Changed: The ECOS Air Committee will be hosting an All-Member call with EPA OAR and OCIR leadership (EPA attendees listed below). EPA is beginning to engage key partners in a discussion of the agency's approach to the U.S. power sector. This meeting will be a listening session where state leaders share their thoughts on how best to approach the U.S. power sector with EPA.

Questions to consider:

1. What are the top three things you'd like EPA to have on their minds as they consider options to regulate GHGs?
2. EPA is considering actions under various statutory programs to address multiple health and environmental impacts from the power sector, including actions such as the ongoing review of the MATS RTR, pending rulemaking on interstate transport, the GHG standards under section 111 of the Clean Air Act, and the Office of Water's effluent limitations guidelines. Should these rules be harmonized? If so, what do you think is the best way to harmonize these rules from the state perspective?
3. Your lessons learned from state programs that could be applied in an EPA context.
4. How to structure state compliance for delegated programs?

EPA attendees:

* Joe Goffman, Principal Deputy Assistant Administrator, Office of Air and Radiation
* Tomás Carbonell, Deputy Assistant Administrator for Stationary Sources, Office of Air and Radiation
* Tim Profeta, Special Counsel for the Power Sector, Office of Air and Radiation
* Casey Katims, Deputy Associate Administrator for Intergovernmental Relations, Office of Congressional and Intergovernmental Relations
* Jack Bowles, Director for State and Local Government Relations, Office of Congressional and Intergovernmental Relations

Subject AAPCA Member Call: EPA's Power Sector Approach Listening Session

Location Microsoft Teams Meeting

Show Time As Busy

03/28/2022 Update – U.S. EPA is joining this call as in an effort to receive early input about the Agency's approach to the power sector that U.S. EPA Administrator Michael Regan described in his speech <https://www.epa.gov/speeches/administrator-michael-regan-remarks-ceraweek-about-epas-approach-deliver-certainty-power> at CERAWeek on March 10. Specifically, U.S. EPA would like to receive the thoughts and input of AAPCA's membership on the following questions:

* What are the top three things you'd like the Agency to have in mind as we execute the vision of Administrator Regan for the power sector?

* EPA recognizes that this is a dynamic time for the power industry. How should we best approach designing and harmonizing our rules in a way that acts in concert with this transition to technologies that will benefit the country's public health and environment?
* EPA is not acting alone with regard to the power sector. What partnerships within the federal government would it be most important for EPA to pursue to ensure opportunities, and address concerns, for your members as the power sector transitions to cleaner technologies?

AAPCA Air Directors and Committee Chairs,

U.S. EPA and AAPCA have coordinated a listening session on the Agency's approach to the power sector. This listening session will provide an opportunity for state and local air agencies to provide perspectives on how best for U.S. EPA to approach the U.S. power sector. Currently, AAPCA expects the following U.S. EPA participation:

* Joe Goffman, Principal Deputy Assistant Administrator, U.S. EPA Office of Air and Radiation
* Tomás Carbonell, Deputy Assistant Administrator for Stationary Sources, U.S. EPA Office of Air and Radiation

U.S. EPA will provide a list of questions for consideration ahead of the listening session. Please forward this calendar invitation as appropriate.

The listening session will be held via Microsoft Teams – Below is the access information (and an option conference line):
