>> Hello Jason, Michael,
>>
>> I was just looking over EPA Region 4's Title V Database and see that the US Steel documents in the database are dated March 9, 2021. Yet the email we got from Jason (below) explains that the documents were made available on the website a few days later, March 15, 2021. So it is unclear to me on what day EPA's review period started. **If y'all can let us know when EPA's review clock started, we'd**

appreciate it.

Second, EPA's database is showing concurrent review by EPA and the public for this permit. And since GASP, Inc. submitted comments, the database needs updating. Not sure which one of you takes care of that, but wanted to alert this to you so that the corrections can be made. If you'd be so kind as to let us know which agency makes this correction and who we can contact, that'd be great, as there are a bunch more in this category I want to let someone know about..

Thank you,
Sara Laumann
