Subject: RE: CERCLA 104e Request to Ashland, ISP and IES
Date: Wednesday, March 30, 2016 1:35:12 PM

Hi Frank:

I write in follow up to our call yesterday and to confirm that EPA has provided Ashland, ISP and IES with a two (2) week extension to provide a partial response to the CERCLA 104e request concerning the LCP site. The new due date for the partial submission is Friday, April 15, 2016. As discussed, we will be making a rolling production of information based on when it becomes available to us.

We greatly appreciate your courtesies in providing this extension which was required as our clients do not yet have access to all of the documents requested, although we have been working diligently to obtain them for many weeks. As discussed, we hope to be in a position to provide responses to some of the questions in the 104e by April 15 along with a limited set of documents to EPA. We do not yet know how long it will take to obtain the documents that EPA has requested. We will keep you updated on the status of the documents, the vast majority of which are still in storage with the prior insurance coverage counsel's firm. We have been working with them to obtain the relevant materials, which are not yet in hand and are among hundreds of boxes of documents in storage.

Finally, as discussed on our call, after the partial submission, we would like to talk with you about further refining EPA's request, as the volume of materials that EPA seeks is very significant and may not be necessary to satisfy EPA's inquiry in this matter.

Thank you.

Bill
