- Anaconda Smelter
  - At the request of the Anaconda-Deer Lodge City/County government, EPA will sample the interiors of public schools in Anaconda, Montana for lead and arsenic contamination at the end of March 2018. The Atlantic Richfield Company will sample the school grounds at the same time. Along with the Agency for Toxic Substances and Disease Registry (ATSDR) and also in response to a request from the city/county government, EPA has begun plans to complete a Public Health Study for Anaconda by March 2019.
    - The Atlantic Richfield Company plans to complete residential property cleanups in Anaconda and cleanup of the remainder of the 300-square-mile Superfund site by 2025.
