Doug,
We can make it in by 9:15 am on Wednesday next week. It will be me, Mike, Frank, and Rich. Please provide room details. I believe a half hour will be sufficient.

Thank you,

Stan Carey, Superintendent
Massapequa Water District

Hi Stan

I left you a long voicemail yesterday indicating, in short, that Catherine would be available to talk after the meeting assuming it ended around 1:30.

Catherine sent me a note after that suggesting that it might be a bit easier to meet before the meeting, as it might be less awkward and simpler to set up a given time and a different location from the larger group meeting.

Her calendar is wide open before 10. Let me know if this approach would work for you or if you would prefer to try to do it at the end of the meeting.

Thanks

She will be there at least from 10-12 and likely for the full duration. At one point she was going to have to break away for a call at noon...that is why the meeting is scheduled for 3.5 hours in case we wanted to take a break then and come back when she returned. There was some talk that her noon call was likely to be cancelled....I will check on all that.

So she will not be at the regular meeting?

Stan Carey, Superintendent
Massapequa Water District

Sorry to hear that Stan. I thought some progress was starting to be made.

Catherine's calendar looks booked from 10-4, but I can't see the particulars and will speak with her admin assistant about what she has that afternoon. At one point I had asked her admin to block a longer period of time for the meeting, so hopefully we will have some time at the end, if not we will figure something else out.

I'll get back to you tomorrow.

Doug

Subject: December 14th Meeting

Doug,
The water districts met with the DEC back in May and Bethpage met with them a couple weeks ago. The lack of acceptable progress continues to be troublesome. We would like to meet with EPA after our meeting next week. Can you and Katherine set aside a few extra minutes after the regular meeting to meet with us?

Thank you,

Stan Carey, Superintendent
Massapequa Water District
