Jerry,

I have been in and out of my office all day. I can meet with you tomorrow to get you chemicals. Lab D257 is now open. However I have most chemical sup in room D588 right now. I get in a 7 am tomorrow.

Hi, Mark:

I have set 96-well plates. How can I get chemicals from you? I have returned PFOA to Donna.

Thanks,

Jerry

I would ask Earl Gray. If he is out Synquest sells it.

I have the PFOS, GenX and PFMOAA. How much do you need? The only Nafion BP2 I have was from Justin Conley/Earl Gray and was a solution in water. I don't have any Nafion BP2 solid.

Mark, Donna and Neil indicate that we would need to get the other chems from you. Can we have a small amt of the following besides the pfoa?

Pfos
Nafion BP2

Genx
PFMOAA

I think that Chris Lau said he has some pfos if you are low.

Thanks!

Okay so I am guessing you will only need a small portion of the remaining 20 grams correct? Take what you need.

This is 50 g bottle, and about 2/5 full (35-40%), about 20 g, I guess.

Would you please let Mark know how much PFOA is left? I didn't assess that before I gave it to Jerry and Mark isn't sure how much is left.

Thanks,
Donna
