**Subject**: stratospheric intrusion work group call Sept 18

Hi All,

We have an SI work group call on the calendar tomorrow, Sept 18 at 9 am PT/10 am MT/11 am CT/noon ET.

Conference line: Conference Line/Code / Ex. 6
Conference ID: Conference Line/Code / Ex. 6

I have two agenda items for the call:

1. Check in how the states/MJO are progressing on the review of the draft guidance for stratospheric intrusion. FYI, EPA/OAQPS sent the draft guidance to the MJOs in mid-August for a 60 day informal review period, and OAQPS has a goal of finalizing the guidance later this year. Let's check in on whether there are any questions or comments on the review.

2. Let's check in on any potential SI events from the last few years that the states might be considering for a formal EE demonstration. I'd also like to get a list of events that states plan to identify with informational flags, but do not plan to submit a formal demonstration. I understand that the regulatory significance for some events might still be uncertain, and that states might not yet know which of those two options they will pursue.

Thanks,
Gail
