Subject: WV Chemical Waste Profile
Profile - PPE, sorbent, debris.xlsx

Dennis,

Attached is the waste profile prepared for the WV Chemical IDW disposal. I asked them about the 'Generator address'. They have to use the address of the location where they will be picking up the waste in block 1. I added the mailing address for the EPA Wheeling office in Block 21 to have them mail the completed manifest. I also asked him to find out which HCC disposal facility the waste will be going to. After you review, please sign in the signature block and add 'EPA' to the 'company name' block (I couldn't add it electronically). If you email me a scanned copy, I can forward it to Capitol and they will prepare the manifest for us to review.
