Gwen,
Here is the latest version with Alan and Catherine's input. Most of the rest of the team got this and has commented.

Subject: Bristol Bay Cultural Assessment

Ms. Schofeld
Catherine Knott and I are working on the cultural (TEK) assessment for the Bristol Bay Project. I think we "met" on the last teleconference. Attached is a draft of how the cultural aspects might fit into the conceptual diagram. I cut and pasted the bottom of the PowerPoint version of the diagram ending with impacts on "salmon" and "wildlife" both with down-arrows and added arrows and ovals. Sorry it's so rough. I didn't know if any given entry should be an oval, rectangle or something else—I'll leave it to you to amend as necessary. Some of the text is too much, again amend as you see fit.
You have our e-mail, my office phone is 907-262-0360 and my cell is [redacted]. Let me know how I can help.
Alan
