Subject: FW: DRAFT_ CDC response to Rockefeller letter re WV
2277075-West Virginia Chemical Spill - Senator John Rockefeller 3 20 14 draft to epa.docx
14-000-5617.pdf

Jennie,
A second letter came from Senator Rockefeller regarding Charleston. As you will see from email below, CDC prepared the response and is asking for EPA review and comment. Linda Miller, and I believe RA Office, view is that if we have nothing to add then CDC might just sign the letter and we will send a separate letter transmitting CDC's response.

Cecil though your group should see the CDC response also before we reply to Linda.

Please let me know if WPD has any questions or comments.

Thanks,
Ken

Attached is a CDC draft response to Sen. Rockefeller s February letter to CDC and EPA. CDC is asking for EPA review and comment.
If EPA does not have any additional information to add, we might consider having only CDC sign the letter (this is a draft, CDC staff said they would add an EPA signature block once it has been further reviewed), and EPA can send a separate cover letter transmitting the CDC response because they are the federal health agency.

Please circulate this draft only to appropriate reviewers. Thanks! Linda
