Attachments: 10.29.18 Generator Waste Profile Form - F.J. Doyle Salvage Site - Leonard TX - CD Debris - Class II (Signed).pdf; 10.29.18 Generator Waste Profile Form - F.J. Doyle Salvage Site - Leonard TX - Class I (signed).pdf; 10.29.18 Generator Waste Profile Form - F.J. Doyle Salvage Site - Leonard TX - Class II (signed).pdf

Signed documents attached. Do you have the profile for the TSCA waste yet?

Remember that I would like to recycle the metal if possible but we should talk about it.

Thanks
Gary Moore

Subject: Waste Profiles

Good afternoon, Gary and Paige.

Attached please find waste profiles for disposal of the non-TSCA soils and C&D debris with the low bidder, Republic Services, Inc. (RS). I've discussed profiling the waste into both Maloy and Pleasant Oaks with the RS rep, Chris Alderete, and they are willing to see if Maloy can receive the waste. Their primary permit concern is the TPH and we may need to provide proof that we don't have in excess of the dioxin concentrations noted per the requirements listed in the TAC Chapter 335, Subpart R, Appendix 1 Table 1.

I'm currently working on applying for a TCEQ waste code for the Class I waste option going to Pleasant Oaks. I'll forward that to RS and START upon receipt from the state.

I'm also working on the TSCA profile and will have that to you COB today for review.

Let me know if you have questions or comments.

Regards,

Don
