Subject: Copy of 1991 study

Aloha Wendy:

Here's a copy of the 1991 study that was done prior to the expansion of the number of injection wells at the Lahaina Wastewater Treatment Plant.

I did speak with Mr. Albright to get background about the current study. Could you take a look at the 1991 study to examine the methodology of Steven Dollars' study? I plan to call you to see if my impression of Dollar's study is the same as your's.

Thanks,
Gary Kubota,
