Subject:	Fw: DOH / EPA Mgmt Call Agenda and Draft EOY Schedules
Date:	11/15/2012 04:15 PM
Attachments:	Draft Schedule options for DOH review.docx

Aloha
Gary and Stuart,

Below are 2 schedule options EPA is proposing for discussion on our call tomorrow. It would be great if we could commit to one of these two options, or a workable adjustment per your feedback by the end of the call tomorrow, or Monday at the latest.

Draft Agenda for our call tomorrow 11/16/12 - 2 pm Hawaii time

1. Confirm Schedule for EOY meetings (see attached).
2. Proposed field trips - review options (below), and choose (if any) - see attached
2. Discussion of expectations for December meetings - Program Specific, including topics we missed last call

- NPDES Permits - % current, GPs, etc
- GW106/DW SRF Set-Aside--DOH SDWB and EPA are working to draft a framework & strategy to strengthen the GW 106 and Wellhead Protection Programs
- 2012 Integrated Report - anticipate DOH to public notice by mid-November, DOH overview of assessment for all programs
- Lahaina tracer study & 401 wq certification status
- Coordinated watershed focused meetings (Hanalei and West Maui)
-

thanks,
nw
