Matt Diener (our START contractor) will be on-site with your team. He should also be able to supply current information regarding the draft materials attached. Please be sure to include Matt in your correspondence as I will be out of town next week.

Hi Craig,

I will definitely keep you informed about planned on-site activities.
We plan to be on-site with Chempack to do the inventory and hazcat work on Wednesday of next week. I'll confirm the start time with you early next week.
Could you forward me the inventory that ecology & environment started? It would be helpful for me to have that prior to starting the work.

Thanks,

NICOLE PEACOCK, P.E., P.G.

I understand you are the main contact for PRP activities on-site. Please let me know what the schedule is with respect to your activities, subcontractor activities and any on-site activities that may be planned.
