Ben –

I 'm drafting rather broad language In the task and will amend accordingly based on our conversation tomorrow.

Cheers

Thanks Forrest;
I will ask Peter Cada about his schedule and remind him of the tasks. We can talk tomorrow after you have drafted the task – or before if that is useful.

Ben –

Angel is currently copying the shape files for the catchment delineations to the ftp site. Attached is a pdf file that maps all of the sites. After you've had a chance to review the files, let me know and we can review. Additionally, I've discussed the GIS analysis with Jacques Oliver and he seems okay with it but I will need to draft a task in order for Jacques to assign to the task order. I'm currently working on this and should have this completed by early tomorrow.

Cheers

Hi Forrest;
Here is an ftp site for the stream delineations. The user name and password are embedded in the link below. You can add a folder as needed and let me know when the data are loaded.
Thanks!
Ben
