Subject: RE: Radium Sampling

Mike -- thanks. We are starting late next week and hope to finish in two weeks. Either Henry Wilkie or Steve Scharf will contact both of you with a date. We will want to obtain a sample from the raw water tap when the plant is running. I appreciate your cooperation. Jim H

Jim,
Contact either myself or Peter Schimmel for access. E-mail is the best
Mike

Subject: RE: Radium Sampling

Mike -- I never received a response to this. Except for getting access to the Bethpage Water District well and the Hicksville Water District wells, we are ready to conduct the sampling. Please let me know who we should coordinate with at the plant. Thanks Jim H

Subject: Radium Sampling

Mike – as you know, DEC is undertaking a comprehensive groundwater radium sampling study in and around the Grumman plume. One of the wells that we would like to sample is Well #7 at Plant 1 (Adams Avenue). Since the water districts have requested this sampling, I assume that you are in agreement and will provide access. We expect that the sampling will occur in September. If the well is operating, we can take a sample from the raw water tap. If the well is not operating, we will have to figure out how to get a sample. Who should we contact at the plant to work out logistics?
Thanks Jim H
