Subject: RE: Chemical regulation presentation

Hi Nancy,

Thanks for looking through the presentation and making the OGC contacts.
Joe and Justin – good to meet you. This presentation is high level but if you have anything clever to add that students would value from an educational point of view please share!

Thanks Emma.
Since this is about the regulations and statutes, have you had OGC take a look? I recommend Joe Cole and Justin Schwab, whom I've cc'd here.

A few comments below:

Deliberative Process / Ex. 5

Deliberative Process / Ex. 5

Many thanks,
Nancy

Subject: Chemical regulation presentation

Hello Nancy,

David has mentioned to you that I am preparing for a lecture at GWU in the Green Chemistry program Thursday evening. Attached is the slide deck. The theme is an overview of chemicals regulation. The slide deck identifies the Agencies and statutes that regulate chemicals in products in the U.S. and how they differ. Then it identifies other organizations, e.g., international actions that impact chemicals management, and touches on data requirements for different chemical types.
