Hello Sonja,

As we discussed on the phone, we believe the preliminary draft LPDES permit contains several incorrect assumptions and errors in implementation with regard to establishment of the new

WET testing conditions at Outfall 004 and possibly Outfall 015. We will be submitting specific information relevant to this in a letter next week. Who specifically at LDEQ and EPA should we address the letter to and/or consider as each agency's technical contact? Please advise. Thanks.

If you have any questions, please feel free to contact me.
