Subject: Latest Model Predictions

Here are the latest model projections for the arrival time of the leading edge of the Elk River MCHM chemical plume. This will be the last model update for Evansville, Mt. Vernon and Henderson. Updates for Morganfield, Sturgis, Paducah, USEC and Cairo will be issued tomorrow based on Evansville, Mt. Vernon and Henderson and observations.

Site	Mile	Date of Arrival	Arrival Time
Newburgh L&D	776.1	1/19/14	1630
Evansville	791.5	1/19/14	2330
Henderson	803.0	1/20/14	0530
Mt. Vernon	829.3	1/20/14	1830
J.T. Meyers L&D	846.0	1/21/14	0230
Sturgis	871.4	1/21/14	1230
