Samantha,

The only other immediate work is that of Ex. 5 Deliberative Process (DP)
Ex. 5 Deliberative Process (DP) I thought you were briefed on this several months ago, but perhaps not.

Subject: PFAS health effects data...

Hi Ron,

I have been catching up with folks in NCEA on any PFAS related activities and recently found out that Erin Hines (NCEA) had provided some consultation to Tamara Tal on some developmental neuro work (*Exposure to PFOS, PFHxS, or PFHxA, but not GenX, Nafion BP1, or ADONA, Elicits Developmental Neurotoxicity in Larval Zebrafish*), and I was wondering if you were aware of any other projects and/or planned NHEERL publications relating to the health effects of the next 5 PFAS that we are assessing (PFHxS, PFHxA, PFDA, PFNA, PFBA)?

The teams are evaluating the literature and trying to stay aware of any potential new data coming out.

Any thoughts would be greatly appreciated!

Samantha
