> I forwarded to Janet (take the "epamail" out of the address) and David Albright, Chief of EPa's Underground Injection Control Office. We would be interested to hear about your meeting with Cheryl and others at Maui and discuss options for future work. We have sent Cheryl a formal letter requesting specific types of information that we need to inform our regulatory decisions on Lahaina. I think Chip may have that letter.

Subject: USGS help with Lahaina

Hi Janet,

We recently brief Cheryl Okuma, Director of the Maui County Dept. of Environmental Management, on Chip's nutrient and wastewater surveys in Maui. Much of the discussion focused on what we know and what we don't know  Cheryl is very interested in Chip's suggestions for follow-on work by USGS and others. She has called Chip several times but the conversation seems to lack a clear set of questions and metrics to address given the many pressures from EPA/DOH and the community. I'm thinking that a conference call with you, Wendy, and others at EPA would be helpful. Chip would explain what he and Cheryl have been discussing and you could provide some guidance / direction that Chip could follow-up on in subsequent discussions with Cheryl.

Let me know if you are interested.

Thanks, Steve
