Rick these two stakeholder meetings are on your calendar for Friday, April 5th: OP Coalition and American Chestnut. This is your next compressed day. I just sent an email to Derrick and Kaitlin asking if we can avoid scheduling these meetings on your compressed day. Are you planning on delegating them?

For the OP Coalition meeting with Cindy Smith, Kaitlin is asking for talking points and background on the 10x paper. She sent the latest fact sheet on this. Alex hasn't been briefed on this yet. Perhaps we can update as needed and also add in the background section what she should expect to hear from Cindy/her issues. I can check with HED on updates. Thoughts?

For the American Chestnut meeting, Alex was briefed, Kaitlin has the briefing materials, but would like a 1- pager that reminds her of the issues.

I can start the work on these.

Darlene- I mentioned this yesterday but below are the two upcoming meetings on 4/5. Talking points for both would be helpful, and some background on 10x paper as well. I've attached the most recent 10x fact sheet I had as a start.

OP Coalition 10:00am-10:45
Purpose: Meet and Greet and discussion of one policy issue
Key Attendees: Cindy Smith, Gowan USA, Agricultural Relations Director
Discussion Topics: Introduction of the OP Coalition, brief discussion of EPA Health Effects Division - "Literature Review on Neurodevelopmental Effects and FQPA Safety Factor Determination for the Organophosphates"
Other Important Information: not discussing any ongoing legal action

American Chestnut 3pm-4pm
No details in the invite, but she already had the briefing on this issue (slides attached). A few talking points would be helpful though.
