, NW (2310A) Washington, DC 20460 Re: Freedom of Information Act Request Dear Chief FOIA Officer: This is a request under the Freedom of Information Act. I request that a copy of the following publicly available documents be provided to me: the Class VI Underground Injection Well (UIC) permit application that was submitted by Clean Energy Systems to EPA Region 9, as well as any attachments to or technical documents in support of the application. We understand that Clean Energy Systems submitted its permit application to EPA in February 2020 for the long-term storage of carbon dioxide captured from a project located in California. It also is our understanding that the requested Class VI permit application and accompanying supporting materials are public record once submitted. Importantly, we are not requesting any documents or other information that may have been identified as confidential business information (CBI), or confidential information more generally. We would only like to obtain for review the non-confidential portions of the application and supporting documentation. It is our understanding that the other eight exemptions do not apply in this matter, nor do the three exclusions. We hope that the application and supporting documentation can be submitted to me electronically, thereby eliminating the need for fees related to a paper production. However, if fees are required, I am willing to pay fees for this request up to a maximum of $100. If you estimate that the fees will exceed this limit, please let me know and we can discuss.	5/22/2020

EPA-2020-004693	Mrs. Lisa Verdonik		I previously submitted a request, EPA-HQ-2015-010092, which was arbitrarily closed. The reason stated was due to a fee issue. I had requested a fee waiver, however due process in denying my FOIA was not performed. Please provide all substantiating documentation for the reasoning in denying my request. I received no notice of any kind. I received no phonecall, no electronic alert or U.S. mail delivery. I have been told by FOIA experts that due process alerting me of EPA's denial of my fee waiver and request for me to pay a fee should have been provided. Instead suddenly the matter was closed. I have an open inquiry with the Inspector General that ensured me my records regarding my formal complaint would be available. These records were denied to me during my legal proceedings and as a result I suffered significant financial loss. Since I am still pursuing an action with the Inspector General, I am requesting all documentation regarding the EPA denying my FOIA request and an appeal to obtain the documentation as originally requested in EPA-HQ-2015-010092. 			Dear Sir or Madam, Iâ€™m writing to make a FOIA request for data pertaining to fuel consumption by throttle notch for the locomotive engine families listed in the Annual Certification Data for Locomotive Engines, Idle Control Systems, and Non-OEM Components, which may be found via this link: https://www.epa.gov/compliance-and-fuel-economy-data/annual-certification-data-vehicles-engines-and-equipment If I can provide any clarification that will help expedite your attention to my request, please contact me at 11032245@cc.peralta.edu It is my understanding that these documents exist in an electronic file format, as individual .pdf or .zip files, and I request that a copy be provided to me in this format. I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in my commercial interest. I am a student in a diesel mechanics program, and I will be using this document to augment my studies. I have seen many reports from your agency about the challenge faced in recruiting staff with railroad expertise, and Iâ€™m guiding my studies to meet this demand. If a fee must be assessed, and you estimate that it will be in excess of $10.00, please inform me via e-mail at 11032245@cc.peralta.edu before you duplicate the records. I know that priorities and the availability of staff time have changed in the current crisis, and Iâ€™m glad to accept a longer response time than that specified in the FOIA statue. EPA-R4-2020-004298	Mr. Nicholas Tabor	St. Martin's Press	I am writing to request a series of records under the Freedom of Information Act. I hope to obtain copies of any and all documents that detail emissions from two paper mills in Mobile, Alabama, from the first available date through the year 1987. The facilities in question are International Paper (site ID ALD008161861) and Kimberly-Clark (also known as Scott Paper â€" site ID ALD008149858). I recognized that this request is quite broad. If necessary it can be narrowed down two sets of specific documents I have identified that address the matter in question: 1. A study the EPA conducted after a January 1970 hearing, wherein it found the Mobile Bay to be â€œgrossly polluted,â€ and the Mobile Bay cleanup plan that followed (which was approved by the EPA chief at the time, William Ruckelshaus, in March of 1971). (A relevant news clipping is attached.) 2. Any and all discharge permits the EPA may have granted to these companies (a notice of a 1974 permit is attached as an example). I would also like to request copies of any documents related to violations of environmental laws (e.g. the Clean Air Act or the Clean Water Act) that the mills may have committed, from the earliest date available up to the present day (April 22, 2020).	4/22/2020

			Pursuant to the Freedom of Information Act, we request the following documents: 1. All requests that U.S. EPA issued in or about December 2019 to any recipient under the authority of Section 114 of the Clean Air Act as part of the â€œEthylene Oxide Commercial Sterilization Section 114 Survey.â€ (See https://www.epa.gov/stationary-sources-air-pollution/section-114-survey-instructions-ethylene-oxide-emissions-standards.) 2. The public (non-CBI) versions of all responses U.S. EPA received in response to information requests that U.S. EPA issued as part of the â€œEthylene Oxide Commercial Sterilization Section 114 Survey.â€ (See https://www.epa.gov/stationary-sources-air-pollution/section-114-survey-instructions-ethylene-oxide-emissions-standards; see p. 4 of the linked-to pdf document for a description of requested non-CBI submissions.) This request includes Excel documents submitted to U.S. EPA, as well as other documents (whether embedded in the Excel documents or provided separately). Please note that this request does not include any confidential business information; Item #2 of the request seeks only the non-CBI portion of each respondentâ€™s submission. We would prefer an electronic copy of the requested records. For Item #2 of the request, we would prefer to receive the same file format that was submitted to U.S. EPA.

EPA-2020-004017	Mr. Michael Ayele	Association For The Advancement of Civil Liberties	I was detained in the McDonalds located between the Food & Drug Administration (FDA) and White Oak Library in March 2015. I was detained at the McDonalds located 11146 New Hampshire Ave, Silver Spring; MD. and then taken to Washington Adventist University Hospital (also known as Adventist Healthcare, White Oak Medical Center). My personal health information (PHI) from Washington Adventist University to this day has not been disclosed. Will you join me in moving to call upon Washington Adventist University Hospital to promptly disclose my PHI? Have you had the opportunity to read Johnatan Metzl book entitled "Schizophrenia: The Protest Psychosis?" Will you join me in moving to implicitly & explicitly denounce others looking to use the diagnosis of schizophrenia to socially alienate, delegitimize, discredit, exclude, marginalize & ostracize others? I am just concerned: I am worried. The Department of Justice (DoJ) had published their investigation of the Ferguson Police Department pursuant to violent crime and omnibus act the same month I was detained. Took place in Richmond, VA a gun rally on January 21st 2020. Virginia Governor Northam had previously declared a State of Emergency. I have been in on and off correspondence with the U.S Court of Appeals located 1100 East Main Street, Richmond; VA. Have you ever registered an account with the Public Access to Court Electronic Records (PACER)? How to universalize background checks? 			Good Afternoon, Iâ€™m doing a Phase I environmental site assessment on a property in Conway, Arkansas and Iâ€™ve found 4 US Brownfields (found on â€œCleanups In My Communityâ€ map) within half a mile of it that I was hoping you would have more information on. The sites are: 1) The Earl Rogers Building at 1002 Oak Street 2) Hines Service Center at 714 Harkrider Street 3) Residential Building (Listed as Habitat For Humanity House #21) at 503 Monroe Street 4) Satterfield Station at 700 Front Street I would like to know: 1) Is there a reason all of the Phase Iâ€™s were started on the exact same date? 2) Do you have the Phase Iâ€™s available for me to view? If not, was there any contamination found/suspected on site? 3) If there was contamination, was there a cleanup? Iâ€™d appreciate any help or information you might have on these properties. Thank you for your help!	
EPA-2020-003989	Mr. Thomas Schichtl	Nabholz Environmental Services	Boiler records regarding asbestos at the Naval Reactor Facility in Idaho. Also regarding the attached document please provide the below documents for dates from 1966-2004. For many years, NRF and INL subcontractors have conducted environmental monitoring to demonstrate that NRF is being operated in accordance with environmental standards. The results have been published in the NRF and INL annual reports provided to federal, state, and local officials. These publicly available reports demonstrate that NRF's monitoring practices meet and are often more strict than the requirements of applicable laws and regulations. The monitoring results confirm compliance with environmental standards. thank you	4/3/2020

EPA-R1-2020-003972	Ms. Kylie Armo	Taylor Research Group	Pursuant to the Freedom of Information Act (FOIA) (5 U.S.C. Â§ 552), Taylor Research Group (â€œTRGâ€) hereby requests access to copies of any and all records, investigations, reports, manifests, and correspondence in the possession, custody, or control of the U.S. EPA related to the transformers sent by Central Maine Power (CMP) to the Oâ€™Connor Co. Superfund site in Augusta, Maine between 1952 and 1978. We are interested in any records related to the origin site, transportation, receipt, disposal, and/or polychlorinated biphenyl (PCB) content of the transformers sent from CMP to Oâ€™Connor. According to documents held on the U.S. EPAâ€™s Oâ€™Connor Superfund profile, between 1952 and 1978 the F. Oâ€™Connor scrap yard received various wastes, including electrical transformers, from CMP. Some of this equipment contained oil contaminated with PCBs. According to the siteâ€™s Remedial Project Manager, there are 875 documents in the U.S. EPAâ€™s Oâ€™Connor site record database, but only around half of these have been published publicly. TRG requests that a thorough review be conducted of this database, as well as of any other potentially relevant databases or records collections, for documents related to the CMP transformers sent to the Oâ€™Connor site. We recognize that the volume of records responsive to this request may be large. In the past, TRG has worked with government agencies to arrange an in-person visit to review files referenced in our request. Please let me know as soon as possible if this arrangement would be feasible.	4/3/2020

			I request the briefing described in the following excerpt from Senate Report 116-123: â€œFreedom of Information Act [FOIA]. â€” The Committee is aware of concerns about the EPAâ€™s â€˜Freedom of Information Act Regulations Updateâ€™ final rule, 84 Fed. Reg. 30028, promulgated on June 26, 2019. The Committee wants to ensure that such regulatory changes do not result in undue delays, redactions, and the withholding of information in contravention of the intent of the FOIA statute. To better understand the impact of the final rule on EPAâ€™s compliance with the requirements of FOIA, the Committee expects EPA to provide a quarterly briefing to the House and Senate Appropriations Committees and the committees of Jurisdiction for each quarter that the rule remains in effect to provide information on the implementation of the rule and its impacts on FOIA responses. The briefings should include detail on the number of times that agency officials issue final determinations described in the rule and the specific statutory exemptions invoked in instances where an official issues a final determination outlined in the rule to withhold a record or a portion thereof.â€ Please see page 79 of Senate Report 116-123 for more detail on this report (https://www.congress.gov/116/crpt/srpt123/CRPT-116srpt123.pdf). I also note the joint explanatory statement of Division D of the Further Consolidated Appropriations Act, Public Law No: 116-94, that requires Senate Report 116-123 be complied with.

EPA-2020-003924	Kevin Bogardus	E&E News	I request the briefing described in the following excerpt from Senate Report 116-123: â€œSmall Remote Incinerators. â€” The Committee believes the Agencyâ€™s efforts to regulate small remote incinerators [SRIs] will have negative impact on remote areas in Alaska where traditional waste disposal methods are unavailable. Because SRIs in Alaska are used to manage food waste, elimination of SRIs would result in the in-ability to dispose of food waste in a timely manner, resulting in a situation that creates an attraction to wildlife and increases the potential for potentially lethal humanâ€”wildlife contact. Additionally, many Alaska sites have no road connection to landfills so waste will often have to be flown via fixed and rotary wing aircraft to landfills as far away as 65 miles. In its original efforts to regulate SRIs, the Agency recognized these issues and exempted SRIs in Alaska. Following the Agencyâ€™s decision to reverse course because of a court decision, the Committee and stakeholders have at-tempted to work with the Agency for at least 4 years. Unfortunately, those efforts have not resulted in any relief for users of SRIs in Alaska. Therefore, the bill includes language delaying enforcement as the Committee, stakeholders, and the Agency work to-ward a solution. The Committee appreciates the work of the Agency and encourages all parties to find a solution by the end of fiscal year 2020. The Committee directs the Agency to brief the Com-mittee on its progress on a quarterly basis â€ Please see page 88 of Senate Report 116-123 for more detail on this report (https://www.congress.gov/116/crpt/srpt123/CRPT-	4/1/2020

EPA-2020-003890	Ms. Haley Doll	To whom it may concern My name is Haley Doll and I am a student at Southern Connecticut State University. I am currently looking for some information about the environment for a research project in my journalism class. As the population grows and mass production increases, many aspects of our daily life are changing. I am working on finding data to answer the question, â€œWhy going vegan can help the environment?â€ I am requesting data that includes the effects that mass animal production on the air. On the EPA website I was able to find the Overview of Greenhouse Gases. I was hoping to see if you had data on how much of those greenhouse gases is produced by the making of animal-based foods including meat, fish and dairy. If possible, I would need this information in an Excel spreadsheet. I am hoping to see how mass production of these animals for meat is accelerating climate change. I am a student requesting this information as part of an educational research project, which may be submitted for publication in a local or student news outlet or posted on a public website. As such, I request a fee waiver for the documents.	3/30/2020

EPA-2020-003877	Ms. Miranda Safir	University of Oxford	Hello, My name is Miranda Safir. I am an American graduate student completing my Masters of Evidence-Based Social Intervention and Policy Evaluation at the University of Oxford. I am writing my thesis on Phenibut (see attached doc for other spellings), because I am studying emerging trends in drug misuse. This substance is not classified as a supplement or food. It is a chemical. I believe the EPA might have information on it. I am very interested in incidents of people ingesting it or being impacted by the chemical. Any documentation on the imports of the chemical, scientific literature or studies conducted by the EPA or supported by it, any document or data mentioning the substance would be of great help. There was one document that appeared when I searched the EPA website for Phenibut, but it would open. I would like this document as well as any other documents or data on Phenibut. EPA-HQ-2020-003836	Mona Dai	Harvard University	We are requesting data on historical treatment technologies for public water systems (PWS) from the Safe Drinking Water Information System (SDWIS). We request data on treatment processes and names of counties served for 93,143 PWS IDs (identified in the supplemental file) for all quarters from 1975 to 2019 (if the full quarterly data is unavailable, we request data from the most recently available quarter/year data available). Where available, we also request information that is typically available through the Facilities Report on SDWIS, including facility activity, facility deactivation date, water type description, PWS type, primary source, filtration status description, treatment objective, etc. For context, I am a PhD student researching drinking water. A previous member of our research group, Cindy Hu, reached out to Alex Poreteous, Michael Plastino, Gregory Caroll, and Andrew (Andy) Lindstrom in 2018 regarding gathering historical treatment technology information for PWS IDs that date further back than 2013 for what is currently available online from the SDWIS Reporting Services Site reports. In the e-mail exchange, Alex Poreteous suggested pursuing a FOIA request to gather this information. As a result, we are following up on that suggestion. The same list of 93,143 PWS IDs are available in the attached PWSID_FOIA_Request.xlsx file. The e-mail exchange between our research group and EPA is also attached for reference. I would expect them to have been sent hardcopy, but I would also expect the agency to have them in an electronic file somewhere. oIf it is helpful to you, given current office inaccessibility, you may limit your search to "Notice of Violation" (a/k/a "NOV"). oIf it is helpful to you, you could also limit your search to include the word "Pratt". â€¢If you still think such a search would take months, then please drop the "communications" bit, as we are most interested in WWTP's annual reporting. Thank you for reaching out. Hope you & yours are healthy and safe! Cheers, Julia

(TEAM) is conducting a Phase I Environmental Site Assessment (ESA) of a commercial property located at 182 North Street in the City of Rye, Westchester County, New York. The property is currently owned by Vasile Property Inc. The site is occupied by Rye Auto Collision Works LLC. Review of a federal/state environmental database revealed that the the site was identified in the MANIFEST, RCRA-VSQG, FINDS, and SEMS-ARCHIVE (NFRAP) databases. The site was identified as Rye Auto Collision Works (US EPA Site ID No. 0202652). TEAM requests USEPA records for the subject site concerning any EPA involvement, Technical Directive Documents, spill events, inspections, compliance issues, violations, tank installations/closures, site investigations, remedial activities, hazardous and solid waste, water quality information, subsurface disposal systems, drywell or floor drain closures, water supply wells, law enforcement, permits, etc. We have unsuccessfully reviewed the US EPA's "MyProperty Environmental Database" and were unable to find any agency information associated with the property (several address variations tried). In addition to our request for information, we ask that the EPAâ€™s FOIA Public Liaison contact me at 518-668-3404 to assist us (TEAM) in finding EPAâ€™s information. Again, we know that EPAâ€™s information is available through the MYPROPERTY portal - but we can NOT find it and request help. I look forward to hearing from the EPAâ€™s Liaison (518-668-3404). EPA-R3-2020-003297	Mr. Jerimi Yost	TMS International, LLC	TMS International, LLC (TMS) received a Notice of Noncompliance/Opportunity to Show Cause Letter dated October 31, 2019 on November 7, 2019. The letter was sent to our facility located in West Mifflin, PA and forwarded on to our Environmental Engineering Department in our Horsham, PA corporate office on November 13. In the letter â€œperformance test data collected from numerous scrap shredding facilitiesâ€was mentioned as a reason EPA has issued the Notice of Noncompliance/Opportunity to Show Cause letter. TMS has not seen the performance test data, nor the data collection or test protocols and would appreciate the opportunity to review the data and testing protocols prior to a meeting.	2/27/2020

EPA-2020-003183 Matthew Phelan 2/21/2020

EPA-HQ-2020-003185	Matthew Phelan		To Whom It May Concern: Pursuant to the Freedom of Information Act, I hereby request the following records: Copies of all correspondence, written or electronic; memoranda; faxes; and all other written or electronic communications produced as a consequence of the 1996 to 1998 investigation conducted by EPA Special Agent in Charge Scott West regarding environmental hazards, toxic material disposals, and other issues of both ecological concern as well as human health and safety concern, at the Groom Lake facility in Nevada, also know as Homey Airport (KXTA), or colloquially "Area 51." This report is nearing 25-years-old and my hope is that documents peripheral to the report itself can be released in some form soon. I am requested the classified report in a separate FOIA request, so as to avoid the potentiality that either request could delay the other, if handled in tandem. (For reference, the report was discussed in a December 16, 2000 article in the Las Vegas Review-Journal by Keith Rogers, and elsewhere in the media: https://cryptome.org/area51-lie.htm) PLEASE NOTE: I am a freelance reporter and would request that the relevant fees be waived. My past work has appeared at Slate.com, the New Republic, the New York Review of Books, Inverse.com, Scienceline.org, Gawker, Earther, Chemical Engineering magazine, and elsewhere. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20	2/21/2020

EPA-R3-2020-003182	Mr. Michael Macheski	TRC Environmental Corporation	I did a search on 1/28/2020 on the EPA's MyProperty search website and did not find any results for "6318 Chillum Place Northwest, Washington, DC). I am looking for any environmental records related to the "Tenleytown Trash" or "Tenleytown LLC", which conducts business at that address. Specifically, I am looking for any records related to spills, releases, and any environmental non-compliance or violations. Additionally, on the EPA ECHO database, I discovered that the EPA conducted a Clean Water Act NPDES inspection of the facility on 6/19/2018. This does not show up when searching under "Tenleytown LLC" or "Tenleytown Trash", just Tenleytown, or the address. However, the EDR database report links to an ECHO database entry with the following hyperlink: https://ofmpub.epa.gov/enviro/fii_query_detail.disp_program_facility?p_registry_id=110070368617 that further leads to this link: https://echo.epa.gov/detailed-facility-report?fid=110070368617 which shows an "ICIS_NPDES" CWA inspection by EPA on 9/05/2018, with 6 violations listed.	2/20/2020

EPA-HQ-2020-003139	Kevin Bogardus	E&E News	I request the briefing described in the following excerpt from the joint explanatory statement of Division D of the Further Consolidated Appropriations Act, Public Law No: 116-94: â€œMaintaining IRIS Program Integrity.- The Agency is directed to continue funding for the Integrated Risk Information System (IRIS) program at the fiscal year 2017 level and to continue the program within the Office of Research and Development (ORD). Within 60 days of enactment, the Agency is directed to brief the Committees on the IRIS FTE structure and the detail of IRIS FTEs to support other, non-IRIS, Agency programs, as well as to support other Executive Branch agencies. The Agency is expected to fully cooperate with the Committees' requests for information.â€ Please see page 41 to 42 of the joint explanatory statement of Division D of the Further Consolidated Appropriations Act, Public Law No: 116-94 (https://docs.house.gov/billsthisweek/20191216/BILLS-116HR1865SA-JES-DIVISION-D.pdf).	2/18/2020

EPA-R1-2020-003122	Erin Thomas		This request seeks any records concerning EPA Region 1â€™s and EPA Headquarters basis for not granting the September 30, 2019 and October 7, 2019 peer review requests (excluding any records submitted by the communities to EPA through the peer review requests). Modified on 2/28/20 - #003122: limit the request to only the specific analysis that EPA relied on for not granting the September 30, 2019 and October 7, 2019 peer review requests. We are not seeking email communications, only the backup electronic file records for the See attached PDF. Background This request is submitted by the Center for Regulatory Reasonableness for records related to the Draft Great Bay General Permit, published in the Federal Register on January 7, 2020. By way of background, the Great Bay General Permit concludes that a 100 kg TN/ha-yr watershed load limitation is required to ensure compliance with the New Hampshire narrative criteria for nutrients. This is a â€œnewâ€ regulatory mandate, not presently identified in the MS4 General Permit for New Hampshire, that imposes significantly greater TN load reduction requirements for all MS4 communities located in the Great Bay system. This recently announced watershed load reduction requirement will adversely affect New Hampshire MS4 communities by altering compliance responsibilities presently established within the New Hampshire MS4 General Permit. On September 30, 2019 and October 7, 2019, communities in Great Bay (i.e., City of Dover and City of Rochester) submitted letters to EPA Region 1 and the EPA Assistant Administrator for Water David Ross, requesting a peer review of EPA Region 1â€™s method for deriving the water quality-based effluent limitations for wastewater treatment plant discharges in the Great Bay Watershed that was ultimately utilized in the Great Bay General Permit. EPA 2 Region 1 did not grant the two peer review requests of the Regions water quality-based effluent limitation derivation method on December 19, 2019 because EPA had yet to issue a draft permit and fact sheet at that time (attachment). I request that a copy of all documents containing the following information be provided to me: any form of communication (e.g., white papers, memorandums, emails) related to the National Defense Authorization Act for Fiscal Year 2020. Specifically, I would like to a copy of documents that detail justifications/reasonings to why the following three provisions were dropped from the final NDAA: 1. Restricting PFAS discharges from manufacturers into drinking water supplies under the Clean Water Act. 2. Requiring water utilities to reduce the amount of PFAS in tap water under the Safe Drinking Water Act. 3. Designating PFAS as â€œhazardous substancesâ€ under the federal Superfund law that requires cleanup of the most contaminated sites. I request that you use the following key search phrases: "PFAS," "Clean Water Act," "Safe Drinking Water Act," "Superfund," and "contaminated site." I would like all related documents from any date leading up to when this request is being fulfilled. In order to help to determine my status to assess fees, you should know that I am a graduate student of The George Washington University, Milken Institute of Public Health, and this request is made as part of a research project for educational use and not for commercial use. I request a waiver of all fees for this request. EPA-R2-2020-002959	Rachel Reilly	Taylor Research Group	Taylor Research Group, LLC requests any records/documents related to the BCF Oil Site located at 360-362 Maspeth Ave. held by EPA Region 2 between the years 1966-2008 as well as inspection reports for the Brooklyn Union Gas Company. In particular, we are requesting documentation related to two parallel pipelines that were installed in 1966 by the Long Island Pipeline Corporation (which later became Buckeye Partners, LP) on an easement on the BCF Oil Site that was granted by Chevron Oil Company. The pipelines were removed between 2006-2008, as noted in the following reports (see excerpts attached): In â€œSuggestions Concerning Streamlining the Characterization Effort in Support of Reuse at the BCF Oil Site Brooklyn, New Yorkâ€ prepared by Tetra Tech Em Inc. for the U.S. Environmental Protection Agency Office of Superfund Remediation and Technology Innovation in May 2008, it was noted that â€œ[â€¦] pipelines connected the aboveground storage tanks (AST) and underground storage tanks (UST) on the former Brooklyn Union Gas Company (currently Keyspan Energy Delivery) property to the north, and to a dock on the English Kills. Aerial photography suggests the pipelines from the former Brooklyn Union Gas Company were removed in the last 2 years. These pipelines are visible in the aerial photography included as Enclosure 1â€ (pg. 4). In â€œDemolition Report BCF Oil Site 360-362 Maspeth Avenue, Brooklyn, NYâ€ prepared by Comprehensive Environmental Utility Services, LLC for the New York State Dept. of Conservation in January 2008, it was indicated that Newtown Development LLC retained CEUS to	2/11/2020

EPA-2020-002937	Mr. James Chelmowski		Full Request is Uploaded Summary: This FOIA request is for the documentation of the all EPA searching email capabilities and limitations using the EPA software including but not limited to the EPA Office 365 which the EPA identified it has the G3 license with utilizes the Microsoft's Security and Compliance Center (SCC). The FOIA responsive records must include but not limited the documentation limitations the EPA identified in an email to the Requester on how much data the agency can download each day, the special Microsoft content search instructions that only can be conducted by manually input of each email when Microsoft G3 license allows searching over all email boxes without manually inputting email addresses, etc. Apparently, the US taxpayers are paying for the EPA Microsoft Office 365 G3 licenses and not being provided the services Microsoft states are included in the license the US Taxpayers are paying for. The Taxpayers should know as EPA says Microsoft is cheating the US taxpayers or the statements the EPA is providing this Requester are false. Facts: Now on 2/7/20, it was identified by the EPA that the EPA version of Microsoft 365 Government Cloud license G3 does not have certain features Microsoft provides to all other of Microsoft clients except the EPA. EPA-R4-2020-003241	Mr. Bennie G. Thompson	Member, House of Representatives	This letter is a request for records in accordance with the Freedom of Information Act (5 U.S.C. Â§552). This letter is pursuant to a constituent request that my office facilitate information relative to the Yazoo Backwater Pumps project (the "Yazoo Pumps"). As Congressman for the second congressional district of Mississippi, I am writing to you to draw your attention to the critical flooding and infrastructure issues that are impacting my district in Mississippi as well as throughout the state. These issues of flooding have persisted over the years and has worsened as evidenced by the aftermath of a severe tornado storm that left approximately 500,000 acres of the Mississippi Delta under water just last year. The Environmental Protection Agency (EPA) issued a Clean Water Act 404(c) Final Determination prohibiting construction of the Yazoo Pumps on August 31, 2008. However, during an April 3, 2019 hearing before the Senate Appropriations Subcommittee on Energy and Water Development, EPA Administrator Wheeler confirmed that EPA was reconsidering that 2008 Final Determination. As used in this request, the term "Documents" means all records or written or printed materials, including letters, memoranda, analyses, studies, reports, meeting summaries, agendas, photographs, and any other relevant documentation, whether in draft or final form, or in the form of e-mail messages, documentation of telephone conversations, handwritten notes, and other mediums of communication. EPA-R1-2020-002670	Erin Thomas		See attached PDF. Background: EPA has indicated in various meetings and correspondence that the Great Bay Estuary is impaired by nitrogen and those nitrogen levels are precluding the restoration of eelgrass beds to historical levels. EPA has also stated that the maximum TN load to the system cannot exceed 100 kg-TN/ha-year as such loading precludes eelgrass presence in estuarine embayment. See, draft General Permit issued January 2020. Request: This request seeks: â€¢ Any analysis prepared by EPA or DES that evaluated whether the hydrodynamic and other physical characteristics of Great Bay Estuary are similar to the systems studied by authors Valiela, Cole, and Latimer in the papers cited in EPAâ€™s General Permit Fact Sheet. â€¢ Any EPA records identifying the forms and sources of nitrogen used to estimate system nitrogen loadings in the charts developed by Valiela, Cole, and Latimer cited in EPAâ€™s General Permit Fact Sheet. â€¢ Any records used to develop the General Permit effluent limitations in concluding that TN must be limited on an annual and not growing season basis to protect eelgrasses in the Great Bay system *** This request only seeks existing agency records and does not ask for the agency to conduct any new analysis or develop new records.	1/31/2020

EPA-R9-2020-002654	AnnMarie Hilton		Dear FOIA Officer: My name is AnnMarie Hilton. I'm a reporter for The Sheboygan Press, part of the USA Today Network-Wisconsin. This is a request under the Freedom of Information Act. Under FOIA, I'm requesting: any and all records, documents or other materials related to the investigation into Kohler Company's violation of the Clean Air Act and California law, as noted in this release: https://www.justice gov/opa/pr/department-justice-epa-and-state-california-clean-air-act-settlement-kohler-co-will-reduce. I recognize there might be a large quantity of records associated with this, so I am happy to talk on the phone to figure out a way to avoid it being unduly burdensome for you. This is for a possible news story. As such, I ask that any fees be waived as law allows. Please convey the information to me electronically to this email address: ahilton@gannett.com. EPA-R3-2020-002647	David B Graham	Kaufman & Canoles, P.C.	On July 8, 2019, EPA responded to a FOIA filed by Patrick Genzler on behalf of a number of parties that had received GNLs at the Peck Iron & Metal Site. The purpose of this correspondence is to request EPA to supplement the July 8, 2019 FOIA response with material related to the Site that the agency must have overlooked in its files. The voluminous response that we received last July consisted of over 8,000 documents. It did not include, however, responses to Section 104(e) letters from dozens of parties that received the letter (see attached chart). Given the penalties associated with not responding to EPA Section 104(e) letters, it is difficult to imagine that so many parties ignored 104(e) letters regarding this Site. I would assume that the more likely scenario is that these responses were inadvertently omitted when the FOIA response was prepared. Please ask your records department to review this list of parties and provide copies of any responses to the Section	1/31/2020

The Agency is directed to provide to the Committees, within 30 days of enactment, separate targets for onsite inspections and offsite compliance monitoring activities for fiscal year 2020, and similar separate target and actuals data from the previous five fiscal years. Further, the Agency is encouraged to present targets for these activities separately in future budget requests."	1/21/2020

EPA-2020-002338	Kevin Bogardus	E&E News	I request the briefing and the report described in the following excerpt from Senate Report 116-123: "Radiological Limits. â€" The Committee is concerned that EPA Region 4 is creating new standards and limits for setting cleanup goals at sites managed by the Department of Energy. The EPA is directed to brief the Committee within 30 days of enactment of this act on the rationale for permitting individual Regions to create their own standards and limits, rather than using existing Nuclear Regulatory Commission [NRC] radiological limits for the Comprehensive Environmental Response, Compensation, and Liability Act [CERCLA] sites managed by the Department of Energy where such limits exist. Further, EPA is directed to provide a report on any instances where it has proposed radiological limits different from existing NRC limits for CERCLA sites managed by the Department of Energy, including the technical rationale and data that supports the EPAâ€™s proposed limits." EPA-HQ-2020-002337	Kevin Bogardus	E&E News	I request the briefing described in the following excerpt from Senate Report 116-123: "Interagency Coordination on Flood Reduction. â€" The Committee is concerned by the consequences of frequent and severe flooding within Federal flood control project areas. A major disaster declaration under the Stafford Act was issued for the lower Mississippi River Valley on April 23, 2019, due to months of severe flooding that caused significant damage to infrastructure and the environment. In 2008, the Environmental Protection Agency disapproved of the Corpsâ€™ recommended plan for remaining unconstructed features after the Corps had completed a complex system of improvements in the area as authorized by Congress. As flooding remains a significant problem in the lower Mississippi River Valley, the Committee understands that EPA is working with the Corps to explore alternatives to provide a balanced approach to the flood dam-age reduction and environmental needs of the affected area. EPA shall brief the Committee within 30 days of the enactment of this Act on this matter." Please see page 86 of Senate Report 116-123 for more detail on this report (https://www.congress.gov/116/crpt/srpt123/CRPT-116srpt123.pdf).	1/21/2020

The 45 LaFayette Avenue parcel which is a paved parking area, is owned by Invest Co. (Investco). The 55 LaFayette Avenue lot, which contains the former Benfield Control Systems building, is owned by Southway Investco LLC. Former site occupants reportly have included Benfield Control Systems, Benfield Electric Supply, Midland Processing, Main Tool Supply, and R.B.M. Iron Works. TEAM was informed that the site was granted NFRAP status from the EPA in 1990. We are in possession of a Technical Directive Document Nos. 02-9008-55/Contract No. 68-017346 (December 31, 1990 Final Draft Site Inspection Report). Said paperwork originated out of EPAâ€™s Edison, New Jersey office location. We reviewed the USEPA's "MyProperty Environmental Database" and was unable to find any agency information associated with either the 45 or 55 LaFayette Avenue parcel (address variations tried). TEAM requests USEPA records for the subject site concerning any EPA involvement, spill events, inspections, compliance issues, violations, tank installations/closures, site investigations, remedial activities, hazardous and solid waste, water quality information, subsurface disposal systems, drywell or floor drain closures, water supply wells, law enforcement, permits, etc. As our Client is under a tight time-frame, any effort to expedite this FOIL request would be greatly appreciatedâ€¦Thank you! EPA-2020-002160	TRAC Office Administrator TRACFOIA	Transactional Records Access Clearinghouse/SU	We previously submitted the enclosed FOIA request dated October 14, 2019 to the Department of Justiceâ€™s Office of Information Policy for specific items of information concerning its receipt and processing of FOIA requests contained in the agencyâ€™s FOIA database system. In the attached November 12, 2019 FOIA response, OIP directed that our request for OIPâ€™s records should not be directed to them, but instead be directed to the Environmental Protection Agency (EPA), which administers the FOIAonline tracking system and contains the records we are seeking. We were told that EPA had previously furnished OIP with similar OIP FOIA records covering earlier time periods. Accordingly, we are submitting this FOIA request asking that the EPA provide us with the records requested in the attached October 14, 2019 FOIA letter that we originally sent to OIP. Please let us know if you need any additional information, or if we can assist you in any way in processing this request. Thank you.	1/8/2020

All communication to/from Greg Sheehan, former deputy director of FWS, regarding the Seven Hills Mine", "Seven Hills mine" "7 Hills" or "7H" in Indiana from September 1, 2017 - December 31, 2019. All communications to/from Todd Willens regarding the Seven Hills Mine", "Seven Hills mine" "7 Hills" or "7H" in Indiana from September 1, 2017 - December 31, 2019. All communication to/from Scott Mason regarding the Seven Hills Mine", "Seven Hills mine" "7 Hills" or "7H" in Indiana from September 1, 2017 - December 31, 2019. I am requesting these documents as a full-time member of the news media. As a representative of the news media this request is made as part of news gathering, the documents will be made available to the general public, and are not for a commercial use. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in my commercial interest. Specifically, the documents will contribute to public understanding the environmental effects of coal mining and the pursuant laws in effect to regulate it. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 10 business days.	1/7/2020
EPA-R2-2020-002137	Mr. Leonard Gero	Towers Assoc.	A copy of all studies, permits and/or approvals issued since 2014 by the EPA/DEP affecting the Hackensack River and/or Overpeck Creek authorized as a result of application (s) for development of Block 451.05 in North Bergen, Hudson County, NJ and Block 155 Lots 1.03, 1.04, and 6 in Secaucus Hudson County, NJ . The proposed North Bergen Project, a 325,000 sq. ft. fulfillment center proposes to raise the site approx. four (4) and a half feet, possibly adversely impacting the surrounding wetlands drainage capability. We would like to see the calculations and studies done in regard to assuring adequate capacity of the current adjacent drainage areas and our access road on Paterson Plank Road which is currently at a much lower grade than proposed. We are most concerned, as the adjacent property owners, with the proposed 20 acre increase in site elevation from the current approximately three (3) and a half to seven (7) feet or more. In addition to the fact that the 20 acres are abutting Route 3, Paterson Plank Road and NJ Turnpike 16E, which are all at the lower levels and utilizing the same drainage sources. Thank you.	1/7/2020

EPA-HQ-2020-002047	Mr. Mike Soraghan	E&E News	I am requesting correspondence as detailed in the attached request. Mike Soraghan and E&E News appeal the denial of records listed in the denial log (attached) for FOIA EPA-R6-2019-009084. The exemptions listed have been applied in an overly broad manner to withhold documents. The main exemption that has been used in this case to justify denial of records is Exemption 5, specifically attorney-client privilege. But Exemption 5 does not justify withholding documents where the agencyâ€™s decision-making process is itself at issue. This is a request for documents about a case against a refinery that was closed out without any apparent documentation or notation in the public record. The reason these documents have been sought is to ascertain why the matter was closed. According to EPA documents and spokespersons, the case was closed less than two months after a lobbyist contacted the EPA Chief of Staff about this specific case. The documents might show whether or not the reported dismissal had anything to do with that contact. Viewed in light of Mr. and Mrs. â€œBâ€ v. Bd. of Ed. of Syosset Cent. Sch. Dist., 35 F. Supp. 2d 224, 230 (E.D. N.Y. 1998); Burka v. N.Y.C. Transit Authority, 110 F.R.D. 660, 667 (S.D. N.Y. 1986), the records should be released. Additionally, to qualify for the attorney-client privilege exemption, the agency must demonstrate that the material it withheld both involves confidential communications between an attorney and client and and relates to a legal matter for which the client has sought professional advice. Judicial Watch, Inc. v. U.S. Postal Serv., 297 F.Supp.2d 252, 267 (D.D.C. 2004) (quoting Mead Data Cent., Inc. v. U.S. Depâ€™t of Air Force, 566 F.2d 242, 252 (D.C. Cir. 1977)). The privilege applies only to records if they remain confidential, and the agency bears the burden of showing that it provided information to its lawyers with the expectation of secrecy and the information was not known by or disclosed to any...	1/3/2020

			Legacy Peopleplus system time cards for Alice Sabatini to include supervisor approving time card for FY 2009 . From Legacy Peopleplus please provide the FY 2008 - FY 2010 awards issued Alice Sabatini to include amount, recommending official and approving official . From the EPA legacy govtrip system please provide all travel for Alice Sabatini for FY 2009 and FY 2010 , Please include approving official information. [Clarification on January 4, 2020: Alice Sabatini was Identified as an Epa SES CDP candidate in foia EPA-HQ-2020-001158. Alice Sabatini retired from EPA as an SES in ORD (RTP). In FY 2009 Alice Sabatini worked as a GS-15 ORD for part of the year and OCFO OTS for the rest of the year. Alice will NOT be in the EPA HR system FPPS. When EPA migrated to IBC FPPS system for HR and payroll, only HR data for current EPA employees were migrated. As a result, EPA utilizes tax payer dollars to maintained a legacy Peopleplus system for HR records, and time and attendance records created prior to the migration. In OMS, Jackie Shepard (Cincy), and Micheal Reese (HQ) have the ability to easily and quickly access this data. In OCFO OTS, Terry Jacobs (Peopleplus project manager), KLC peopleplus support contractors and Jeris Bowlding have the ability to quickly access to this information. Others OMS and OCFO employees have access to this information as well. This information is also available in the EPA CBOR-Peopleplus. As submitted, I am looking for all 26 fy2009 timecard information for Alice Sabatini. This should include number of hours worked, fixed account number charged (fan), and supervisor approving the timecard.

EPA-R6-2020-001905	Kali Venable	Victoria Advocate	Under the Texas Public Information Act, Â§6252-17a et seq., I am requesting a copy of the EPA's FYR Addendum for the Alcoa (Point Comfort)/ Lavaca Bay Superfund Site cleanup in Calhoun County that is set to be completed by Sept. 30, 2019. I would also like to request a waiver of all fees in that the disclosure of the requested information is in the public interest. I am an environmental reporter with the Victoria Advocate and my request is strictly related to news gathering. The Texas Public Information Act requires that you "promptly produce" the requested records unless, within 10 days, you have sought an Attorney General's opinion. If you expect a significant delay in responding to this request, please contact me with information about when I might expect copies or the ability to inspect the requested records. If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law.	12/24/2019

EPA-HQ-2020-001872	Russ Kick	New England Anti-Vivisection Society	This request concerns the use of animals in research, teaching, etc. at EPA. It applies to every IACUC within EPA. At the very least, there appear to be IACUCs for the Andrew W. Breidenbach Environmental Research Center (Cincinnati OH) and the Office of Research and Development (Research Triangle Park NC). There may be others. It seems possible that the Office of Research & Development has one IACUC over all of its components, although there could be separate IACUCs for each component, such as the National Exposure Research Laboratory and the National Health and Environmental Effects Research Laboratory. Regardless of the exact organization, we request the following documents for EACH IACUC at EPA: 1a) According toÂ The Guide for the Care and Use of Laboratory AnimalsÂ (The Guide), 8th edition, all entities must have a system in place for anyone (insiders or members of the public) to report concerns regarding animal welfare at a facility. These reports are either made directly to the IACUC Chair or a designated representative, or they eventually are routed to the IACUC Chair/representative.Â We request all such reported concerns received by the Chair. 1b)Â Further, for all such reported concerns deemed supported, we request the notification sent to the Institutional Official. 2a) PerÂ The Guide, all entities must have a system in place for investigators to notify the IACUC and/or attending veterinarian of adverse events, unexpected or unanticipated outcomes, violations of protocols, incidents involving animal welfare, etc. that occur during their studies/experiments.Â We request all such notifications received by the IACUC or AV. 2b)Â Further, we request all notifications sent to the Institutional Official regarding these reported incidents.	12/23/2019

The EPA received FOIA Request EPA-HQ-2015-011230 on September 29, 2015â€”and hence the EPAâ€™s response was not subject to the heightened standard now mandated by the FOIA Improvement Act of 2016, Pub. L. No. 114-185, 130 Stat. 538 (discussed further below)â€”and the documents listed in Appendix A were all withheld under either the â€œdeliberativeâ€ or â€œenforcementâ€ exemptions. Because the EPA has concluded its enforcement action against Volkswagen, these documents should no longer be withheld on the basis of these exemptions. Nor can the EPA assert that it reasonably foresees any harm from the documentsâ€™ current disclosure, as required under the FOIA Improvement Act even if an exemption remained applicable. First, the deliberative process exemption protects pre-decisional, deliberative documents for fear that their disclosure will â€œâ€˜harm an	12/11/2019

EPA-HQ-2020-001582	Benny Esanu		Good Afternoon FOIA Officer, On April 2nd, 2019 at a NRCC Dinner, President Trump proclaimed that the noise from Windmills causes cancer. He has repeated this line multiple times, including at campaign rallies. I am hereby requesting any documents/reports/communications from EPA officials that the EPA has gathered that supports the idea that "the noise from windmills causes cancer". This should be a very narrow search, if there is any evidence that the claim is true, please provide the documents in either paper or electronic formats. If there are not any evidentiary material-- please provide confirmation that you were not able to find any documents that substantiate the claim. You all do a thankless job, and the American people support you and your patriotic work you accomplish every day.	12/9/2019

EPA-R5-2020-001329	Mr. Derek D Dobratz		On the basis of the Freedom of Information Act I am requesting the following document(S) from the Lead Disclosure Violation that Derek Dobratz reported to the EPA against property owner Carl Schneider/ MLS Holdings LLC located at 5615 W Lloyd St. Milwaukee WI, 53208. I request the Lead Disclosure Document that Carl Schneider Submitted to the EPA on September 17th, 2018. The attached Supporting File states that Carl Schneider provided this information to Pamela Grace. From: Carl Schneider Sent: Monday, September 17, 2018 3:57 PM To: 'Grace, Pamela' <[redacted] Subject: RE: Lead Disclosure 5615 W Lloyd St Milwaukee, WI "Pamela, Attached are lease dates and lead disclosure forms for my duplex property at 5613/5615 W Lloyd street Milwaukee, WI. 53208. Below is a summary of the lease dates and unit going back to fall of 2012": 7/1/2013 - 6/30/2018 Angela Lehmkuhl & Derek Dobratz - Lead Disclosure Form: Yes from 9/01/2012 when lived in lower flat. Carl Schneider claims in his email to Pamela Grace that Derek Dobratz signed a lead disclosure form in September 2012 when living in lower unit. This is inaccurate and false information because Derek Dobratz never lived in the lower unit (5613). I request All Documents from the EPA's investigation of Carl Schneider/ MLS Holdings LLC that was reported in July 2018. Completed Investigation is unknown or unreported. I request all documents communicated between the EPA and Carl Schneider, the EPA & Milwaukee Department of Neighborhood Services, the Milwaukee Health Department, and the State of WI Department of Health Services.	11/20/2019

EPA-HQ-2020-000977	Ms. Holly Stewart		Requsting infromation regarding the closure of Cooper Elementary School during the late 20th century. The property was adjacent to a petrochemical refinery and during this period there were issues regarding air pollution that contained benzene and numerous other chemicals associated wtih the petrochemical industry. The school was closed multiple times during normal calendar sessions due to unexplained child illnessess. The property was eventualy purchased by Ashland Oil, Inc, now doing business as Marathon Petroleum. Many former residents of the local geographic area have died of cancer, especially unusual ones such as reproductive cancers that are quite rare. Many children have experienced neurodevelopmental issues and have passed those on to their children through genetics.I was a former studnet there and I have requested information previously only to be told by the EPA that records regarding this facility cannot be located. There were air monitors set up during child attendance at the school and after it became an adminstrative office for petroleum employees. EPA-HQ-2020-000893	Dr. Rick A van Dam	T/A WQadvice	Background: I work with the Aust Govt on the Australian and New Zealand Guidelines for Fresh and Marine Water Quality (ANZG 2018), which is largely focused on deriving water quality guideline values for a range of toxicants. The USEPA OPP Pesticides Ecotoxicity Database represents a potential source of ecotoxicity data for this purpose. We require specific information in order to be able to assess the suitability of ecotoxicity data for inclusion. However, some of the information we require in order to do this does not appear in the OPP database search output reports. Details: The ecotoxicity data in the OPP database are assigned a category that relates to the "quality" of the study. The studies are categorised as either core (C), supplemental (S) or invalid (IN). According to the OPP database guidance manual (attached), a "Rationale" for the determination of this category is provided. This Rationale "...identifies what makes the study supplemental or invalid. It may be necessary to justify a higher category in spite of deviations. That is, a study may be called core or supplemental even though there were substantial deviations from recommended protocol. While all deviations should be noted, it may be that the deviations did not actually alter the response of the test organisms to the test material...". However, this Rationale is not provided in the ecotoxicity data search output reports, which makes it difficult to determine the suitability of the data (unless it is categorised as core (C), in which case it can be	11/7/2019

EPA-R9-2020-000772	Sarah Akerson		Hi, Under the Freedom of Information Act, 5 U.S.C. subsection 552, I am requesting copies of the following records: A list of superfund sites that are solely related to the disposal of radioactive waste. Specifically, I'm interested in sites such as the Formerly Utilized Sites Remedial Action Program (FUSRAP) sites, as well sites similar to McClellan Airport, where the government sought to hide the disposal of nuclear waste. I'm also aware of the U.S. government having dumped nuclear waste into the ocean. I'm trying to determine if there are even more sites, in addition to the FUSRAP sites, McClellan Airport and the ocean dumping, where the government sought to hide the burial of nuclear waste. If these records can be scanned and emailed, I would appreciate it. Please send to: â€¢ Jennifer Moores â€¢ Email: jennifer@jmi-inc.com â€¢ Physical address: 1207 Crestview Drive Cardiff, CA 92007 Thank you for your help with this request. EPA-2020-000664	Jean Warshaw	Jean Warshaw	Letter from Henry P. Lau, Chief, Chemical Inventory Section, EPA, to Daniel C. Hakes, 3M (Nov. 19, 1993)(IC-4482) This letter reportedly says: The Agency is aware that silicon dioxide, commonly referred to as silica, occursand is distributed for commercial purposes in several different physical forms.Inasmuch as the chemical compositions of the various physical forms are the same,EPA does not consider the different physical forms of silica to be separately reportable under TSCA. For the purposes of TSCA, the various physical forms of silica (SiO2) are all considered to be included under CASRN 7631-86-9, which is on the TSCA Inventory.Â Â Thank you, Jean Warshaw 212 277 2240	10/29/2019

EPA-HQ-2020-000611	JIm Ace	Stand	I am attempting to compile information on cruise ship discharges as detailed in individual vessel reports from the Annual Report for Discharges Incidental to the Normal Operation of a Vessel under the 2013 NPDES Vessel General Permit. My questions are: (1) does EPA summarize in a spreadsheet the discharge information contained in individual cruise ship permit reports? (2) does EPA compile and summarize discharge data across vessels (whether by type or size of vessel, across corporate owner, or by type of discharge, presence of scrubbers, or other criteria)?. Please let me know what type of data is compiled from the individual vessel reports, and what the process is for the public to gain access to it. If this letter is better directed to someone else, please provide that contact information.	10/25/2019

EPA-R9-2020-000557	Mr. Adrien Salzberg		To Whom It May Concern: Pursuant to the Freedom of Information Act, I hereby request the following records: All communications and documents between the EPA and any contractors hired to create Flash games for the EPA's "Recycle City" website. These records would include emails between staff and the contractors, agreements for the games to be produced, progress reports, and communications within the EPA regarding publishing the finished product. Additionally, I am also requesting EPA communications, including e-mails, regarding the use of music from the Nintendo DS game "Yoshi's Island DS" in the EPA Recycle City flash game. The use of this music was reported widely in early 2019 after a Twitter post by @ForestIllusion, stating "Fun fact: The United States government stole the underground theme in Yoshi's Island DS for the Enviornmental Protection Agency's flash game about recycling. The song can be heard right after pressing the start button." The music was since removed from the game and an EPA spokesperson responded "We are looking into whether the contractor received permission to use the music, to the extent permission was necessary in this instance." The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.	10/23/2019

EPA-R3-2020-000432	Mr. Andrew D Hubley	Environmental Consulting, Inc.	My firm is performing environmental due diligence activities for a client interested in lending on the real estate at 1004 New Holland Avenue in Lancaster, PA. The site is known as the Burle Business Park and was formerly the RCA Corporation site. General Electric ("GE") acquired RCA Corporation in 1986 and transferred ownership of the property to Burle Industries, Inc. in 1987. At that time, GE retained ownership of a 15-acre portion of the site known as the GE Property (1350 Pleasure Road). We are aware that an Administrative Order on Consent was signed between GE and the USEPA on December 16, 1988 that required GE to perform environmental investigation and remediation activities. The remediation activities included the installation and continued operation of a groundwater recovery and treatment system. The GE groundwater recovery and treatment system was operating and later incorporated two (2) groundwater wells located on the Burle Business Park property in September, 1992. We are looking to obtain confirmation from the USEPA that the groundwater recovery and treatment system on the GE Property is still in operation today and to find out the status of the remediation. Is there a current remedial summary or is there an EPA case manager we	10/18/2019

EPA-HQ-2020-000352	Miss Lexington K Howe		10/14/19 Kesha Forrest, Standards and Risk Management Division, Office of Ground Water and Drinking Water Water Docket, Environmental Protection Agency 1200 Pennsylvania Ave. NW, Washington, DC 20460 RE: Freedom of Information Act Request Dear Ms. Forrest, Pursuant to my rights under the Freedom of Information Act, I ask to obtain a copy of the following if possible: As of December 2018, public comments were closed regarding Requests for Nominations: Drinking Water Contaminants for the Fifth Contaminant Candidate List uploaded to the Federal Register and regulations.gov, under Docket ID No. EPA-HQ-OW-2018-0594. While 29 comments were submitted, over 10 were concerned about adding Legionella Pneumophila to the list of contaminants. Iâ€™d like to request documentation on your most recent analysis of Legionella Pneumophila and its impact on California water systems. I ask for a determination on this request within 20 days of your receipt of it, and an even prompter reply if you can make that determination without having to review the record[s] in question. If you determine that any or all or the information qualifies for an exemption from disclosure, I ask you to note whether, as is normally the case under the Act, the exemption is discretionary, and if so whether it is necessary in this case to exercise your discretion to withhold the information. If you determine that some but not all of the information is exempt from disclosure and that you intend to withhold it, I ask that you redact it for the time being and make the rest available as requested. In any event, please provide a signed notification citing the legal authorities on which you rely if you determine that any or all of the information is exempt and will not be disclosed.	10/15/2019

EPA-2020-000216	Mr. Francisco Javier Gonzalez		Dear members of the Agency; I belong to a Veterinary Pharmaceutical Laboratory located in Santiago de Chile, I am the Head of Development Area and I have the following technical consultation, for which I would appreciate your comments: Could you please indicate the quality specifications that you consider valid for pyrethroid active ingredients, specifically two; (1) Cypermethrin and (2) Permethrin, in pharmaceutical products (pour on) that will be used in production animals intended for human consumption, specifically bovines. If you can provide us with a document, or a reference with these specifications for each active principle (1) and (2), it would be perfect, or at least, we would appreciate if you could indicate the minimum purity that you authorize to be part of a veterinary product as the one described above. Currently, we have only had access to FAO references (AGP: CP / 316) for Cypermethrin where it sets specifications for the technical grade raw material. The Agency has specifications for a pharmaceutical grade ?, or is the material technical grade (minimum purity 90%) considered suitable for products such as the one described above.	10/9/2019

EPA-R4-2020-000181	Leah Moore	Terracon Consultants, Inc.	We are performing an environmental assessment on a property near the Hampton County Landfill. The address for the landfill is not listed in the online SC DHEC records. The landfill is listed as a MSW landfill with permit nos. 251001-1101/DWP-119. The coordinates (UTM) are 479929.944 m E, 3633249.546 m N. Based on our environmental database records search, the landfill was investigated under the Superfund process from around 1996-2000 and was determined to not qualify for NPL listing. The Site ID is 0406524 - Hampton County Landfill. Again, no street address is listed but the city is listed as Gifford, SC 29923. I've attached the database listing for reference. I'd like to obtain copies of any information available regarding the landfill's listing and investigation, as available. Our report deliverable has been expedited and I respectfully request records be provided by next Wednesday, 10/16/2019.	10/8/2019
