**Subject**: USG Interiors - Modeling Questions - Follow up

Hi Joy and Phil,

Thank you for participating this morning on a call pertaining to your concerns with the USG Interiors in Cloquet, MN permit that was issued in 2012. We hope that we addressed your questions pertaining to the paired sums method that was used for PM-2.5 NAAQS modeling, and paired sums and OLM and PVMRM for NOx Tier 3 modeling.

If you have any further questions please do not hesitate to contact us.

Sincerely,

Monika Lacka, Life Scientist, State and Tribal Planning Section, ARD
