It has been a few weeks since an update was shared with the team. As you know, our revised draft Bristol Bay Assessment was released to the public on April 26. The initial public comment period was to expire on May 31. However, on May 30, the decision was made to extend the public comment period 30 days to June 30 so as to allow the public more opportunity to review and comment on the revised assessment. As of May 24, 2013 at 5 p.m., the EPA BB docket had received and posted a total of 142,820 comment letters. Of these, 520 are unique letters and 142,300 are from 18 different mass mailing campaigns (17 of which are supportive of EPA and 1 opposed).

Ex. 5 - Deliberative

Thanks again for all your hard work. We still have a way to go to the finish line, but we are almost there.

Jeff
