Brandi,

On October 25, 2019, Phillips 66 provided a Response to Special Notice for RD/RA in which it presented new information and evidence to the EPA concerning its potential lack of liability at the Horton Iron & Metal Site in Wilmington, NC. The EPA requires more information concerning statements made in that response.

Please see the attached Information Request directed to Phillips 66 pursuant to Section 104 of CERCLA. The hard copy is being sent certified mail today, so you should have it by Monday.

I will be out of the office for the next week. In my absence, please contact Teresa Mann if you have any questions concerning the request.

Thank you,
