Re: Annual Report of Hazardous Waste Exports

To whom it may concern:

Enclosed please find General Chemical Corporation's Annual Report of Hazardous Waste Exports for calendar year 2010, and the annual Waste Minimization Statement, as required by 40 CFR 262.56.

Sincerely,

Roy H. Swartz
Manager of Regulatory Compliance

HAZARDOUS WASTE EXPORT REPORT

Waste Minimization Statement

General Chemical Corporation ("Company") is a licensed Hazardous Waste Storage Facility located in Framingham, MA. As such, we store, bulk and ship wastes generated by others, and we therefore have little control over toxicity levels or volumes. However, in providing hazardous waste management services, it is the Company's objective to reduce its generation of toxic by-products to the greatest extent technically and economically feasible. This effort has been extensively documented in our Massachusetts "Toxic Use Reduction Plan."

Since there are no additives, catalysts, etc., used in our operations, toxics reduction options are limited to the area of by-product reduction. Management is committed to an ongoing pursuit and evaluation of cost effective process and/or equipment changes which could reduce the toxicity and/or volume of our by-products.

No new technologies or practices have been employed during the past year with respect to the wastes referenced in this report. All employees have been informed regarding the Company's objectives and their input has been actively solicited. The Company continues to encourage employee participation in this area.

CERTIFICATION

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.
