RE: **2010 Annual Report for Export of Hazardous Waste**
EQ Detroit, Inc., EPA ID No.: MID 980 991 566

Dear Mr. Heiss:

Enclosed please find the **2010** Annual Report of Hazardous Waste Exports pursuant to 40 CFR 262.56 for EQ Detroit, Inc.(MID 980 991 566).

The report entitled "Canadian Hazardous Waste Exports for 01/01/2010 through 12/31/2010 is enclosed.
Please note that the report includes a "Prenote Distinct Manifest Count" field. Because there could be many prenotes / AOCs associated with each manifest, the total number of shipments to each facility is as follows:

CRI Environmental, Inc. – 80 shipments
Cyanide Destruct Systems – 21 shipments
Newalta Industrial Services (Ft. Erie, Ontario) – 2 shipments
Newalta Industrial Services (Toronto, Ontario) – 1 shipment
Stablex Canada, Inc. – 13 shipments

40 CFR 262.56 (a)(5)(i)

EQ Detroit, Inc. is a hazardous waste treatment storage and disposal facility (TSDF) currently operating under a RCRA Part B Permit. Whenever possible and practical to do so, hazardous waste toxicity is reduced by either chemical or solidification/stabilization treatment. However, there are some wastes, due to their matrix and/or hazardous constituents, that are not completely responsive or conducive to this type of treatment and whose level of toxicity cannot be reduced.

40 CFR 262.56 (a)(5)(ii)

EQ Detroit, Inc. has been exporting hazardous waste since 2004. Over the years, the total volume declined to about 1,500 tons in 2010. As a TSDF, EQ Detroit experiences variations in hazardous waste volume and toxicity from year to year due to generator variability.

WASTE MINIMIZATION STATEMENT:

D-coded, characteristically hazardous wastes are removed from regulation as hazardous waste by treatment to render their hazardous constituents non-hazardous. Waste minimization of the waste treatment residual generated at " + generator_name + " is contrary to the business objectives of this Treatment, Storage and Disposal Facility.
