That could be useful. Here is the latest draft complete master list, if you want to add some columns (for the states) and rows (for new chems that are not currently in the table), feel free. Could be interesting.

ORD ACTIVE PFAS 2018 08 2...

By the way, NCCT et al will be doing a second round of 75 PFAS in their HTT testing, I suggested talking to Mark for ideas about including some nafion and other new discoveries (assuming we have access to a standard).

Andy,

What do you think about adding columns to include the PFAS that we have identified reported in NC, NH, and NJ?

Tim

Colleagues, here is a table I have been maintaining showing which compounds are being studied under different lines of work in ORD.

<< File: PFAS of Interest spreadsheet V15 AG.xlsx >>

Happily, Jonathan's list matches what I have in column (h), as it should.. Ex. 5 Deliberative Process (DP)
Ex. 5 Deliberative Process (DP) More is welcome.

Subject: Re: NRMRL-Cin Visit

Hi all
There was an email from Bob requesting the 9 compounds I referenced yesterday. Here they are:
PFOS
PFOA
PFHxS
PFHxA
PFBS
PFNA
PFDA
PFBA
GenX

Let me know if there are any further questions.
Regards
Jonathan
